ORDERED:

That the City Council, finding that the public convenience and welfare will be substantially served by its action, that the use of the site will be in harmony with the conditions, safeguards and limitations set forth in the Zoning Ordinance, and that said action will be without substantial detriment to the public good, and without substantially derogating from the intent or purpose of the Zoning Ordinance, grants approval of the following SPECIAL PERMIT/SITE PLAN APPROVAL to allow a garage with more than 700 square feet of ground-floor area and to waive certain dormer provisions as recommended by the Land Use Committee for the reasons given by the Committee, through its Chairman, Councilor Richard Lipof:

1. The specific site is an appropriate location for a garage exceeding 700 square feet of ground-floor area and for dormers which create an uninterrupted wall plane, and which exceed 50 percent of the length of the exterior wall of the story next below because the proposed garage will comply with principal building setback requirements and will be limited to 1.5 stories. (§7.3.3.C.1)
2. The proposed garage exceeding 700 square feet of ground-floor area and dormers which create an uninterrupted wall plane, and which exceed 50 percent of the length of the exterior wall of the story next below will not adversely impact the neighborhood because the existing location will be maintained. (§7.3.3.C.2)
3. The proposed garage exceeding 700 square feet of ground-floor area and for dormers which create an uninterrupted wall plane, and which exceed 50 percent of the length of the exterior wall of the story next below will not create a nuisance or serious hazard to vehicles or pedestrians because there are changes to the curb cut or driveway. (§7.3.3.C.3)
4. Access to the site over streets is appropriate for the types and numbers of vehicles involved. (§7.3.3.C.4)
