ORDERED:

That the Council, finding that the public convenience and welfare will be substantially served by its action, that the use of the site will be in harmony with the conditions, safeguards and limitations set forth in the Zoning Ordinance, and that said action will be without substantial detriment to the public good, and without substantially derogating from the intent or purpose of the Zoning Ordinance, grants approval of a SPECIAL PERMIT/SITE PLAN APPROVAL to further increase nonconforming FAR, further extend a nonconforming side setback in a detached garage, and further extend and reduce a nonconforming rear setback in a detached garage, as recommended by the Land Use Committee for the reasons given by the Committee through its Chairman, Councilor Richard Lipof:

1. The proposed detached garage that would further increase the property's nonconforming floor area ratio (FAR) would be consistent with and not in derogation of the size, scale and design of other structures in the neighborhood. (§3.1.9)
2. The proposed detached garage that would further increase the property's nonconforming floor area ratio (FAR) and its side and rear setback nonconformities, will not be substantially more detrimental than the existing nonconforming garage to the neighborhood given the modest scale of the increases and the garage's limited visibility from adjacent public ways. (§7.8.2.C.2)
