

Proposed Amendment re: Cemetery

Add a new subsection to 21-85. Tree replacement.

Cemeteries exempt: this Section 21-85 shall not apply to protected trees that are removed in a cemetery for the purpose of creating burial plots if the following criteria is met:

1. The cemetery submits a tree management plan that is approved by the Tree Warden;
2. The cemetery complies with the approved tree management plan; and
3. The cemetery employs a certified arborist on its staff.

If at any time the Tree Warden determines that the cemetery has failed to follow the approved tree management plan or employ a certified arborist, the cemetery shall be required to comply with this Section 21-85.
