CITY OF NEWTON

IN CITY COUNCIL

August 8, 2022

ORDERED:

73085/545

That the City Council, finding that the public convenience and welfare will be substantially served by its action, that the use of the site will be in harmony with the conditions, safeguards and limitations set forth in the Zoning Ordinance, and that said action will be without substantial detriment to the public good, and without substantially derogating from the intent or purpose of the Zoning Ordinance, grants approval of the following SPECIAL PERMIT/SITE PLAN APPROVAL to allow a detached accessory apartment, to allow a detached accessory apartment that does not meet principal building setbacks, to allow dormers which exceed 50% of the wall plane below, and to increase the nonconforming floor area ratio as recommended by the Land Use Committee for the reasons given by the Committee, through its Chairman, Councilor Richard Lipof:

- The site is an appropriate location for the proposed detached accessory apartment with oversized dormers in a structure that does not meet principal setbacks because the setbacks for the existing accessory structure are being maintained. (§6.7.1.E.1.a; §6.7.1.E.4; §1.5.4.G.2.b; §7.3.3.C.1)
- The proposed detached accessory apartment with oversized dormers in a structure that does not meet principal setbacks will not adversely affect the neighborhood because the structure is set back further into the site and will be minimally visible from the street. (§6.7.1.E.1; §6.7.1.E.5; §7.3.3.C.2)
- There will be no nuisance or serious hazard to vehicles or pedestrians because the driveway location is being maintained. (§6.7.1.E.1; §6.7.1.E.5; §7.3.3.C.3)
- Access to the site over streets is appropriate for the types and numbers of vehicles involved. (§6.7.1.E.1; §6.7.1.E.5; §7.3.3.C.4)
- The proposed increase in the nonconforming FAR from .37 to .45, where .33 is the maximum allowed by-right, is consistent with and not in derogation of the size, scale and design of other structures in the neighborhood because the FAR is broken up between two structures. (§3.1.3; §3.1.9; §7.8.2.C.2)
