SUSAN DZIKOWSKI COMPTROLLER

January 15, 2019

Members of the City Council Mayor Ruthanne Fuller Citizens and Taxpayers of the City of Newton

I am pleased to transmit to you the City of Newton's Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2018. This report has been prepared by the Comptroller's Office of the City in conformity with accounting principles generally accepted in the United States of America (GAAP) as prescribed by the Government Accounting Standards Board (GASB).

The report consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management has established a comprehensive internal control framework that is designed both to protect the assets of the City from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The independent auditors' unqualified ("clean") opinion on the City's financial statements for the year ended June 30, 2018 is presented as the first component of the financial section of this report on pages 1-3. The City's financial statements have been audited by CliftonLarsonAllen, LLP (CLA), a firm of licensed certified public accountants, who have been hired by and report to the Newton City Council. The City Council selected CLA to provide independent financial audit services to the City for the five year period ending with fiscal year 2018. A competitive search undertaken in fall 2018 returned three qualified firms, and after a thorough evaluation and interview process, CLA was chosen to carry on as Newton's independent auditor for the next five fiscal years, from 2019 through 2023.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City's separately issued Reports on Internal Control Over Financial Reporting, Compliance and Federal Award Programs.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

#### History and Profile

The City of Newton was settled in 1639 and incorporated as a City in 1873. The City is located approximately seven miles from downtown Boston and is bordered by the West Roxbury section of Boston on the southeast, the Town of Needham on the southwest, the Towns of Wellesley and Weston on the west, the City of Waltham and Town of Weston on the north; and the Town of Brookline and the Allston-Brighton sections of Boston on the east.

The City has an estimated total population of 89,045 and occupies a land area of 18.33 square miles. The City is principally suburban-residential in character and consists of 13 distinct villages – Auburndale; Chestnut Hill; Newton Centre; Newton Corner; Newton Highlands; Newton Lower Falls; Newton Upper Falls; Newtonville; Nonantum; Oak Hill; Thompsonville; Waban; and West Newton. Open space comprises 19.6% of the City's total land area, of which 55% is publicly owned.

Newton has a diversified economic base with approximately 54,995 individuals employed in 4,054 establishments within the boundaries of the City, with an estimated annual payroll of \$3.75 billion. Businesses are generally small and service-oriented with professional, business, education and health services accounting for over 60% of all jobs.

Commercial uses occupy 4.1% of the City's land area. Nearly 24% of commercial land parcels are office uses; 21% are small retail uses; and 6% are storage or warehouse uses. Only 1.1% of the City's land area is industrial. Newton is a desirable community to live and work in due to its proximity to Boston; an excellent public school system; multiple transportation systems; attractive neighborhoods; high property values; and well managed local government. Newton has an award winning public library and a City museum that was a stop on the Underground Railroad.

#### **Organizational Structure**

The City is governed under a home-rule charter, which vested executive authority and responsibility in an elected Mayor, who serves a four-year term. Legislative authority is vested in a 24-member City Council, of which eight members are elected from the City's eight wards and sixteen are elected at large. Members of the City Council are elected every two years. An eight member School Committee is elected every two years and is responsible for appointing the Superintendent of Schools, who has responsibility for the daily administration of the Newton Public Schools.

#### Services

The City provides a complete range of municipal services including education, public safety, public works, recreation, library, cultural and health and human services. The Massachusetts Water Resources Authority provides public water supply and sewerage treatment services.

#### Reporting Entity

The basic financial statements along with the combining statements and schedules included in this report relate to the activities under the direction and control of the Mayor, City Council and School Committee. The activities of the Newton Contributory Retirement System are included in this report as a blended component unit as prescribed by GAAP. The activities of the Newton Community Development Authority and Newton Commonwealth Foundation are discretely presented component units. The Newton Housing Authority is excluded from this report because it falls outside the direction and control of the Mayor and City Council.

# Financial Management

The Mayor is responsible for the preparation of the City's capital improvement plan; a multi-year financial forecast; and annually recommended capital and operating budgets. The City Council is responsible for review and approval of all appropriations that are recommended by the Mayor. An eight member Finance Committee of the City Council oversees financial policy and a majority of the membership of the Finance Committee also serves on the Audit Subcommittee.

The City's senior financial and administrative management team consists of the Chief Financial Officer; the Chief Operating Officer; the Treasurer/Collector and Chief Assessor who are appointed by the Mayor and approved by the City Council; and the Comptroller who is appointed by the City Council.

The City's three-member Board of Assessors, appointed by the Mayor, is responsible for maintaining accurate real estate and personal property values. Property values are adjusted annually to capture changes in the local real estate market and to make certain the City's assessed valuations are fair and accurate.

The Treasurer/Collector is responsible for revenue collections, cash and debt management, and the administration of parking violations. Real estate and personal property taxes are billed quarterly, thereby eliminating the need to borrow in anticipation of revenue. A lock-box system is used for the majority of real estate, personal property, motor vehicle and utility cash collections.

The Comptroller is responsible for maintaining the City's accounting records, and reporting the City's financial activity and position. Detailed monthly revenue and expenditure information is provided on-line to operating departments. Monthly comparative financial management reports are issued to the Mayor, City Council and public on the Comptroller's page of the City web site. Un-audited budgetary basis year-end financial reports are issued within 90 days of the close of the fiscal year, and audited financial statements are issued shortly before or after the end of the calendar year.

#### Financial Planning

The three primary financial management challenges facing the City for the past several years have been the need to fund general purpose budget reserves; the need to more aggressively fund the City's defined benefit pension plan; and the need to formalize a plan for actuarially funding the City's Other Post-Employment Benefits (OPEB) liability.

The City's Rainy Day Stabilization Fund ended fiscal year 2018 with a fund balance of \$20.5 million, \$826,000 or 4.2% more than the balance as of the start of the year and 5% of General Fund expenditures for the year.

The City is now on track to fund its defined benefit pension obligations in full by fiscal year 2030. For fiscal year 2019 and later years, each year's appropriation increases 9.6%. The Plan's Net Pension Liability decreased from \$330.0 million as of December 31, 2016 to \$308.2 million as of December 31, 2017, and the Plan's Fiduciary Net Position as a percent of the Total Pension Liability increased from 48.1% to 53.3%.

The OPEB trust ended fiscal year 2018 with assets of \$8.7 million, \$2.7 million or 46% greater than the funded balance at June 30 of the previous fiscal year. Although the City has yet to formally adopt a funding plan for its OPEB liabilities, the January 1, 2017 and January 1, 2018 OPEB actuarial valuations include significant funding to begin in fiscal year 2031, after the defined benefit plan is scheduled to be actuarially funded. Nine years later, by fiscal year 2040, the City's OPEB obligations will reach full actuarial funding.

#### **Accounting System and Budgetary Control**

The management of the City is responsible for establishing and maintaining adequate internal controls to:

- Properly safeguard assets.
- Provide reasonable assurance on the accuracy and reliability of the accounting records used in the preparation of the basic financial statements.
- Provide reasonable assurance relative to compliance with legal and contractual constraints on the custody and use
  of assets
- Successfully implement new financial accounting software as of July 1, 2019.

Departmental expenditure budgets are prepared and accounted for on a line item basis. However, legally binding appropriations are made for Personal Services, Expenses, Fringe Benefits, Debt Service and Capital Outlay. Line item transfers within an expenditure category may be made with the approval of the Department Head and Comptroller. Transfers between expenditure categories require the approval of the Mayor and City Council.

Encumbrance accounting, under which purchase orders, contracts and other commitments for expenditures are recorded to reserve that portion of the applicable appropriation, is employed in the Governmental Funds to maintain budgetary control.

An analysis of all legally adopted operating and capital budgets are presented on pages 113-138 of this report.

The City's books on fiscal year 2018 were closed within 160 days of year end and on October 23, 2018 the Massachusetts Department of Revenue certified the City's July 1, 2018 free cash (General Fund balance available for appropriation) at \$11.9 million. All statutory filings have also been made with the Massachusetts Department of Revenue and the Department of Elementary and Secondary Education.

The City's current financial software is no longer supported by the vendor and is in the process of being replaced. The City has entered into a contract for a fully integrated financial and human resources management information system, with target implementation dates of July 2019 for financial transactions and January 2020 for payroll and human resources transactions. In preparation, the City has developed a new chart of accounts and has initiated staff training on new and updated processes to perform financial and other functions in the new system. The tax and utility billings, fund accounting, budget preparation, purchasing, and payroll/human resources modules of the new system will be completely integrated. The new modules will be used for all City financial activities, including the disbursement of contributory and non-contributory retirement benefits.

#### Cash Management

Quarterly billing of real estate and personal property taxes coupled with timely water and sewer utility billing has eliminated the need to borrow in anticipation of revenue. Idle cash is invested by the Treasurer/Collector and governed by the Municipal Finance Laws of the Commonwealth of Massachusetts.

Trust Fund, Permanent Fund and Internal Service Fund assets, which the City does not expect to liquidate for current operations, are invested in U.S. Government, fixed income and/or equity securities. Professional investment managers oversee the City's long-term investments.

The City's Retirement Board voted at its May 2007 meeting to transfer investment management responsibility for the system's investment portfolio to the Commonwealth of Massachusetts Pension Reserve Investment Trust effective July 1, 2007. The Retirement System's assets are segregated from other City assets and are managed by a variety of professional investment managers who have been selected by the Massachusetts Pension Reserve Investment Trust, in order to achieve the Board's asset allocation policy.

#### Risk Management

The City is self-insured for group health, workers' compensation, building and general liability insurance. Individual Internal Service Funds are maintained for purposes of accumulating sufficient assets to meet fund liabilities. The City purchases property insurance from a commercial insurance company but funds annual premiums from earnings on the building self-insurance fund assets. All other risk exposures are self-insured by the City.

In accordance with the requirements of Governmental Accounting Standards Board (GASB) Statement No. 75 - *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, the City's June 30, 2018 actuarial valuation used a measurement date of June 30, 2017, based on the actuary's report dated January 4, 2018. GASB 75 permits a measurement date as early as the end of the fiscal year prior to the reporting date. The City's Net OPEB Liability decreased from \$685.9 million as of June 30, 2016 to \$638.8 million as of June 30, 2017, and the Plan's Fiduciary Net Position as a percent of the Total OPEB Liability increased from 0.52% to 0.94%.

Newton, like most communities in Massachusetts and for that matter New England, does not currently have a formally adopted plan for funding health benefits on a basis other than the historical pay as you go approach. Beginning on July 1 of 2012 the City began making a contribution of 2.5% of compensation for all new health plan participants; the 2.5% contribution level was increased to 3% in 2014, and then again to the current rate of 3.25%. Please refer to Note 12 and OPEB Required Supplementary Information for more detailed information on the City's health benefit obligations.

#### **Audit Committee**

In order to strengthen the City's internal controls and financial reporting, the City Council established a permanent audit committee, consisting of both representatives of the City Council and Newton residents with financial management and audit education and experience. The Committee held a number of meetings with management and the City's independent auditors in fiscal year 2018. A complete accounting of the work of the Audit Committee is documented on their page of the City web site.

