CITY CLERK

CITY OF NEWTON

IN CITY COUNCIL

September 19, 2022

ORDERED:

That the City Council, finding that the public convenience and welfare will be substantially served by its action, that the use of the site will be in harmony with the conditions, safeguards and limitations set forth in the Zoning Ordinance, and that said action will be without substantial detriment to the public good, and without substantially derogating from the intent or purpose of the Zoning Ordinance, grants approval of the following SPECIAL PERMIT/SITE PLAN APPROVAL to further extend the nonconforming floor area ratio, to further reduce and extend a nonconforming side setback for an accessory structure, and to further reduce nonconforming separation between the accessory and principal buildings as recommended by the Land Use Committee for the reasons given by the Committee, through its Chairman, Councilor Richard Lipof:

1. The site is an appropriate location for the proposed detached accessory structure as designed because it replaces an existing accessory structure in the same location. (§7.3.3.C.1)
2. The proposed detached accessory structure will not adversely affect the neighborhood because it maintains the same location as the existing accessory structure. (§7.3.3.C.2)
3. There will be no nuisance or serious hazard to vehicles or pedestrians because the accessory structure maintains the same driveway access from Bracebridge Road. (§7.3.3.C.3)
4. Access to the site over streets is appropriate for the types and numbers of vehicles involved. (§7.3.3.C.4)
5. The proposed increase in the nonconforming FAR from .42 to .44, where .37 is the maximum allowed by-right, is consistent with and not in derogation of the size, scale and design of other structures in the neighborhood because the FAR is divided between two structures. (§3.1.3; §3.1.9; §7.8.2.C.2)
6. The proposed extension of the nonconforming side setback is consistent with and not in derogation of the size, scale and design of other structures in the neighborhood because it is replacing a garage with an existing nonconforming side setback. (§7.8.2.C.2)

7. The proposed extension of the nonconforming distance between the accessory and principal structures is the maximum allowed by-right, is consistent with and not in derogation of the size, scale and design of other structures in the neighborhood because it reflects an existing nonconformity. (§3.1.3; §3.1.9; §7.8.2.C.2)
