Ladies and Gentlemen:

I am pleased to appoint Julie A. Norstrand of 44 Stearns Street, Newton as a Commissioner of the Newton Council on Aging. Her term of office shall expire September 30, 2020 and her appointment is subject to your confirmation.

Thank you for your attention to this matter.

Very truly yours,

Setti D. Warren
Mayor

Commonwealth of Massachusetts, 2004 – 2008

Boston, MA

Chief Information Officer/Chief of Staff, Department of Workforce Development,
 2005 – 2008

Responsible for a 2000 person, \$2B+ government agency that provides unemployment insurance, employment services, workers compensation, and a variety of other services. Managed complex state and federal contracts and coordinated among multiple local constituencies, governmental agencies, and the state legislature to meet agency objectives. Key accomplishments include the launch of a project to replace the State's legacy unemployment insurance system, development of a system to manage the State's newly introduced comprehensive health insurance system, and introduction of direct deposit for payment of unemployment benefits.

Chief of Staff, Division of Unemployment Assistance

2004 – 2005

Established organizational goals and metrics, managed the budget, and controlled the complex

reporting requirements of this \$1B+ agency. Launched the agency's Fraud unit and introduced the discipline of business case planning to justify proposed expenditures.

3Com Corporation, 1999 – 2004

Santa Clara, CA and Singapore

Vice President, Web Enablement and Asia Pacific IT

Managed the Singapore-based Asia Pacific IT organization with staff in six Asian countries supporting 14 regional operations. Redesigned and updated the regional network, developed security and disaster recovery plans, and deployed new software (including SAP and Web-enabled applications) while supporting the manufacturing, sales, and distribution organizations of this \$6B business. As the Vice President responsible for Web-enabling key business processes, developed a corporate IT architecture and identified and implemented global initiatives using multi-functional, worldwide task forces. Increased eCommerce revenues 300%, delivered productivity gains measured at three weeks per employee per year, and recognized cost savings exceeding \$200M/year.

ITT Corporation, 1987 – 1998

Over the course of eleven years with ITT Corporation, progressed through a series of increasingly senior positions, culminating in the role of Chief Operating Officer for ITT New Media Services, a division of ITT established to focus on integrating Internet technologies into the corporation. Roles spanned three continents and six countries. At the time, ITT companies included Sheraton Hotels, Caesars Palace and Casinos, Madison Square Garden, ITT Technical Schools and ITT World Directories.

Key Roles:

Chief Operating Officer of ITT New Media Services – Manhattan, NY
Acting CIO of Caesars Palace and Casinos – Las Vegas, NV
Senior Systems Manager of Nippon Directories Development Corp – Osaka, Japan
Divisional Planning Manager of ITT World Directories – Brussels, Belgium
Senior Program Manager of ITT Publitec – Amsterdam, The Netherlands

Highlights:

Developed and launched ITT's online business. Established partnerships with emerging Internet companies and launched online reservations (Sheraton Hotels), and an online gaming initiative (Caesars Palace).

Implemented disaster recovery plans business-wide.

Built a shared services organization deploying Peoplesoft and Oracle applications for HR, Purchasing and Finance; bottom line impact > \$150M/yr.

Managed a global team of over 600 in the design, development and implementation of a national, \$100M business support system for NTT Directory Operations in Japan.

Successfully brokered an agreement between ITT, the PTT in Turkey, and third party vendors resulting in the delivery of Turkey's first nationwide directory assistance system.

Executed a technology transfer project \$1M under budget and four months ahead of plan, enabling deployment of core operating software and saving over \$30M in technology costs.

Ana,

It is nice to meet you - and Susan, thank you for your kind words. Susan does me honor by suggesting that I might be able to make a contribution to the Council on Aging. I'm not sure but my work on interdependent housing for women could be of interest. I would very much like an opportunity to talk with you about the work of the Council as well as my concept, Living Ahead.

I live in Newton and work in Cambridge so mornings are often good for me. The next couple of weeks are flexible with the exception of Monday morning, July 1st. Is there a time that we can spend 30 minutes or so?

I look forward to hearing from you - and thank you.

Chryse.

Good morning, Ana. It was great seeing you at the Highlands Bandstand Ribbon Cutting on Friday evening!

I am attaching the resume of Chryse Gibson who is interested in pursuing an open spot on the Council of Aging's Board of Advisors. She has some great experience in terms of the creation of "liveable communities" which the COA is very interested in. Also, her extensive experience in the construction and development industry is of great interest to us.

I am copying this to Chryse by way of introducing you, and I hope that perhaps you two can get together and begin the process of introducing Chryse to the Council.

Chryse, thank you for your interest in serving.

Why are you interested in serving on a board or commission?

I have enjoyed being a part of the Biosafety Committee for the past several years, and think that the Committee and its role in helping Newton ensure a safe biotechnology business presence in Newton is essential. I also was very happy to see that the City Council passed the recent ordinance revisions to ensure future safety of the community, but also enable growth of the biotech sector in Newton. The process of starting a biotech business, and my past experience working in Worcester running a CRO business, has given me key, relevant experience related to the mission of the Biosafety Committee, and provided insights into how our community can be better served by such a committee. My interest in seeing Newton expand its biotech footprint is both personal as a resident, but also essential if Newton is going to a peer and leader for life science growth in the future which is so critical for the city and surrounding communities. Life Science research and business investment will continue to grow, and I'd like to see Newton be best positioned to capture much of the research and development investment as possible. That includes building robust processes, streamlined regulations and oversight, to ensure safe and long-term business growth of biotech businesses in the City. The types of jobs biotech businesses bring to a community range from world class PhD scientists, to employees who work late at night or early in the morning ensuring labs are clean and ready for the next scientific breakthrough. So, it's that background and interest that leads me to welcome the opportunity to serve again if possible.