#### Awards and Acknowledgments

The City currently maintains an Aaa credit rating with both Moody's Investor Service and S&P.

The Comptroller's Office thrives because of the exceptional analytical skills and professional commitment of staff including Stephen Curley, Regina Zegarelli, Denise King, Juiling De Los Reyes, Mary Santoes and Maria Mastroianni. The Comptroller's Office will say goodbye to Mary Santoes in January 2019 as she begins her well-deserved retirement from the City.

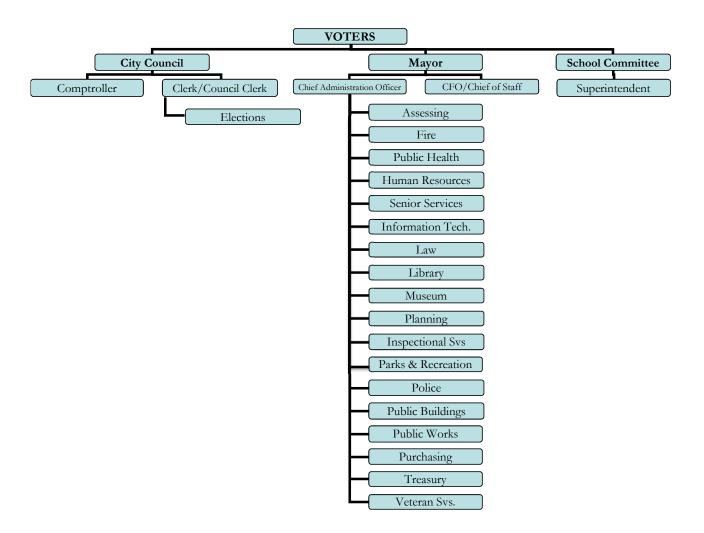

I am appreciative of the Chair of the Finance Committee, Councilor Leonard Gentile, for his insightful leadership and to the members of the Finance Committee for their support. My gratitude extends to Maureen Lemieux, Chief Financial Officer, whose unparalleled financial stewardship benefits the citizens and taxpayers of Newton every single day. Finally, it has been a joy to observe the Honorable Mayor Ruthanne Fuller unpack her priorities for Newton; her caring and enthusiasm are contagious, and her intellect is a highly valuable asset for Newton.

Thank you to the public accounting firm of CliftonLarsonAllen, LLP for the efficient completion of this year's audit and for asking (and answering) many questions during the preparation of this report and over the course of the year.

Respectfully,

Susan Dzikowski Comptroller, City of Newton

#### **Independent Auditors' Report**

To the Honorable City Council and Mayor City of Newton, Massachusetts

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Newton, Massachusetts, as of and for the year ended June 30, 2018 (except for the Newton Contributory Retirement System and the Newton Commonwealth Foundation, Inc., which are as of and for the fiscal year ended December 31, 2017), and the related notes to the financial statements, which collectively comprise the City of Newton, Massachusetts' basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Newton Commonwealth Foundation, Inc., which represents 43.6%, 43.1%, and 99.9%, respectively, of the assets, net position, and operating revenues of the discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Newton Commonwealth Foundation, Inc., is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Newton Commonwealth Foundation, Inc. were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Newton, Massachusetts, as of June 30, 2018 (except for the Newton Contributory Retirement System and the Newton Commonwealth Foundation, Inc., which are as of and for the fiscal year ended December 31, 2017) and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund and Community Preservation Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

# Emphasis of Matter

As described in Note 1 to the basic financial statements, during the fiscal year ended June 30, 2018, the City adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our auditors' opinion was not modified with respect to this matter.

#### Other Matters

# Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and certain pension and other postemployment benefits information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Newton, Massachusetts' basic financial statements. The introductory section, combining and individual fund financial statements and schedules, additional information and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and additional information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and additional information are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

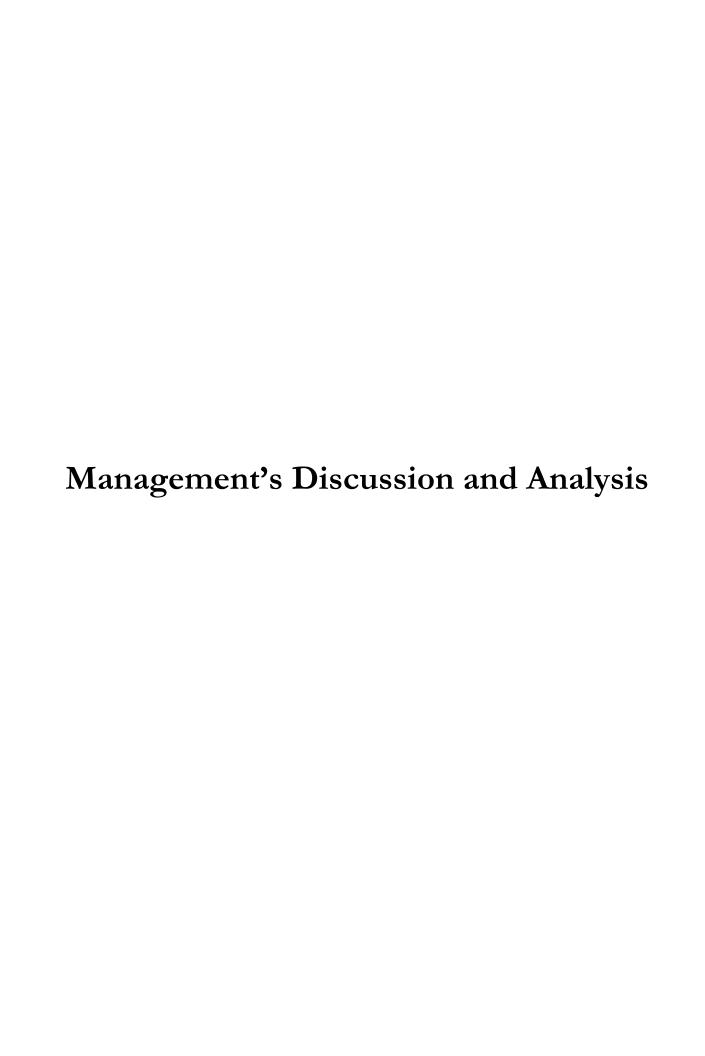

# Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 15, 2019 on our consideration of the City of Newton, Massachusetts' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of the City's internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City of Newton, Massachusetts' internal control over financial reporting and compliance.

Olifton Larson Allen LLP

Boston, MA January 15, 2019

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Newton (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City (primary government) for the fiscal year ended June 30, 2018.

### Financial Highlights:

- The government-wide and proprietary funds financial statements for the City's fiscal year ended June 30, 2018 reflect the results of implementing Government Accounting Standards Board Statement No. 75. The cumulative impact of bringing the unfunded net other postemployment benefits (OPEB) liabilities onto the Statement of Net Position and Statement of Proprietary Funds Net Position as of June 30, 2017 was \$377.0 million (\$368.1 million for governmental activities and \$8.9 million for business-type activities).
- Total liabilities and deferred inflows of City resources exceeded total assets and deferred outflows of resources as of the close of the most recent fiscal year by \$442.6 million an increase of \$6.8 million or 1.6% in negative net position from June 30, 2017. The negative (\$442.6) million net position for June 30, 2018 consisted of (\$562.5) in negative net position in governmental activities and a positive \$119.9 million in the City's business type activities.
- Unrestricted governmental net position decreased by \$26.8 million to (\$880.2) million at June 30, 2018. The decline in unrestricted governmental activities net position resulted primarily from the net changes in the net pension and net OPEB liabilities and related deferred outflows and inflows.
- The total cost of all City services (primary government) for fiscal year 2018 was \$559.7 million, \$510.3 million (91%) of which was for governmental services, and \$49.5 million (9%) of which was for business type services. The total cost of City services increased by \$18.8 million or 3.5% from the total cost of services in the previous fiscal year.
- A total of \$125.6 million or 25.5% of governmental services were financed from program revenue, leaving 74.5% to be financed from general revenues and inter-fund transfers. Real estate and personal property tax revenue continues to represent the single largest source of general revenue, accounting for 89.5% of 2018 governmental services funding.
- At June 30, 2018, the City's governmental funds reported a combined fund balance of \$124.3 million. The combined governmental funds fund balance increased by \$15.2 million (13.9%) from the prior year's ending fund balance.
- The City's general fund reported total fund balance of \$66.6 million at the end of fiscal year 2018, a \$0.4 million (0.6%) decrease from the total fund balance at June 30 of the prior fiscal year. The unassigned portion of the fund balance decreased by \$2.2 million to \$44.0 million or 9.9% of total general fund revenues and other financing sources. The unassigned fund balance includes \$20.5 million that the City has set aside over the course of the seven most recent fiscal years as a "Rainy Day Stabilization" fund and \$11.9 million in "Free Cash" that has been certified as being available for appropriation by the Massachusetts Department of Revenue.

#### Overview of the Financial Statements:

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements**: The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private sector business. The *statement of net position* presents information on all of the City's non-fiduciary assets, liabilities and deferred inflows/outflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of the cash flows*. Thus, revenue and expenses reported in this statement for some items will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements summarize functions and programs of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions and programs that are intended to recover all or a significant portion of their costs through user fees or charges (business-type activities). The governmental activities of the City include the broad functions of general government; public safety; education; public works; health & human services; culture and recreation; debt service – interest, and the major services provided within each functional category. The business-type activities of the City include two enterprise activities: the water system and the sanitary sewer system. Trend information for the past 10 years can be found in the Statistical Section of this report.

**Fund financial statements**: A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds: Governmental funds are used to account for essentially the same functions and programs reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluation a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*. These reconciliations may be found in the Basic Financial Statements.

The City maintains 19 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the *general fund*, the *community preservation fund*, the *Cabot School improvements fund* and the *Angier School improvements fund*, all of which are considered to be major funds. Data from the other 15 funds are combined into a single, aggregated presentation under the caption *non-major governmental funds*. A brief description and individual fund data for each of the non-major governmental funds is provided in the form of *combining statements* in this report. The governmental funds financial statements can be found in the Basic Financial Statements of this report. Trend information may be found in the Statistical Section of this report.

**Proprietary funds**: The City maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for water, sanitary sewer and storm water activities. *Internal service funds* are an accounting device used to accumulate and allocate the costs internally among the City's various functions, including employee health benefits; workers' compensation; public building insurance; and general liability self-insurance activities. The services provided by these funds predominately benefit the governmental rather than the business-type functions. Accordingly, the internal service funds have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water, sanitary sewer and storm water activities. The water and sanitary sewer funds are considered major funds of the City. Conversely, all internal service funds are combined into a single, aggregate presentation in the proprietary fund financial statements. A brief description of each fund and individual fund data for the internal service funds is provided in the form of *combining statements* in this report. The basic proprietary fund financial statements can be found in the Basic Financial Statements of this report.

