Subject: FW: late file docket item

Hi Nathan,

We added this to the docket for tonight:

Referred to Programs & Services Committee

#185-22 Requesting a discussion with CGR, authors of the Community Needs Assessment
COUNCILORS Albright and Krintzman requesting a presentation and discussion with CGR, the authors of the Community Needs Assessment, regarding findings and recommendations on Newton needs. In the last term, the City Council docketed a request to hear from each department and how they support people in need, including, immigrants, seniors, disabled individuals, families and families with adult disabled children. As this discussion never occurred this presentation would reestablish the need for this discussion between the Council and the Administration.
