

# TC5-23

28

Request for a stop sign on the traffic island  
at the northwest corner of the Clark Street and Rowena Road intersection

# Location Map: Clark Street & Rowena Road

## TC5-23

Clark St looking south toward Clark Street  
(Rowena Road is toward the left)

TC5-23

3.23.23

30

Traffic Council

## Considerations

## TC5-23

- Any “T” intersection = an implied stop
- There are no MUTCD warrants to review for this request
- There is no recorded crash history at this intersection
- Two resident requests were submitted in recent weeks to consider this stop sign addition
- Recently, Feeney Brothers (National Grid contractor) had been replacing a gas main in the vicinity of this intersection which may have caused atypical driver maneuvering of this area
- It is not necessary to install a stop sign, but a stop sign can be installed at the Clark Street southbound approach to further clarify right-of-way and promote safer driver maneuvering

# Recommendation

# TC5-23

*Approve docketed item*

## Recommended TPR language

TC5-23