**Fiduciary funds**: Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* included in the government-wide financial statements because the resources of the funds are *not* available to support the City's own functions and activities. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary funds financial statements provide combined information for the pension and other post-employment trust funds of the City. All other fiduciary funds are reported and combined into a single, aggregate presentation in the fiduciary funds financial statements under the captions "private purpose trust funds" and "agency funds", respectively. A brief description of each fund and individual fund data for the private purpose trust funds and agency funds are provided in the form of *combining statements* of this report. The fiduciary funds financial statements can be found in the Basic Financial Statements of this report.

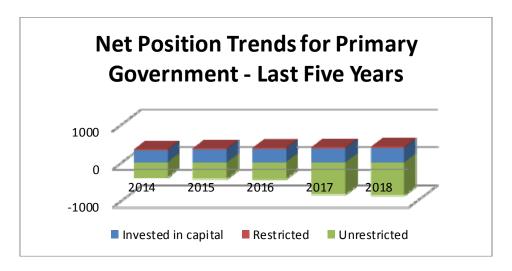

Notes to the financial statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found after the Basic Financial Statements of this report. A brief description of fund balance terminology required by Governmental Accounting Standards Board Statement 54 for governmental funds is presented in the notes along with a detailed analysis of the major components of each fund balance account.

Other information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information regarding the City's progress in funding its obligation to provide pension and post-employment benefits to its employees. Such information is located after the Notes to the Basic Financial Statements of this report.

The combining statements previously referred to are presented immediately following the notes to the basic financial statements.

#### Government-wide Financial Analysis:

**Net Position:** The City's total liabilities and deferred inflows of resources exceeded total assets and deferred outflows of resources exceeded by \$442.6 million at June 30, 2018. This represents a decrease of \$6.8 million or 1.6% in the total net position at June 30 of the prior year. Trend information for total net position and its major components over the past five year period is summarized graphically below. Unfunded pension benefit liabilities are recognized in full beginning with the fiscal year ended June 30, 2015.

The following table presents current and prior year data regarding the City's net position:

	Governmental Activities		Business-Type	e Activities	<u>Total</u>

Unrestricted	(880,169,294)	(853,427,299)	18,708,882	17,913,166	(861,460,412)	(835,514,133)		
Total net position\$	(562,545,212) \$	(548,254,271) \$	119,926,491 \$	112,465,377 \$	(442,618,721) \$	(435,788,894)		

The largest single components of the City's negative total net position are \$305.1 million in unfunded pension benefits (Net Pension Liabilities) and \$638.8 million in unfunded OPEB liabilities (Net OPEB Liabilities). The unfunded pension benefit total represents the difference between benefit obligations and assets that have been accumulated in the Pension Trust Fund. The funding schedule for the City's defined benefit retirement plan anticipates full actuarial funding in the fiscal year ending June 30, 2030. The unfunded OPEB total represents the difference between benefit obligations and assets that have been accumulated in the OPEB Trust Fund.

Although the City has yet to formally adopt a funding plan for its OPEB liabilities, a new OPEB actuary was engaged in 2017 to prepare a funding plan that provides for meaningful funding to begin in fiscal year 2031, after the defined benefit plan is scheduled to be actuarially funded. The plan projects full actuarial funding of OPEB obligations by fiscal year 2042.

The City's net investment in capital assets represents the investment in capital assets (e.g., land and land improvements, intangible assets, buildings and improvements, machinery and equipment, road network, water system, sewer system and construction in progress) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens therefore the assets are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources to repay debt must be provided from other sources, since capital assets themselves, cannot be used to liquidate these liabilities. Please refer to note 6 for a detailed calculation of the City's net investment in capital assets.

An additional portion of the City's net position, \$39.5 million, represents resources that are subject to restrictions placed on how they may be used by parties external to the City. A total of \$17.8 million (45.0%) represents resources restricted to community preservation purposes. A summary of all major components of the restricted net position may be found on the face of the Statement of Net Position.

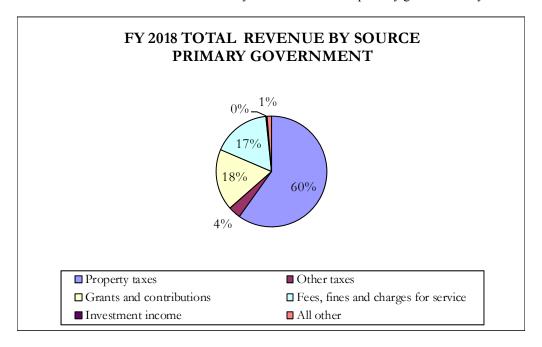

#### Changes in net position:

The following table presents current and prior year data regarding the City's changes in net position:

Total revenue for the year ended June 30, 2018 amounted to \$552.9 million, an increase of \$20.0 million or 3.8% from the prior year. Real estate tax revenue, the City's largest revenue source, accounted for \$10.3 million or 51.7% of the revenue growth.

The following chart illustrates the distribution of total current year revenues for the primary government by source.

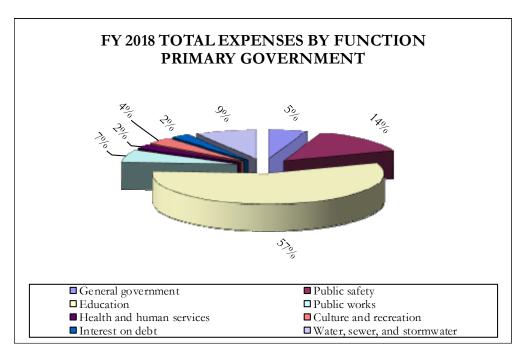

Total expenses increased by \$18.8 million or 3.5% during the year.

Expenses in the Statement of Activities are reported by program and major function in order to provide the reader with an understanding of the full and net cost of providing the range of local services that the City provides.

Public education continues to be the function receiving the largest commitment of City resources. For the year ended June 30, 2018, total spending for education purposes was \$315.9 million or 56% of total spending, 62% of governmental activity spending and \$6.8 million or 2% greater than total education spending for the prior fiscal year

The following chart illustrates the distribution of expenses by major function for the primary government for the year ended June 30, 2018.

Governmental activities – Governmental activities decreased the City's net position by \$14.3 million or 3.3% during fiscal 2018 primarily due to the net changes in the net pension and OPEB liabilities and related deferred outflows and inflows. A summary of revenues and major functional expenses is included in the tables presented previously. In order to assist the reader in understanding more completely the full cost of the major services provided by the City within each of the broad functional classifications identified above, the Statement of Activities, provides a detailed accounting of all major service expenses, related revenues, and each service's consumption of general revenues (principally property taxes).

As has been the case in all years since the City has adopted this reporting model, all governmental activity services, except for inspectional services, relied on subsidies from general revenues to one degree or another during fiscal year 2018. Inspectional service department program revenues exceeded total program expenses by \$5.0 million for the year. In the fiscal year ending June 30, 2017, Inspectional services department program revenue exceeded program expenses by \$6.1 million.

**Business-type activities** – Business-type activities increased the City's net position by \$7.5 million or 1.7% during fiscal year 2018.

#### Financial Analysis of Governmental Funds:

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds** - The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2018, the City's governmental funds reported a combined fund balance totaling \$124.3 million, a \$15.2 million or 13.9% increase from the prior year reported financial position.

All major governmental funds, with the exception of the General Fund reported improved financial positon.

The General fund is the primary operating fund of the City and at June 30, 2018 reported a total fund balance of \$66.6 million, \$0.4 million or 0.6% less than the total fund balance for the previous fiscal year. The unassigned portion of fund balance decreased from \$46.2 million or approximately 10.8% of total fund revenues and other financing sources at June 30, 2017 to \$44.0 million or 9.9% of fund revenues and other financing sources at June 30, 2018. The City's Rainy Day (fiscal/economic stabilization) Fund accounts for \$20.5 million or approximately 47% of the current Unassigned Fund Balance. The Rainy Day fund balance represents 5% of General Fund expenditures for the year.

# City of Newton, Massachusetts General Fund Fund Trends – Fiscal year 2018 and (5) previous fiscal years

	2018	_	2017	2016	2015	2014	2013

Unassigned fund balance as % total revenues and ofs.	. 9.9%	0	10.8%	11.5%	7.9%	7.1%	6.0%

Total general fund revenues and other financing sources increased by \$16.0 million or 3.7%, during fiscal year 2018 principally as a result of real estate and personal property tax collection and intergovernmental revenues.

Property tax revenue growth of \$11.7 million accounted for 73.1% of all revenue growth for the year. The 3.7% increase in property tax revenue resulted from a combination of the normal increase authorized by Proposition 2 ½ and new growth. The City also collected 99.0% of the net tax levy for the year.

Over the course of the fiscal year, the City's Board of Assessors granted tax abatements, exemptions; and senior work credits totaling \$1,417,624 or 0.4% of the tax levy for the year. A tax refund payable liability of \$1.5 million has been recorded at fiscal year-end for abatement applications that, in the opinion of the Board of Assessors, are likely to result in tax refunds.

A detailed schedule of inter-fund transfer activity is presented in note 7 of this report.

		%	Increase/	%

The \$9.4 million (35%) increase in public works spending is a function of significant increases in budgeted paving projects in fiscal year 2018.

The \$8.1 million or 3.2% increase in education spending resulted principally from the recognition of on-behalf payments from the Massachusetts Teachers' Retirement System during the year.

The voters of the City elected to implement the Community Preservation Act (CPA), with a 1% surcharge on all real estate tax bills, in November 2001. During the fiscal year ended June 30, 2018, the City realized \$4.0 million in CPA fund revenue, \$3.3 million (81.0%) of which came from the local property tax surcharge. State matching funds amounted to \$0.5 million. Fund expenditures totaled \$2.1 million for the year, \$0.4 million of which was for historic resources preservation; \$0.2 million of which was for community housing; \$1.4 million was for community recreation, and \$0.1 million for program administration.

**Proprietary funds** - The City's proprietary funds provide the same information found in the government-wide statements, but in slightly more detail. Proprietary fund net position's net investment in capital assets represents principally the City's water supply and distribution system; the sanitary sewer collection system; and the storm water drainage system.

The financial position of the City's sewer fund increased by \$4.4 million to \$69.3 million at June 30, 2018. Unrestricted fund net position decreased by \$1.4 million or 8.0% to \$15.9 million at June 30, 2018.

The financial position of the City's water fund also improved during the last fiscal year from \$44.0 million at June 30, 2017 to \$47.5 million at June 30, 2018. Unrestricted fund net position was \$1.7 million.

The City's stormwater management fund ended the year with a net position of \$3.1 million – a decrease of \$0.5 million or 13% from June 30, 2017. Unrestricted net position amounted to \$1.1 million.

The financial position of the City's Internal Service Funds decreased by \$3.1 million, or 14.2% during the year ended June 30, 2018. Internal service funds are used to account for the City's self-insured group health insurance; workers compensation; and general liability risk exposures and to fund property insurance premiums for City buildings and contents. Detailed information on the self-insurance funds is presented in the Combining Statements section of this report.

