RESOLUTION REQUESTING THE CITY OF NEWTON INVEST IN THE CREATION OF A CHIEF RESILIENCY OFFICER

Councilor Micley supports the following Resolution.

Councilor Micley requests that the City of Newton further invests in climate resiliency to better address the evolving challenges that come with climate change, in particular more severe and frequent storms and flooding, through hiring a full time or part time Chief Resiliency Officer that sits within the Executive Office and has the mandate, oversight, and expertise to ensure resiliency is effectively incorporated as a strategic priority across city departments and major infrastructure decisions.
