This one I have reported a few times for vehicles regularly (daily) parking up and down the sidewalk, sometimes on both sides. One morning I came across a new street tree at Richardson that had been snapped off. I have many photos if those are helpful. The site is mostly finished now.

Rather than parking enforcement, some reminders to the inspector seem appropriate since so many different workers are coming and going and will continue to do so throughout the project.

Vehicles parked on the curb, sidewalk, and berm damage them and also make it dangerous for pedestrians and cyclists on the sidewalk who may be hit by a vehicle pulling up off the road.

Thanks,

Jenn Martin

There are no visible cameras or cameras registered with Newton PD on Beethoven Ave. There are no reported accidents at this location either. If there is anything else I can assist with please let me know.