The financial position of the City's workers compensation self-insurance fund increased by \$1.1 million during the year as a result of the \$1.3 million of investment income earned during the year.

The financial position of the group health self-insurance fund decreased by \$4.2 million or 24.6% as a result of a \$6.5 million (12.0%) increase in self-insurance claims during the year. The \$12.9 million year-end net position represents approximately 3 months of average paid claims. The City's target financial position for the fund is 1.5 - 2.0 months of average paid claims.

Fiduciary funds – The net position of the City's contributory retirement system increased by \$45 million (14.8%) to \$351.2 million during the system's fiscal year that ended December 31, 2017, as a result of the fact that investment income earnings for the year (net of investment management fees) were \$50.4 million. According to the Commonwealth of Massachusetts Public Employee Retirement Administration Commission's 2017 Annual Report, the Newton Contributory Retirement System's investment portfolio returned 8.59% for the year (compared to a long term return assumption of 7.65% for funding and 7.25% for financial reporting). The plan's thirty-three year average annual return as of 1/1/17 was 8.79%.

The funded status of the defined benefit retirement plan at January 1, 2018 on an actuarial funding basis was 53.26%. Based upon a new funding schedule that was formally adopted by the City, the plan is expected to be fully funded in the fiscal year ending June 30, 2030. The new funding schedule assumes a 9.6% annual increase in City appropriations to the defined benefit trust; average annual investment returns of 7.65%; and projected annual salary increases ranging from 3.5% to 8.0% per year. The City made its actuarially required contribution to the fund in full. More specific information about the local retirement system may be found in the Notes to the Basic Financial Statements.

The net position of the City's OPEB fund increased from \$6.0 million to \$8.7 million during fiscal year 2018, primarily as a result of employer contributions. All OPEB assets were invested with the Commonwealth of Massachusetts State Employee Benefit Fund (under the management of the Pension Reserve Investment Management Board) during 2018.

#### **General Fund Budgetary Highlights:**

The difference between the original General Fund budget of \$409.9 million (including prior year encumbrances and continuing appropriations) and the final amended budget of \$425.2 million amounts to 3.7% and can be summarized as follows:

Description	Amount
Street improvements\$	6,642,411
Snow and ice control	3,350,000
Capital outlay and improvements	3,148,105
Rainy Day Stabilization fund	350,000
Newton Public Schools	132,297
All other	1,671,477
Total supplemental appropriations\$	15,294,290

There were no deficits incurred in the appropriations of the various departments of the City. All but \$2.6 million (0.6%) of total appropriations were expended, encumbered, or continued into fiscal year 2019 for completion of the appropriated purposes at June 30, 2018. Please refer to the Schedule of Expenditures and Transfers Out – Budget to Actual – Legal Level of Control, for a complete accounting of budget to actual experience for all City departments.

### Capital Assets and Debt Administration

**Capital assets** – The City's total investment in capital assets for governmental and business-type activities as of June 30, 2018, amounts to \$672.8 million. The investment in capital assets includes land and land improvements, intangible assets, buildings and improvements, machinery and equipment, infrastructure and construction in progress.

	Governmental Activities			Business-	e Activities	<u>Total</u>

Total capital assets\$	559,567,399	\$	544,210,714	\$ 113,252,518	\$	102,464,499	\$ 672,819,917	\$	646,675,213

Total capital assets, net of accumulated depreciation, increased by \$26.1 million or 4.0%. Major capital asset events during 2018 included the following:

- Business-type activity net capital assets increased by \$10.8 million, due to water and sewer system improvements
  funded with Massachusetts Water Resources Authority grants and interest free loans, and locally funded sewer
  infiltration and inflow reduction, water main cleaning and relining programs, and stormwater drainage construction
  projects.
- Governmental activity capital assets (net) increased by \$15.4 million, principally as a result of a variety of school
  improvement projects and roadway improvements that are being funded with a combination of state capital
  construction grants and property taxes.

Additional information on the City's capital assets may be found in the Notes to the Basic Financial Statements of this report.

**Debt outstanding** – At June 30, 2018, the City had total long term debt outstanding of \$325.8 million, \$295.2 million for governmental activities and \$30.6 million for business-type activities. At June 30, 2018, the City had total short-term debt outstanding of \$4.8 million, \$2.1 million for governmental activities and \$2.7 million for business-type activities. All debt is a general obligation of the City, although water, sewer and stormwater debt service payments are made from the resources of the enterprise funds.

During the year just ended, the City added \$40.3 million in new bonds and notes and retired \$30.9 million in existing bonds, and notes including \$12.1 million in advance refunding bonds that were issued to defease \$13.3 million in existing debt, with a resulting future debt service savings of \$1.6 million. General fund interest and principal payments amounted to \$22.7 million or 5.1% of fund revenues and other financing sources.

A total of \$153.2 million or 47.0% of existing bonded debt will be retired within ten years; \$271.9 million or 83.5% will be retired within twenty years; and all existing debt will be extinguished by June 30, 2048.

At June 30, 2018 the City's authorized and unissued long term debt amounted to \$37.3 million, a decrease of \$22.7 million (37.9%) from June 30, 2017.

The City's bonds are rated Aaa by both Standard and Poor and Moody's Investor Services Inc.

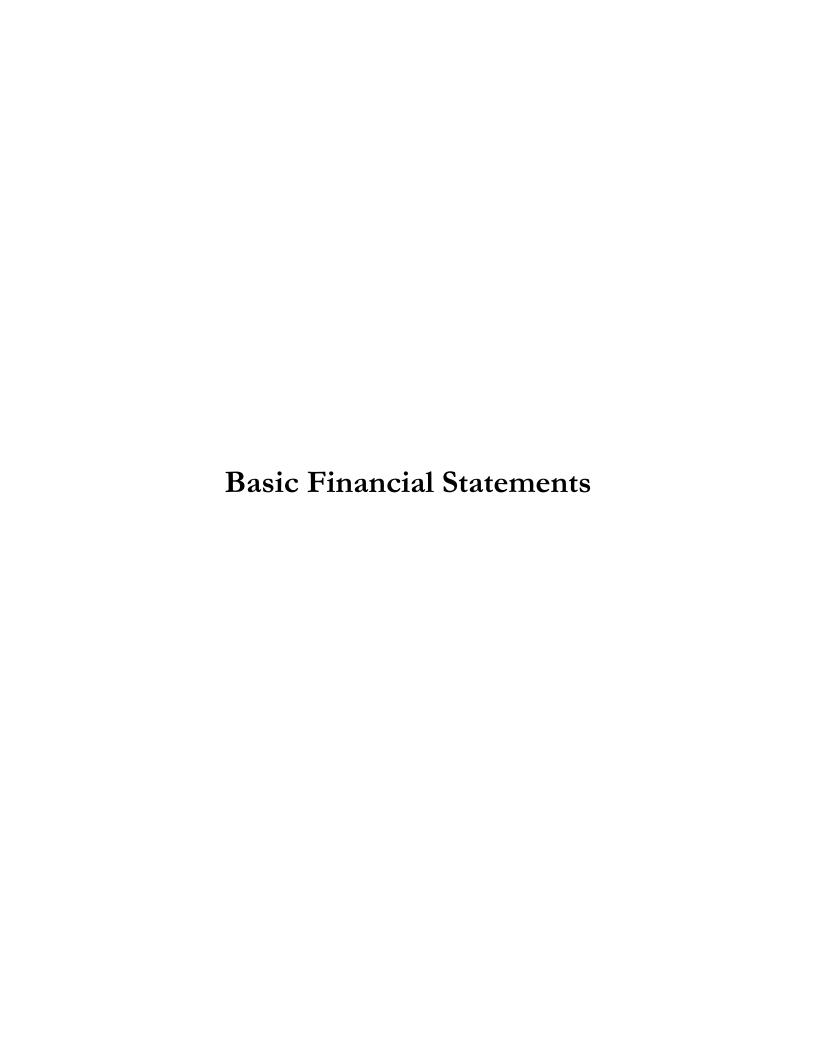

Additional information on the City's long-term debt can be found in the Notes to the Basic Financial Statements of this report. In addition, debt trend information is available in the Statistical Section of this report.

### Economic Factors and Next Year's Budget and Rates

- According to the U.S. Census Bureau, the median household income for the City was \$127,402. This compares favorably with the Massachusetts median household income of \$70,954, and the U.S. median household income of \$55,322.
- According to Homefacts.com, the unemployment rate for the City for September 2018 was 2.4%, which compared favorably with the statewide unemployment rate of 3.2% and the national unemployment rate of 3.7%.
- The City of Newton's fiscal year 2019 general fund original operating budget amounts to \$412.5 million.

# **Request for Information**

This financial report is designed to provide a general overview of the City's finances for all of those with an interest in the City's finances. Questions concerning any information provided in this report or requests for additional financial information should be addressed to the Comptroller, City of Newton, 1000 Commonwealth Avenue, Newton, Massachusetts 02459 or sdzikowski@newtonma.gov.

## CITY OF NEWTON, MASSACHUSETTS RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

#### FOR THE FISCAL YEAR ENDED JUNE 30, 2018

Net Change in Fund Balances - Total Governmental Funds	15,158,966
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and	
reported as depreciation expense. These amounts represent the related activity	
of the current period.	37 502 003
Capital Outlays. Depreciation.	37,592,993 (22,210,099)
In the statement of activities, the gain on the disposals of capital assets is reported,	
whereas in the governmental funds the disposals are not reported as	
financial resources. As a result, the change in net position differs from the change in	
fund balance by the net book value of the capital assets disposed	(26,209)
Revenues in the statement of activities that do not provide current financial resources	
are reported as deferred inflows of resources in the governmental funds. Therefore,	
the recognition of revenue for various types of accounts receivable (i.e., real estate and	
personal property, motor vehicle excise, etc.) differ between the two statements.	
This amount represents the net change in deferred inflows of resources	(147,274)
The issuance of long-term debt (e.g., bonds and leases) provides current financial resources	
to governmental funds, while the repayment of the principal of long-term debt consumes	
the financial resources of governmental funds. Neither transaction, however, has any impact on net position. Also, governmental funds report the effect of premiums, discounts,	
and similar items when debt is first issued, whereas these amounts are deferred and	
amortized in the statement of activities. These amounts represent the related activity of	
the current period.	
Proceeds of Bonds.	(24,542,000)
Proceeds of Refunding Bonds.	(11,859,000)
Retirement of Refunded Bonds	13,000,000 12,840,967
Bond Premiums.	(3,553,766)
Net Amortization of Bond Premiums.	1,074,188
In the statement of activities, interest is accrued on outstanding long-term debt,	
whereas in the governmental funds interest is not reported until due. This amount represents the net change in accrued interest payable.	(1,722,131)
represents the net change in accided interest payable.	(1,722,131)
Some expenses reported in the statement of activities do not require the use of current	
financial resources and, therefore, are not reported in the governmental funds.	
These amounts represent the net changes:	
Landfill closure and other environmental liabilities	31,811
Compensated Absences.  Net OPEB Liability.	131,936 45,949,018
Net Pension Liability.	21,700,518
In the statement of activities, deferred outflows related to pensions are amortized	
and recognized as pension expense. This amount represents the net change in	
deferred outflows related to pensions.	(12,622,546)
In the statement of activities, deferred outflows related to the loss on advanced refunding transactions	
are amortized and recognized as interest expense. This amount represents the net change in deferred outflows related to advanced refunding transactions	(2.120.005)
deferred outflows related to advanced refunding transactions.	(2,120,005)
In the statement of activities, deferred inflows related to pensions are amortized	
and recognized as pension expense. This amount represents the net change in	
deferred inflows related to pensions.	(16,201,896)
In the statement of activities, deferred outflows related to OPEB are amortized	
and recognized as pension expense. This amount represents the net change in	
deferred outflows related to OPEB.	3,117,962
Lada anno an Carlotta defending anno desde CDED	
In the statement of activities, deferred inflows related to OPEB are amortized and recognized as pension expense. This amount represents the net change in	
deferred inflows related to OPEB.	(66.753.188)
deferred minows related to OTED.	(66,753,188)
Internal service funds are used by management to account for health insurance, worker's compensation	
building insurance and liability insurance activities. The net activity of the internal service funds	
is reported with governmental activities.	(3,131,186)
Changes in Net Position of Governmental Activities.	(14,290,941)

