AGENDA

4:00 Welcome and introductions

4:05 Agenda additions and announcements

4:10 Washington Street Pilot discussion

Our primary discussion for this meeting involves two specific aspects of the city's Washington Street pilot project.

Specifically, we will look at draft ideas for how cyclists will connect to this new two-way multi-use path from the existing bike lanes in West Newton Square and from different approaches at Washington and Lowell Streets.

The experience of members of the community will help inform the plan regarding this critical part of the Washington Street project.

There will be a public meeting to present 75% design plans for the pilot on April 11 at 6PM.

See the project web page for details:
