

Public Safety & Transportation Committee Report

City of Newton In City Council

Wednesday, February 17, 2016

Present: Councilors Ciccone (Chair), Blazar, Fuller, Yates, Cote and Lipof

Absent: Councilors Norton and Harney

City Staff: Chief Bruce Proia, Newton Fire Department and Captain Dennis Dowling, Newton Police Department

Others Present: Bill Yee, Project Manager, All-Comm Technologies, Inc.

Referred to Public Safety & Transportation and Finance Committees

#65-16 Transfer of \$106,676.39 to the Fire Department to install amplifying cable.

HIS HONOR THE MAYOR, requesting authorization to transfer the sum of one hundred six thousand six hundred seventy-six dollars and thirty-nine cents (\$106,676.39) from Free Cash to a Fire Department Capital Account to fund the installation of bi-directional amplifying cable for Police and Fire Department radio coverage inside Newton South High School. [02/09/16 @ 2:47 PM]

Action: Approved 6-0

Note: Chief Proia, Captain Dowling and Mr. Yee joined the Committee for discussion on this item.

Chief Proia stated that this appropriation will fund the installation of an amplifying cable at the Newton South High School allowing the Fire and Police Departments to better communicate within the school building with the Dispatch Bureau which currently has limited capabilities.

This quote is based on testing performed and recommendations made by All-Comm Technologies, Inc. A radio communication system was installed at the Newton North High School by All-Comm Technologies, Inc. for the Police and Fire Departments that has worked very well. It is necessary to have better communication in school buildings.

Captain Dowling stated that All-Comm Technologies, Inc. was contacted approximately one-year ago to address concerning issues and weak radio transmissions at the Newton South High School.

Committee Questions:

Is the proposed amplifying cable system suitable for Newton South High School?

Please describe the system and installation process?

When do you anticipate installing the system?

Have all schools been inspected on radio communication with the Fire and Police Departments communicating with the Dispatch Bureau?

Does this system allow the Fire and Police Departments personnel to communicate to each other?

Mr. Yee answered that the system is suitable for Newton South High School and explained that if additional weak areas are found, the system can be adjusted to better control communication without difficulty. The system includes a battery backup. The amplifier system cables will be run throughout the building above the ceiling.

Chief Proia stated that All-Comm Technologies, Inc. determined that there were approximately twenty bad communication areas in the school where transmissions were not desirable. The gym and field house do not need any additional amplification. It is necessary in the school due to the type of windows and steel structure. All schools are in the process of being inspected to address radio communications; this is now a requirement in all new buildings during Fire Department occupancy testing prior to being issued a certificate of occupancy permit.

It is Chief Proia intent that this amplifying cable system will be installed in summer 2016.

Without further discussion, Councilor Lipof made a motion to approve this appropriation. Council members agreed 6-0.

Referred to Public Safety & Transportation and Finance Committees

#64-16 Increase the number of Chief of Operation positions in the Fire Department

HIS HONOR THE MAYOR, requesting a temporary increase in the number of Chief of Operations in the Fire Department from one to two Chief, as the current Assistant Chief of Operations is on extended sick leave, does not intend to return to his position, and his accrued time does not run out until August 2016. An Assistant Chief has been working as the acting Chief of Operations and the Fire Chief would like to permanently appoint him as the Chief of Operations before August 2016, as the acting Chief of Operations cannot attend bargaining sessions due to a possible conflict of interest should he return to a union position as Deputy Chief. [02/09/16 @ 2:47 PM]

Action: Held 6-0

Note: Chair Ciccone stated that the Executive Department requests this item be held.

Without discussion, Councilor Yates made a motion to hold. Council members agreed 6-0.

At approximately 7:15 p.m., Councilor Yates made a motion to adjourn. Council members agreed 6-0.

**Respectfully submitted,
Allan Ciccone, Jr. Chair**

Honorable City Council
Newton City Hall
1000 Commonwealth Avenue
Newton, MA 02459

Ladies and Gentlemen:

I write to request that your Honorable Council docket for consideration a request to transfer the sum of \$106,676.39 from Free Cash to a Fire Department Capital Account for the installation of Bi-Directional Amplifying Cable for Police and Fire Department radio coverage inside Newton South High School. Improving the radio coverage at Newton South High School will allow Police and Fire to better communicate with the 911 Dispatch Centers which currently has limited capability.

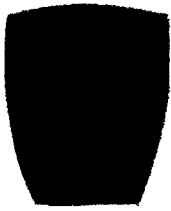

Thank you for your consideration of this matter.

Very truly yours,

Setti D. Warren
Mayor

Maureen,

I respectfully request to docket funding of \$106,676.39 for the installation of BDA Cable for Police and Fire radio coverage inside Newton South High School. The quote from All-Comm for the scope of work is attached.

Improving the radio coverage at Newton South High will allow Police and Fire to better communicate with the 911 Dispatch Centers which now has limited capability.

Thank you for your consideration to this request.

Respectfully,

Bruce Proia
Chief of Department