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### Note 1 - Summary of Significant Accounting Policies

#### A. Reporting Entity

The City of Newton, Massachusetts (the City) is a municipal corporation governed by an elected Mayor, who serves a four - year term, and a twenty-four member City Council, who serve two-year terms. Sixteen of the members of the City Council are elected at large, and eight members are elected from one of the City's eight wards. The current city charter was approved by the voters of the City on November 2, 1971, and became effective January 1972.

The financial statements of the City have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the standard setting body for governmental accounting and financial reporting.

The accompanying financial statements present the activities of the City and its component units, legally separate organizations for which the City is financially accountable or integrated.

#### **Blended Component Unit**

The following component unit provides services or benefits exclusively or almost exclusively to the City or its employees and is therefore blended and reported as if it were part of the City:

The Newton Contributory Retirement System (the System) was established to provide retirement benefits to City employees, Newton Housing Authority employees and their respective beneficiaries. The System is governed by a five member board comprised of the City Comptroller (ex officio); an appointee of the Mayor; two members elected by the active and retired members of the System, and one member appointed by the other four members. The System is presented using the accrual basis of accounting and is reported as a pension trust fund in the fiduciary funds financial statements.

The System does not issue a separate audited financial statement. The System issues a publicly available unaudited financial report in accordance with guidelines established by the Commonwealth of Massachusetts' Public Employee Retirement Administration Commission. That report may be obtained by contacting the System located at 1000 Commonwealth Avenue, Newton, Massachusetts 02459.

#### **Discretely Presented Component Units**

The following component units are discretely presented in the government-wide financial statements because of the nature and/or significance of their relationships with the City. Each of the component units described below are considered major component units.

The Newton Commonwealth Foundation, Inc. (the Foundation) was established for the management of the Newton Commonwealth Golf Course on the site formerly known as the Chestnut Hill Country Club. The Foundation is governed by a fifteen member board appointed by the Mayor and are subject to confirmation approval by a majority of the City Council. The annual operating budget of the Foundation is subject to approval by the Mayor. Complete audited financial statements may be obtained by writing to the Foundation Chairman at Newton City Hall, 1000 Commonwealth Avenue, Newton, Massachusetts 02469.

The Newton Community Development Authority (the Authority) was established in 1975 pursuant to Chapter 705 of the Massachusetts General Laws to develop housing programs for low and moderate income families, the elderly and handicapped residents of the City. The Authority is governed solely by the City's Director of Planning and Development, who is appointed by the Mayor, subject to confirmation approval by a majority of the City Council. The Authority does not issue a separate audited financial statement.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### B. Basis of Presentation, Basis of Accounting

Government-wide Statements: The statement of net position and the statement of activities display information about the primary government (the City) including its aggregate discretely presented component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize double counting of internal activities. These statements distinguish between the *governmental* and *business-type* activities of the City. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the City and for each major function/service program of the City's governmental activities. Direct expenses are those that are specifically associated with a program and, therefore, are clearly identifiable to a particular service. Vehicle maintenance; retirement benefits; workers' compensation; property and liability insurance; health insurance subsidies; claims and judgments; other; and state assessments and charges costs have been allocated to major functions/programs in order to present a more accurate and complete picture of the cost of City services. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the major programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

<u>Fund Financial Statements</u>: The fund financial statements provide information about the City's funds, including its fiduciary funds and blended component unit. Separate statements for each fund category – *governmental*, *proprietary*, and *fiduciary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, with each displayed in a separate column in their respective governmental funds and proprietary funds financial statements. All remaining governmental funds are aggregated and reported in a separate column.

Internal service funds of the City (which provide services primarily to other funds of the City) are presented, in summary form, as part of the proprietary funds financial statements. Since the principal users of the internal services are the City's governmental activities, financial statements of the internal service funds are presented in the governmental activities column when presented at the government-wide level. The costs of these services are allocated to the appropriate function/program (general government, public safety, education, public works, health and human services, and culture and recreation) in the statement of activities.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from exchange transactions (charges for services) associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. All revenues and expenses not meeting this definition, such as intergovernmental subsidies and investment earnings, are reported as nonoperating revenues and expenses.

The City reports the following major governmental funds:

General Fund: The fund is used to account for and report all financial resources not accounted for and reported in another fund.

<u>Community Preservation Fund</u>: This fund accounts for the 1% local property tax surcharge that the voters of the City approved in November of 2001 for open space, historic resource and affordable housing purposes. The Commonwealth of Massachusetts currently matches (in the subsequent fiscal year) local surcharge revenue on a percentage basis that can change annually.

The City Council has appropriation authority over all community preservation funds; however, all appropriation recommendations must originate with the nine member community preservation committee.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

<u>Cabot School Improvements Fund</u>: This fund accounts for major improvements that are being made to the Cabot Elementary School, and are being financed by the sale of long term debt and state grants.

<u>Angier School Improvements Fund</u>: This fund accounts for the cost of reconstructing the Angier Elementary School, and are being financed by the sale of long term debt and state grants.

The non-major governmental funds consist of other special revenue, capital projects and permanent funds that are aggregated and presented in the *non-major governmental funds* column on the governmental funds financial statements. The following describes the general use of these fund types:

*Special revenue funds* are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

*Permanent funds* are used to account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the government's programs and benefit the government or its citizenry.

The City also reports the following enterprise funds:

<u>Sewer Fund</u>: This major fund accounts for the operation and maintenance of the City's sanitary sewer collection and disposal system. The City is charged an annual assessment by the Massachusetts Water Resources Authority (MWRA) for disposal of sanitary sewerage.

<u>Water Fund</u>: This major fund accounts for the operation and maintenance of the City's water supply and distribution system. The City is charged an annual assessment by the Massachusetts Water Resources Authority (MWRA) for water supply.

Stormwater Fund: This fund accounts for the operation and maintenance of the City's storm water drainage activities. These activities were previously accounted for within a special revenue fund.

The City also reports the following fund types:

<u>Internal Service Funds</u>: These funds account for group health, workers' compensation, building and general liability insurance protection to City departments on a cost reimbursement basis.

<u>Pension Trust Fund</u>: This fund is used to account for the activities of the System, which accumulates resources for defined benefit pension benefit payments to qualified employees and retirees and their survivors. This fund is excluded from the City's government-wide financial statements.

Other Postemployment Benefits (OPEB) Trust Fund: This fund is an irrevocable trust fund established for other postemployment benefits, which accumulates resources to reduce the unfunded actuarial liability of health care and other postemployment benefits.

<u>Private Purpose Trust Funds</u>: These funds are used to account for resources legally held in trust for the benefit of persons and organizations other than the City. Since such funds cannot be used for purposes of providing City services, they are excluded from the City's government-wide financial statements.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

Agency Fund: This fund is used to account for monies held on behalf of parties other than the City, such as state and federal agencies; independent not-for-profit organizations for which the City collects private donations; the Metro Fire District; and public school student activities. This fund is excluded from the City's government-wide financial statements.

#### Measurement Focus and Basis of Accounting

Government-wide, Proprietary, and Fiduciary Funds Financial Statements: The government-wide, proprietary, and fiduciary funds financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time that liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property, motor excise and hotel room occupancy taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Derived tax revenues, such as hotel room occupancy taxes, that result from assessments imposed by the City on exchange transactions are recognized when the underlying exchange occurs. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Funds Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The City considers revenues reported in the governmental funds to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within sixty days after year-end. Property taxes, motor excise taxes, charges for service, investment income, and in lieu of tax payments are considered to be susceptible to accrual. Revenue from grants, entitlements, and donations is recognized when all eligibility requirements have been satisfied and they are measurable and available.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long term debt, compensated absences, landfill post closure monitoring costs (and other environmental liabilities) and claims and judgments, which are recognized as expenditures only to the extent that they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long term debt and acquisitions under capital leases are reported as other financing sources.

#### C. Implementation of New Accounting Principles

For the year ending June 30, 2018, the City implemented the following pronouncements issued by the GASB:

- GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions
- GASB Statement No. 81, Irrevocable Split-Interest Agreements
- GASB Statement No. 85, Omnibus 2017
- GASB Statement No. 86, Certain Debt Extinguishment Issues

As further described in Note 21, the implementation of GASB Statement No. 75 required the restatement of beginning net position in the governmental activities, business-type activities, major enterprise funds, and nonmajor enterprise fund; as well as the presentation of certain disclosures and required supplementary information related to the City's Net Other Postemployment Benefits Liability.

The implementation of GASB Statement No.'s 81, 85, and 86 had no reporting impact for the City.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### D. Assets, Liabilities and Equity

#### Cash and Cash Equivalents and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short term investments with an original maturity of three months or less from the date of acquisition. Investments are carried at fair value; with the exception of money market mutual funds and external investment pools which are carried at amortized cost.

#### Restricted Cash and Cash Equivalents and Investments

Permanent fund cash and cash equivalents and investments and cash and cash equivalents associated with certain development and water and sewer utility deposits are classified as restricted. Other assets are classified as restricted when their use is restricted by third-party covenants.

#### Receivables

All trade and property tax receivables are shown net of an allowance for doubtful collections. Outstanding personal property taxes, motor excise taxes and parking violations that are three or more years old have been classified as uncollectible for financial reporting purposes.

Based upon an analysis of water and sewer receivable activity over the past three years, 1% of outstanding water, sewer, and storm water user charges receivable have been assigned to an allowance for doubtful collections. Real estate taxes receivable are secured by tax liens, and therefore are considered 100% collectible. Intergovernmental receivables are considered 100% collectible.

