Subject: FW: Docket Item- Private Haulers -Mandatory recycling - bundled service required.

Jaclyn,

I highlighted the Docket item. Alison gave us the ok for the language and please add Vicki as a co-docketer.

Thank you,
Carol

Looks good!

Also, Councilor Danberg wants to sign on as a co-docketer.

Hi Alison,

For the Docket Language, let me know if this looks good to you.

Referred to Programs & Services

#xx-23 Amendments to Sec. 11-5 on Requirements for Permitted Private Haulers to Provide Bundled Trash & Recycling service

COUNCILORS LEARY, CROSSLEY, GREENBERG, AND BOWMAN requesting an amendment to City Ordinance Sec. 11-5 to protect public health and the environment and ensure that all persons transporting trash or recycling from places within

or to destinations within the city adhere to the Massachusetts Waste Bans 310 CMR 19.017 and uniformly comply with permit requirements established by the City of Newton.

Thank you,
Carol

Subject: Docket Item- Private Haulers -Mandatory recycling - bundled service required.

Hello Carol,

I did not realize that the new docket system is not live yet. So I am re-sending the draft ordinance change for permitting private haulers.

Since private haulers are regulated by Health and Human Services this item would go to the Program and Services Committee.

Extensive time and effort has gone into this item. I held it for three years due to the impacts of Covid on small businesses. I have met with the Charles River Chamber of Commerce, John Sisson, Economic Development Director, surveyed certain areas of the city to check dumpsters and interview small business owners and managers and called individual private haulers doing businesses in the city to get cost estimates. It has also been reviewed and approved by the SMMC.

This docket item has been reviewed by Andrew Lee in Law Department and by Waneta Trabert, the Director of Sustainable Materials Management.

I would like to see it come before P & S within the month if possible.

Thank you for your help.

Current ordinance:

Sec. 11-5. Trash, Garbage – Permit required to transport; recycling services required.

All persons transporting trash or garbage through the public ways of the city from places within or to destinations within the city shall first obtain from the health department a permit therefor. All persons offering these services are required to offer full recycling services to all places where such collection of trash or garbage occurs within the city. All persons shall show evidence of such recycling plan of services, which plan must be approved by the commissioner of public works or his/her designee and recommended to the commissioner of health and human services at the time of the annual permit request. All such permits shall expire at the end of the calendar year in which they are issued. No permit may be transferred without approval of the health and human services department.

Draft Ordinance

Purpose: The goal of these regulations is to protect public health and the environment and ensure that all persons transporting trash or recycling from places within or to destinations within the city adhere to the Massachusetts Waste Bans 310 CMR 19.017 and uniformly comply with permit requirements established by the City of Newton.

Sec. 11-1. Definitions

Permitted hauler: All persons transporting trash or recycling through the public ways of the city from places within or to destinations within the city that have received a permit from health and human services in conformity with Section 11-5.

Sec. 11-5. Mandatory recycling, permit required to transport, bundled service required.

- a. All owners of residential properties and commercial properties within the city shall separate recyclable materials from the trash for collection.
- b. All persons transporting trash or recycling through the public ways of the city from places within or to destinations within the city shall first obtain from the health department an annual permit therefor. All such permits shall expire at the end of the calendar year in which they are issued. No permit may be transferred without approval of the health and human services department. All permitted haulers shall sign a statement with their application for an annual permit certifying that they understand and are in compliance with the Massachusetts Waste Bans 310 CMR 19.017 and the Disposal Prohibition Provision of the Mercury Management Act (Chapter 190 of the Acts of 2006), as they may be amended from time to time.
- c. Effective July 1, 2023 to June 30, 2024, permitted haulers shall provide bundled trash and corrugated cardboard collection services. Trash and corrugated cardboard collection services for a property must be provided by the same permitted hauler unless the property

owner can provide proof to the permitted hauler that separate corrugated cardboard collection services are provided by another permitted hauler. Such proof shall be submitted by the permitted hauler providing trash collection services, to the commissioner of department of public works of their designee.

Permitted haulers shall provide containers designated for trash or corrugated cardboard and other recyclable materials collections. Trash and corrugated cardboard/recyclable materials collection containers for a property shall be located adjacent to or in close proximity to each other. All collection containers must be appropriately sized for available space and be picked up with such frequency so as to prevent overflow. All containers shall be clearly marked in an easily visible location with the name and phone number of the permitted hauler.

- d. Effective July 1, 2024, permitted haulers shall provide bundled trash and recycling collection services. Trash and recycling collection services for a property must be provided by the same permitted hauler unless the property owner can provide proof to the permitted hauler that separate recycling services are provided by another permitted hauler. Such proof shall be submitted by the permitted hauler providing trash collection services, to the commissioner of department of public works or their designee.

Permitted haulers shall provide containers designated for trash or recyclable materials collections. Trash and recyclable materials collection containers for a property shall be located adjacent to or in close proximity to each other. All collection containers must be appropriately sized for available space and be picked up with such frequency so as to prevent overflow. All containers shall be clearly marked in an easily visible location with the name and phone number of the permitted hauler.

- e. Notwithstanding the provisions of Section 11-5(c), permitted haulers that collect only recyclable materials are not required to collect trash.
- f. Enforcement of this regulation shall be by criminal complaint in the district court and/or non-criminal disposition ticket per MGL Chapter 40, Section 21D. The commissioner of health and human services or their designee shall have the power to enforce the provisions of this regulation.
- g. Failure to comply with provisions in subsections (a) through (d) shall result in the imposition to the permitted hauler of a warning for the first offense, one hundred dollar (\$100.00) civil fine for the second offense, and two hundred and fifty dollar (\$250.00) civil fine for the third and subsequent offenses occurring in any three hundred sixty-five (365) day period. Each day of failure to comply with the regulations shall constitute a separate violation. The commissioner of health and human services reserves the right to revoke the permit to operate within the city for repeated failure of compliance.
