CITY OF NEWTON

IN CITY COUNCIL

September 19, 2022

RECEIVED  
 ORDERED:  
 2022 OCT 11 AM 11:59  
 CITY CLERK  
 NEWTON MA 02459

That the City Council, finding that the public convenience and welfare will be substantially served by its action, that the use of the site will be in harmony with the conditions, safeguards and limitations set forth in the Zoning Ordinance, and that said action will be without substantial detriment to the public good, and without substantially derogating from the intent or purpose of the Zoning Ordinance, grants approval of the following SPECIAL PERMIT/SITE PLAN APPROVAL to exceed the FAR by constructing an addition and detached garage, to allow dormers which exceed 50% of the wall plane below, and to further reduce the nonconforming open space as recommended by the Land Use Committee for the reasons given by the Committee, through its Chairman, Councilor Richard Lipof:

1. The specific site is an appropriate location for the addition to the single family dwelling and detached garage which increases the FAR because the addition is subordinate to the existing structure and the garage eliminates existing nonconforming setbacks. (§7.3.3.C.1; §3.1.3; §3.1.9)
2. The specific site is an appropriate location for the dormers which exceed 50% of the wall plane below because the dormers which need relief replace existing similarly sized dormers. (§7.3.3.C.1; §1.5.4.G.2.b)
3. The proposed addition to the single-family dwelling and detached garage which increases the FAR and oversized dormers will not adversely affect the neighborhood because the addition is subordinate to the structure and the proposed garage is in the same location as an existing garage to be removed. (§7.3.3.C.2; §3.1.3; §3.1.9)
4. There will not be a nuisance or serious hazard to vehicles or pedestrians because the driveway location is being maintained. (§7.3.3.C.3; §3.1.3; §3.1.9)
5. Access to the sites over streets is appropriate for the types and number of vehicles involved. (§7.3.3.C.4; §3.1.3; §3.1.9)
6. The proposed increase in FAR from .32 to .42, where .33 is the maximum allowed by-right, is consistent with and not in derogation of the size, scale and design of other structures in the neighborhood because the additional floor area is divided between two structures, a two and a half story addition to the single family dwelling and a detached garage. (§3.1.3; §3.1.9; §7.3.3)
7. The proposed reduction of the nonconforming open space will not be substantially more detrimental than the existing nonconforming open space is to the neighborhood because the additional building area that further reduces the open

space is divided between two structures, and the expanded driveway will align with the detached garage that eliminates a nonconforming setback. (§3.1.3; §7.8.2.C.2)