<u>Property taxes</u>: The City is responsible for assessment and collection of all property taxes. The Board of Assessors determine the estimated fair value of all real and personal property, subject to the property tax, each January 1. Taxes are then levied on each property based upon the budget that is adopted by the Mayor and City Council net of the amount of state aid and other revenues. Property taxes are due in quarterly installments - August 1, November 1, February 1 and May 1, and subject to penalties and 14% interest if not paid by the due date. Taxes due on August 1 and November 1 are estimated based upon the prior year tax bill since the tax rate is generally not finalized until late November or December. The February 1 and May 1 tax bills are adjusted to reflect the actual tax levy. It is the City's policy to perfect tax liens on delinquent properties within one year of the date that the tax is levied.

Motor vehicle excise taxes: Motor vehicle excise taxes are assessed annually for each vehicle registered in the City and are recorded as receivables in the fiscal year of the levy. The Commonwealth is responsible for reporting the number of vehicles registered and the fair values of those vehicles. The tax calculation is the fair value of the vehicle multiplied by \$25 per \$1,000 of value.

Community preservation surcharges: Community preservation surcharges are levied annually and at a rate of 1% of residents' real estate tax bills with exemptions for the first \$100,000 of residential property and property owned by qualified persons with low income and seniors (60+) with low or moderate income as defined by Massachusetts Department of Revenue (DOR) guidelines. The surcharge is due with the real estate tax on August 1st, November 1st, February 1st and May 1st and are subject to penalties and interest if they are not paid by the respective due date. Overdue surcharges are included on the tax liens processed on delinquent real estate taxes. Surcharges are recorded as receivables in the fiscal year of the levy.

Water, Sewer, and Storm Water User Charges: Water and sewer user fees are billed quarterly based on individual meter readings and are subject to penalties and interest if they are not paid by the respective due date. Storm water charges are billed quarterly based upon an authorized flat fee and are subject to penalties and interest if they are not paid by the respective due date. Water, sewer, and storm water liens are processed in December of every year and are included as a lien on the property owner's tax bill. Water, sewer, and storm water charges and related liens are recorded as receivables in the fiscal year of the levy. Unbilled amounts are estimated based upon actual billing amounts subsequent to year-end.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

<u>Intergovernmental</u>: Various federal and state grants for operating and capital purposes are applied for and received annually. For non-expenditure driven grants, receivables are recognized as soon as all eligibility requirements have been met. For expenditure driven grants, receivables are recognized when the qualifying expenditures are incurred and all other eligibility requirements have been met.

<u>Special assessments:</u> Special assessments consist of street and sidewalk betterments and are recorded as receivables in the fiscal year accrued.

#### **Capital Assets**

Purchased or constructed capital assets are recorded at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend the assets' useful lives are not capitalized.

Capital assets are defined by the City as assets with an initial, individual cost of \$15,000 or more and an estimated useful life of more than a single year. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Land improvements7-20 yearsBuildings and improvements20-50 yearsMachinery and equipment3-20 yearsInfrastructure20-50 years

#### **Inter-fund Transactions**

Inter-fund transactions are reflected as either loans, services provided, reimbursements, or transfers. Loans are reported as receivables and payables as appropriate and are subject to elimination in the government-wide statements. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other inter-fund transactions are treated as transfers and are reported "gross" in the fund financial statements. Transfers between governmental funds are eliminated in the conversion to the government-wide financial statements, while transfers between governmental and proprietary funds are reported "net".

#### **Deferred Outflows of Resources**

The statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element, deferred outflow of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until that time.

The government has three items that qualify for reporting in this category. They are as follows:

- Deferred outflows related to pensions are reported in the government-wide and proprietary funds financial statements in accordance with GASB Statement No. 68.
- Deferred outflows related to OPEB are reported in the government-wide and proprietary funds financial statements in accordance with GASB Statement No. 75.
- The deferred loss on refunding of long term debt is reported in the government-wide financial statement of net position.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### **Deferred Inflows of Resources**

The statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

The government has three items that qualify for reporting in this category. They are as follows:

- Deferred inflows related to pensions are reported in the government-wide and proprietary funds financial statements in accordance with GASB Statement No. 68
- Deferred inflows related to OPEB are reported in the government-wide and proprietary funds financial statements in accordance with GASB Statement No. 75
- Unavailable revenue is reported in the governmental funds balance sheet. Unavailable revenue represents billed receivables that do not meet the available criterion in accordance with the current financial resources measurement focus and the modified accrual basis of accounting.

#### **Net Position and Fund Balances**

<u>Government – wide and Proprietary Funds Financial Statements (Net Position)</u> – Net position is reported as restricted when constraints placed on net position use are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Net position has been reported as restricted for the following purposes:

- Community preservation activities represent amounts restricted by state statute for open space; historic preservation, and affordable housing under the Community Preservation program.
- Education activities represent amounts received from the U.S. Department of Education, the Commonwealth of Massachusetts' Department of Education, and various private donors for public education services.
- Debt service represents amounts accumulated for future payment of long-term debt service costs associated with school construction. This amount will be amortized over the life of the long-term debt.
- Receipts reserved represent amounts for a variety of local revenues whose use is legally restricted by state law
- Community development block grant represents amounts restricted for federal community development block grant funds
- Municipal federal grants represent amounts restricted for federal grant funds other than school-related funds
- Municipal state grants represent amounts restricted for state grant funds other than school-related funds
- Permanent funds expendable represents amounts held in trust for which the expenditures are restricted by various trust agreements.
- Permanent funds non-expendable represents amounts held in trust for which only investment earnings may be expended.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

Other specific purposes represent restrictions placed on assets by other outside parties.

Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by outstanding borrowings attributable to those assets.

Unrestricted net position is the difference between total net position and net investment in capital assets and restricted net position.

#### Governmental Funds Statements (Fund Balances)

The following fund balance classifications describe the relative strength of the spending constraints:

Nonspendable — represents amounts that cannot be spent either because they are in nonspendable form (i.e., prepaid amounts) or because they are legally or contractually required to be maintained intact (i.e., principal of permanent fund).

Restricted — represents amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Committed — represents amounts that can be used only for specific purposes imposed by a formal action of the City Council, which is the highest level of decision-making authority for the City. Committed amounts may be established, modified, or rescinded only through actions approved by the City Council.

Assigned — represents amounts that do not meet the criteria to be classified as restricted or committed but are intended to be used for specific purposes. Under the City's structure, only authorized assignments for non-contractual encumbrances can be made by individual department heads.

*Unassigned* – represents the residual fund balance for the General Fund and the negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting assigned fund balance amounts.

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned and unassigned.

Encumbrance amounts have been assigned for specific purposes for which resources already have been allocated.

#### Long term debt

<u>Government-wide and Proprietary Funds Financial Statements</u> – Long term debt is reported as a liability in the government wide and proprietary funds statements of net position. Material bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable premium or discount.

<u>Governmental Funds Financial Statements</u> – The face amount of governmental funds long term debt is reported as other financing sources in the Governmental Fund Financial Statements. Bond premiums are reported as other financing sources and bond discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual bond proceeds, are reported as General Government (financial administration) expenditures.

#### **Investment Income**

Excluding the permanent funds, investment income derived from major and non-major governmental funds is legally assigned to the General Fund, unless otherwise directed by legal or contractual provisions.

Investment income from enterprise operating funds is voluntarily assigned to the general fund. Investment income from internal service funds is retained in the funds.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### **Compensated Absences**

Employees are granted vacation leave, special leave (sick, religious observance, personal leave), and enhanced longevity benefits based upon collective bargaining agreements and city ordinance. These benefit costs are accrued when earned in the government-wide and proprietary fund financial statements. A liability is reported in the governmental funds only if the benefit had been earned at June 30 as a result of a retirement, resignation, or termination, and the benefit is expected to be paid immediately after the start of the new fiscal year. Vacation pay is classified as a current liability, while special leave and school enhanced longevity benefits are classified as non-current liabilities.

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the System and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the System. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the System are recognized when due and the employer has made a formal commitment to provide the contributions. Investments are reported at fair value.

#### Post Retirement Benefits

In addition to providing pension benefits and as more fully described in Note 12, the City provides health and life insurance coverage for current and future retirees and their spouses.

#### Use of Estimates

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the basic financial statements and the reported amounts of the revenues and expenditures/expenses during the fiscal year. Actual results could vary from estimates that were used.

#### **Total Column**

Government-wide financial statements – The total column presented in the government-wide financial statements represents consolidated financial information.

Fund financial statements – The total column presented on the fund financial statements is presented only to facilitate financial analysis. Data in this column is not the equivalent of consolidated financial information.

#### Note 2 - Stewardship, Compliance, and Accountability

#### A. Budget Information

The municipal finance laws of the Commonwealth of Massachusetts require that the Mayor and City Council adopt a balanced budget each fiscal year. The City Charter requires that the Mayor submit a recommended budget to the City Council and that the Council adopt the budget, with or without amendments, within forty-five days following the day the budget is received. The City Council may approve, reduce or reject any budget recommendation of the Mayor by majority vote, but may not increase an appropriation without the concurrence of the Mayor. Annual appropriations are recommended and approved for the General Fund and Community Preservation Fund for personal services (salaries and wages), expenses (supplies and services), debt service and capital outlay/improvements, and fringe benefits. A single bottom-line appropriation budget is recommended and voted for the Newton Public Schools.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

Amendments to the original budget; transfers between municipal departments; and transfers between departmental appropriation units require prior approval of the Mayor and City Council, and in the case of a transfer from one department to another, the approval of the head of the department from which funds are being transferred is also required.

The Comptroller's Office has responsibility for making certain that the budget is executed in accordance with the plan approved by the Mayor and City Council, and monthly appropriation status reports are provided to the Mayor and Council. Budgetary control is exercised on a line item basis for all municipal departments and transfers between line items within departmental appropriation units require advance approval of the Comptroller. Encumbrance accounting is used as an additional control measure. Encumbrances outstanding at year-end are reported as reservations of fund balance and do not constitute expenditures or liabilities since goods and services have not been received.

Although unobligated annual appropriation balances generally lapse at year-end, it is the City's policy to continue certain appropriations into the following year under certain limited circumstances. These are limited to amounts voted as special (multi-year) appropriations (generally capital outlay and improvements), capital maintenance funds, property tax revaluation program appropriations and funds included in the annual budget for settlement of collective bargaining contracts that have not been settled at year-end.

An annual budget is adopted in conformity with the guidelines described above. The original fiscal year 2018 General Fund and Community Preservation Fund budgets authorized \$409,865,890 and \$10,105,805 (including prior year encumbrances and continuing appropriations), respectively, in appropriations and other amounts to be raised. During the fiscal year, the Mayor and City Council authorized supplemental appropriations and reversions for the General Fund and Community Preservation Fund totaling \$15,294,290, and \$(1,039,303), respectively, for total budgets of \$425,160,180 and \$9,066,502, respectively.

Total General Fund expenditures and transfers to other funds totaled \$404,843,438, and \$17,714,513 in appropriation balances were carried forward into fiscal year 2018 to support encumbrances and continuing appropriations.

