[Nahanton Park Survey Needed for Completing Conservation Restriction - \\$60,000](#)

In 2013 the City temporarily moved Fire Station 10 to a portion of Nahanton Park while a new station was under construction. As part of that temporary use of the park, the City worked with the Parks & Recreation Commission, Newton Conservators and Friends of Nahanton Park to set an agreement that would provide site remediation and the placement of a permanent conservation restriction (CR) on the entire park. In order to complete the CR process the City needs to complete a boundary survey of the park, which is estimated to cost \$60,000. Once completed, the Law Department can final the CR process and obtain City Council approval.
