

CITY OF NEWTON

IN CITY COUNCIL

ORDERED:

That the Council, finding that the public convenience and welfare will be substantially served by its action, that the use of the site will be in harmony with the conditions, safeguards and limitations set forth in the Zoning Ordinance, and that said action will be without substantial detriment to the public good, and without substantially derogating from the intent or purpose of the Zoning Ordinance, grants approval of a SPECIAL PERMIT/SITE PLAN APPROVAL to further increase nonconforming floor area ratio (FAR) (§3.1.3, §3.1.9, §7.8.2.C.2) and increase nonconforming lot coverage (§3.1.3, §7.8.2.C.2) as recommended by the Land Use Committee for the reasons given by the Committee through its Chairman, Councilor Richard Lipof:

1. The proposed increase of FAR is consistent with and not in derogation of the size, scale and design of other structures in the neighborhood as the neighborhood features similarly sized, as well as larger, residential structures. (§3.1.3, §3.1.9)
2. The proposed further increase of the nonconforming FAR will not be substantially more detrimental than the existing nonconforming use to the neighborhood because the small size of the proposed addition and its limited visual impact on adjoining properties and public ways. Additionally, any impact of additional floor area is lessened by the fact that the property includes an adjacent vacant parcel that is not included in the FAR calculation. (§3.1.3, §3.1.9, §7.8.2.C.2)
3. The proposed further increase of the existing nonconforming lot coverage will not be substantially more detrimental than the existing nonconforming use to the neighborhood given the increase of approximately 570 square feet on the 15,308 square foot lot. Additionally any impact of additional lot coverage is lessened by the fact that the property includes an adjacent vacant parcel that is not included in the lot coverage calculation. (§3.1.3, §7.8.2.C.2)
