Please tell us about vourself	and why you war	nt to serve		

Why are you interested in serving on a board or commission?

I served in local government management positions for nearly all of my 40 year professional career. Even after I 'retired' I have done municipal consulting, primarily in the finance area. For the first 13 or so years my focus was in municipal finance. When I moved to chief executive positions, I continued to keep abreast in local government financial management and the network of finance professionals. I learned early on in my career, from one of my mentors, that just about everything in local government revolves around finances, a key competency for a municipal manager. I found that advice to be true to this day. There are few normative standards in municipal finance and no one correct way to manage a city or town finances. That being said, I would hope to be able to assist the City in overseeing its finances and financial management practices based on my experiences, my sense of best practices and an overall interest is this aspect of local government.