Total Community Preservation Fund expenditures and transfers to other funds were \$2,090,768 and \$4,683,297 in appropriation balances were carried forward into fiscal year 2018 to support encumbrances and continuing appropriations.

#### B. Deficit Net Position and Fund Balance

At June 30, 2018, the net position of governmental activities and the primary government have a deficit balance of \$562,545,212 and \$442,618,721 respectively. The primary causes of the deficits are the net pension liability and net OPEB liability. At June 30, 2018, these liabilities total \$918,946,820 and \$943,963,057 for governmental activities and the primary government, respectively.

At June 30, 2018, the fund balance of the municipal equipment replacement fund has a deficit balance of \$482,998. This deficit will be funded by the future issuance of long-term debt.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### C. Budget to GAAP Reconciliation

Accounting principles followed for purposes of preparing the financial statements on a budgetary basis differ from those used to present financial statements in accordance with GAAP. A reconciliation of the budgetary-basis to GAAP-basis results for the General Fund and Community Preservation Fund for the fiscal year ended June 30, 2018 are presented below:

_	General Fund

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### Note 3 - Deposits and Investments

#### A. Summary of Deposit and Investment Balances

City (Excluding the Pension Trust Fund)

The municipal finance laws of the Commonwealth authorize the City to invest temporarily idle cash in bank term deposits and certificates of deposits, and treasury and agency obligations of the United States government, with maturities of one year or less; U.S. treasury or agency repurchase agreements with maturities of not more than 90 days; money market accounts; and the state treasurer's investment pool – the Massachusetts Municipal Depository Trust (MMDT).

The MMDT meets the criteria of an external investment pool and operates in accordance with applicable state laws and regulations. The Treasurer of the Commonwealth serves as Trustee. The reported value of the pool is the same as the fair value of pool shares.

The municipal finance laws allow the City to invest private purpose trust funds in securities other than mortgages or collateral loans that are legal for the investment of funds of savings banks under the laws of the Commonwealth of Massachusetts.

Investments for the City are reported at fair value.

The City maintains a cash and short term investment pool that is available for use by all funds with unrestricted cash and investments. The deposits and investments of private purpose and pensions trust funds are held separately from other City funds.

#### Deposits - Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the City's deposits may not be recovered. The City does not have a policy for custodial credit risk of deposits. As of June 30, 2018, \$95,782,493 of the City's bank balance of \$121,866,059 was uninsured and uncollateralized.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### **Investments Summary**

The City's investments at June 30, 2018 are presented below. All investments are presented by investment type, with debt securities presented by maturity.

			Investment Maturities (in Years)						
	Fair	_	Less				More		
Investment Type	Value	Than 1			1 - 5	6 - 10	Than 10		
Debt Securities:									
U.S. Treasuries\$	961,556	\$	-	\$	208,651 \$	583,941	\$ 168,964

Total other investments	17,249,120	•							
Total investments\$	149,322,723								

#### <u>Investments</u> - <u>Interest Rate Risk of Debt Securities</u>

Interest rate risk for debt securities is the risk that changes in interest rates of debt securities will adversely affect the fair value of an investment. The City does not have a policy for interest rate risk of debt securities.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### Investments - Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City does not have a policy for custodial credit risk of investments. As of June 30, 2018, \$24,590,239 of the City's investments of \$149,322,723 were uninsured, not registered in the name of the City and exposed to custodial credit risk as follows:

					Held by
	Total		Held by		Counterparty's
Investment Type	Amount	_	Counterparty		Trust or Agent

International equities	3,032,007		-		3,032,007
_				_	
Total\$	24,590,239	\$	573,277	\$	24,016,962

#### <u>Investments - Credit Risk of Debt Securities</u>

Credit risk for investments is the risk that an issuer or other counterparty to a debt security will not fulfill its obligations. The City does not have a policy for credit risk of debt securities. As of June 30, 2018, the credit quality ratings of the City's investments in debt securities are as follows:

		_	Quality Ratings *								
Investment Type	Total Amount	_	AA+	-	AA-		A+	A-		Unrated	
Corporate bonds\$	370,886	\$	29,908	\$	80,106	\$	79,342 \$	29,841	\$	151,689

<sup>\*</sup> Per the rating scale of Moody's and Standard and Poor's (national credit rating organizations)

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### Investments – Fair Value Measurements

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted market prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The City has the following recurring fair value measurements as of June 30, 2018:

		Fair Value Measurements Using							
Investments by Fair Value Level	Fair Value	_	Quoted Prices in Active Markets for Identical Assets (Level 1)		Significant Other Observable Inputs (Level 2)		Significant Unobservable Inputs (Level 3)		
Debt Securities:									
U.S. Treasuries\$	961,556	\$	961,556	\$	-	\$	-		
U.S. Agencies	209,240		209,240		-		-		
Corporate bonds	370,886		370,886		-		-		
Mutual bond funds	5,226,160	_	5,226,160		-	_	-		
Total Debt Securities	6,767,842	-	6,767,842		-	-			
Equity Securities:									
Equity mutual funds	5,159,808		5,159,808		-		-		
Equity securities	9,057,305		9,057,305		-		-		
International equities	3,032,007		3,032,007		_	_			
Total Equity Securities	17,249,120	-	17,249,120		-	-			
Total Investments by Fair Value Level	24,016,962	=	\$ 24,016,962	· <del>-</del>	\$ -	•	\$ -		
Investments measured at the net asset value (NAV)									
PRIT Fund.	8,615,911								
Total Investments measured at Fair Value \$	32,632,873								

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities.

#### Investments Measured at the NAV

The City owns units, or shares in the State Retiree Benefits Trust Fund reported in the City's OPEB Trust Fund. By law, such investments are required to be invested in the Pension Reserves Investment Trust ("PRIT") Fund. The investments are irrevocable and invested for the sole purpose to provide funding for the City's post-employment benefits for the exclusive benefit of the City's retired employees and their eligible dependents; and for defraying the reasonable expenses of the Trust in accordance with the Trust agreement. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of the City's ownership of the fund.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### Pension Trust Fund (The System)

PRIT meets the criteria of an external investment pool and operates in accordance with applicable state laws and regulations. The Treasurer of the Commonwealth serves as Trustee and provides regulatory oversight. The reported value of the pool is the same as the fair value of the City's position in pool shares.

#### Deposits - Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of a bank failure, the System's deposits may not be recovered. The System does not have a policy for custodial credit risk of deposits. As of December 31, 2017, the System is not exposed to custodial credit risk.

#### <u>Investments Summary</u>

The System's investments at December 31, 2017 are presented below. All investments are presented by investment type, with debt securities presented by maturity.

Investment	
Maturities	
(in Years)	
Total Less	
Amount Than 1	Investment Type
	External Investment Pools:
\$ 338,313,582 \$ 338,313,582	Pension Reserve Investment Trust

\$350,768,838 _ \$350,768,838	Total investments
Amount Than 1  \$ 338,313,582 \$ 338,313,582  ust 12,455,256 12,455,256	External Investment Pools: Pension Reserve Investment Trust Massachusetts Municipal Depository Trust

#### Investments - Interest Rate Risk of Debt Securities

Interest rate risk for debt securities is the risk that changes in interest rates of debt securities will adversely affect the fair value of an investment. The System's policy is that at least 15%, but no more than 30% of the portfolio must be invested in fixed income securities.

#### Investments - Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the System will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The System does not have a policy for custodial credit risk of investments. The custodial arrangements are reflective of the fact that System assets are invested in pooled funds as opposed to individual securities. As of December 31, 2017, the System's investments were not exposed to custodial credit risk.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### Investments - Credit Risk of Debt Securities

Credit risk for debt securities is the risk that an issuer or other counterparty to a debt security will not fulfill its obligations. The System's policy is that for underlying investments in external investment pools, bonds shall have a minimum quality rating of Baa or equivalent as rated by one or more recognized bond rating services, however, 5% of the total investment portfolio may be invested in bonds with a minimum quality rating of CCC as rated by Standard & Poor's Corporate and Municipal Rating Service. As of December 31, 2017, the System's debt security investments were in external investment pools unrated by national credit rating organizations.

#### <u>Investments – Fair Value Measurements – System</u>

The System is a participating retirement system in the PRIT fund. The System owns units, or shares in the PRIT fund, which is a pooled investment trust. The investments made by the System are governed by Chapter 32 of the MGL. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of the System's ownership in the pool.

#### Note 4 - Receivables

At June 30, 2018, receivables for the individual major governmental funds and non-major governmental, internal service and fiduciary funds in the aggregate, including applicable allowances for amounts estimated to be uncollectible, are as follows:

			Allowance		
	Gross	Gross for			
	Amount	U	ncollectibles		Amount
Receivables:			_	-	
Real estate and personal property taxes \$	9,067,308	\$	(686,429)	\$	8,380,879

#### Note 8 - Short-Term Debt

Short term debt may be authorized and issued to fund current operating costs prior to the collection of revenues through the issuance of revenue (RAN's) or tax anticipation notes (TAN's), or to finance capital project expenditures prior to the issuance of permanent long-term debt, through the issuance of bond (BAN's) or grant anticipation notes (GAN's).

Short term loans are general obligations and carry maturity dates that are limited by statute. Interest expenditures for short term borrowing are accounted for in the general fund.

Details related to the short-term debt activity for the fiscal year ended June 30, 2018 is as follows:

## Notes Payable - Governmental Funds

		Origination	Maturity	Interest	Ba	ılance at			Balance at

## Note 9 - Long-Term Obligations

The following represents a summary of changes that occurred in long-term obligations during the fiscal year ended June 30, 2018:

	Balance June 30, 2017		Increases		Decreases	Balance June 30, 2018		Current Portion
Governmental Activities:								
Bonds and notes payable\$	296,931,494	\$	39,954,766	\$	(26,915,155) \$	309,971,105	\$	14,351,299
Landfill closure and other environmental	579,829		492		(32,303)	548,018		62,260
Workers' compensation	7,734,209		1,919,722		(1,791,579)	7,862,352		128,143
Compensated absences	8,779,510		146,763		(278,699)	8,647,574		3,241,236
Net pension liability	316,862,742		-		(21,700,518)	295,162,224		-
Net OPEB liability	669,733,614		-	_	(45,949,018)	623,784,596	_	
Total\$	1,300,621,398	\$_	42,021,743	\$_	(96,667,272) \$	1,245,975,869	\$_	17,782,938
Business-type Activities:								
Bonds and notes payable\$	31,996,247	\$	4,199,086	\$	(5,072,701) \$	31,122,632	\$	4,981,843
Compensated absences	335,182		28,162		-	363,344		36,334
Net pension liability	9,806,069		168,038		-	9,974,107		-
Net OPEB liability	16,139,188	_	-	-	(1,097,058)	15,042,130	_	-
Total\$	58,276,686	\$	4,395,286	\$_	(6,169,759) \$	56,502,213	\$	5,018,177

Internal service funds predominantly serve the governmental funds. Accordingly, the internal service fund's long-term liabilities are included as part of the governmental activities totals above. At fiscal year-end, \$7,862,352 of the internal service funds accrued liabilities (workers' compensation claims) is included above.

