William Winkler Architect
48 Holman Road
Auburndale MA 02465

Dear Mayor Warren,

It has come to my attention through an article in the TAB that the City is now considering volunteers to several boards and committees. As I have recently retired from the practice of architecture I feel my experience and expertise may be relevant to the the discussion and review of changes being proposed in Newton.

From my limited understanding of each committee's role it appears that the Design Review Committee, the Urban Design Commission, or the Planning & Development Board are areas where I could contribute.

My professional experience as an architect includes both building and master planning primarily at colleges, universities and other institutions in the USA and internationally for public, private and government clients. For twenty years I practiced architecture with The Architect's Collaborative (TAC) in Cambridge and for the most recent twenty years at Sasaki Associates in Watertown.

My formal education includes a Bachelor of Architecture cum laude from Carnegie Mellon University and a Master of Architecture from Harvard Graduate School of Design. Please let me know if you would like to receive a more formal resume.

I have lived in Newton for over twenty years and I am very interested in all aspects of the physical appearance and functioning of the City. I would be happy to meet at your convenience.

Best Regards,
William Winkler (Bill)