Except for the amounts related to the internal service funds and community preservation fund, the governmental activities long term liabilities are generally liquidated by the general fund.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### Advanced Refunding - December 2017

The City issued \$12,078,000 of general obligation bonds (with a premium of \$1,704,184) to provide resources to purchase U.S. Government Securities that were placed in an irrevocable trust for the purposes of generating resources for all future debt service payments of \$13,250,000 of previously issued general obligation bonds relating to school construction, municipal building improvements, and sewer system improvements. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the government-wide financial statements. The reacquisition price exceeded the net carrying amount of the old debt by \$532,184; of which \$88,780 was amortized as a component of interest expense, and \$443,404 is reported as a deferred loss on refunding in the government-wide financial statement of net position. This advance refunding was undertaken to reduce total debt service payments over the next 22 years by \$1,597,736, and resulted in an economic gain of \$1,016,552.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

Debt service requirements for principal and interest for Governmental bonds payable for future years is as follows:

Total Water			\$ 19,590,431	\$	1,360,200 \$	(3,083,176)	\$ 17,867,455

The Massachusetts Water Resources Authority (MWRA) offers water system rehabilitation and sanitary sewer infiltration and inflow reduction financial assistance programs to member communities in order to assist with the on-going maintenance of water and sewer system infrastructure. During the fiscal year ended June 30, 2018, the City was the recipient of \$1,360,200 in MWRA loans.

At June 30, 2018, the City had \$14,235,975 in MWRA water rehabilitation loans outstanding. Interest subsidies on these loans for the year ended June 30, 2018 totaled \$189,930.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

Debt service requirements for future year principal and interest for water enterprise fund debt is as follows:

Fiscal Year

Total Sewer		\$	11,420,965 \$	249,901 \$	(1,938,177) \$	9,732,689

The MWRA's sanitary sewer infiltration/inflow reduction financial assistance program provides financial assistance for eligible projects in the form of a combination of grants and five-year interest-free loans. At June 30, 2018, the City had \$1,880,620 in MWRA sewer infiltration/inflow reduction loans outstanding.

The City has also entered into (3) ten-year subsidized loan agreements with the Massachusetts Clean Water Trust (MCWT) for additional sanitary sewer system infiltration and inflow reduction projects. At June 30, 2018 the City had \$2,338,000 in loans outstanding under this project. Interest and principal subsidies on these loans for the year ended June 30, 2018 were \$167,746 and \$242,398, respectively.

Debt service requirements for future year principal and interest for sewer enterprise fund debt is as follows:

Water, sewer, and stormwater debt is expected to be funded from water, sewer, and stormwater enterprise fund revenue.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### Authorized and Unissued Debt

At June 30, 2018 the City had a total of \$37,290,599 in authorized (by the City Council) and unissued debt, which is summarized as follows:

	Beginning			End
_	of Year	Increases	Decreases	of Year
School improvements\$	45,357,734 \$	- \$	(22,420,533) \$	22,937,201
Water main rehabilitiation - MWRA	5,440,800	-	-	5,440,800
Water main improvement	2,700,000	3,700,000	-	6,400,000
Fire engine and station repairs	2,004,065	-	(1,989,372)	14,693
Public works equipment		687,000	-	687,000
Public works infrastructure	3,050,000	213,000	(4,390,095)	(1,127,095)
Ladder fire truck	-	1,200,000	-	1,200,000
Forest grove pump station	-	338,000	-	338,000
Newton Free Library children's room	75,000	-	(75,000)	-
Traffic signal imrpovements	1,400,000	<u> </u>	<u> </u>	1,400,000
Total\$	60,027,599 \$	6,138,000 \$	(28,875,000) \$	37,290,599

#### Note 11 - Landfill Closure and Post-closure Care Costs

State and federal laws and regulations mandated that the City close its old landfill site when it ceases accepting waste and to perform certain maintenance and monitoring activities at the site after closure. On June 28, 1996 the City signed a consent agreement with the Commonwealth of Massachusetts' Department of Environmental Protection that established a schedule for closure of the Rumford Avenue landfill. This landfill ceased operations in 1976 and was capped during 1998, which was in compliance with the consent agreement. The City has recorded a liability of \$548,018 at June 30, 2018 for future year landfill site monitoring and maintenance. Estimated costs per year total \$30,500. The current estimate is based upon current costs and may require modification in future years due to price inflation, changes in technology or changes in state/federal law and regulations.

## Note 12 - Other Post Employment Benefits (OPEB)

#### A - General Information about the OPEB Plan

Plan Description – The City provides health and life insurance coverage for its retirees and their survivors (hereinafter referred to as the "Plan") as a single-employer defined benefit Other Post Employment Benefit (OPEB) plan. Chapter 32B of the MGL assigns authority to establish and amend benefit provisions. Changes to plan design and contribution rates must be accomplished through the collective bargaining process. The Plan does not issue a stand-alone financial report.

The number of participants as of June 30, 2017, the latest actuarial valuation, is as follows:

Inactive plan members and beneficiaries currently receiving benefit payments	2,776
Inactive plan members entitled to but not yet receiving benefit payments	-
Active plan members.	2,441
Total	5,217

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### **B** – Benefits Provided

The City provides health and life insurance coverage for its retirees and their survivors. Chapter 32B of the MGL assigns authority to establish and amend benefit provisions.

#### C – Contributions

The contribution requirements of Plan members and the City are established and may be amended by the City. The required health insurance contribution rates of Plan members and the City are 25%/30% and 75%/70%, respectively. In addition, the City reimburses retirees and their spouses \$925 each per year for Medicare Part B premiums. The Plan members and City each contribute 50% towards a \$5,000 term life insurance premium. In addition to the City contributing money to the Plan to satisfy current obligations on a pay-as-you-go basis, the City contributed 3% of compensation for all employees enrolling in the City health plan on or after July 1, 2012. The costs of administering the Plan are paid by the City.

For the fiscal year ended June 30, 2018, employer contributions totaled \$24,328,980. The OPEB Trust Fund did not receive contributions from any other sources.

# D – OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB,

The components of the net OPEB liability of the Plan as of June 30, 2018 were as follows:

Total OPEB liability	\$ 643,448,551
Fiduciary Net Position	(8,701,165)
Net OPEB Liability	\$ 634,747,386
Fiduciary net position as a percentage of the total OPEB liability	1.35%

The OPEB trust fund reported in the fiduciary funds financial statements is reported using the flow of economic resources measurement focus and uses the accrual basis of accounting. Contributions are recognized as additions in the period when they become due pursuant to formal commitments, statutory or contractual requirements. Benefit payments and refunds are recognized as deductions when incurred.

At June 30, 2018, the City reported a liability of \$638,826,726 for its net OPEB liability. The net OPEB liability was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was also determined by an actuarial valuation as that date.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

The changes in the net OPEB liability for the measurement period are as follows:

	_	Am	nounts (in thousands)	
	-	Total	Fiduciary	Net
	-	OPEB Liability	Net Position	OPEB Liability
Balance at June 30, 2016	\$	689,443	3,570	685,873
Changes for the year:				
Service Cost		30,190	-	30,190
Interest of Liability and Service Cost		20,241	-	20,241
Changes of assumptions		(76,050)	-	(76,050)
Employer Contributions		-	20,872	(20,872)
Net Investment Income		-	555	(555)
Benefit Payments		(19,018)	(19,018)	-
Net Changes	-	(44,637)	2,409	(47,046)
Balance at June 30, 2017	\$	644,806	5,979	638,827

For the year ended June 30, 2018, the City recognized \$39,194,726 of OPEB expense associated with the Plan. At June 30, 2018, the City reported deferred outflows of resources related to OPEB of \$22,211,248, and deferred inflows of resources related to OPEB of \$68,365,732 from the following sources:

	Deferred Outflows	Deferred Inflows
	of Resources	of Resources
Contributions subsequent to the measurement date\$  Changes of assumptions  Net difference between projected and actual earnings on Plan investments	22,211,248	\$ - 68,182,658 183,074
\$ \$	22,211,248	\$ 68,365,732

\$22,211,248 reported as deferred outflows of resources related to OPEB resulting from the City's contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2019. Amounts reported as deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ended June 30:	_	Amount
	_	
2019	\$	10,910,045
2020		10,910,045
2021		10,910,044
2022		10,910,044
2023		10,864,276
Thereafter		10,864,278

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

**Methods and Assumptions** – Projections of benefits for financial reporting purposes do not explicitly incorporate the potential effects of legal or contractual funding limitations, are based upon the substantive Plan (the Plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and Plan members to that point.

The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of the assets, consistent with the long-term perspective of the calculations.

The significant methods and assumptions used to measure the total OPEB liability as of the latest actuarial valuation are as follows:

Valuation date: June 30, 2017

Inflation rate: 2.75%

Actuarial cost method: Entry Age Normal

Amortization method: Level dollar

Remaining amortization period: 30 years from July 1, 2016

Salary increases: 3.5% for Group 1 (excluding Teachers) and Group 4

Service-related increases for Teachers: 7.50% decreasing over 20 years to an ultimate

level of 4.0%

Interest discount rate: 3.58%

Investment rate of return: 7.25%

Healthcare/Medical cost trend rates: Under 65: 7.0% decreasing by 0.5% for 5 years to an ultimate level of 4.5% per year

Over 65 – Medicare Supplement: 4.5%

Over 65 – Medicare Advantage: 7.5% decreasing by 0.5% for 6 years to an ultimate

level of 4.5% per year

Prescription drug: 9.0% decreasing by 0.5% for 9 years to an ultimate level of 4.5%

per year

Administrative expenses: 3.0%

Contributions: 7.5% decreasing by 0.5% for 6 years to an ultimate level of 4.5% per

year

Mortality: Pre-Retirement (Non-Teachers): RP-2000 Employee Mortality Table projected

generationally from 2005 with Scale BB2D

Healthy (Non-Teachers): RP-2000 Healthy Annuitant Mortality Table projected

generationally from 2005 with Scale BB2D

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

Disabled (Non-Teachers): RP-2000 Healthy Annuitant Mortality Table set forward three years projected generationally from 2005 with Scale BB2D

Pre-Retirement (Teachers): RP-2014 White Collar Employee Mortality Table projected generationally with Scale MP-2016

Healthy (Teachers): RP-2014 White Collar Healthy Annuitant Mortality Table projected generationally with Scale MP-2016

Disabled (Teachers): RP-2014 Healthy Annuitant Mortality Table set forward 4 years projected generationally with scale BB2D from 2014

*Investment Policies and Rates of Return* – The OPEB trust fund investments are in PRIT, an external investment pool that operates in accordance with applicable state laws and regulations. The Treasurer of the Commonwealth serves as Trustee. The reported value of the pool is the same as the fair value of pool shares.

For the fiscal year ended June 30, 2018, the money-weighted rate of return on the Trust Fund's investments, net of investment expense, was 9.0%. The money-weighted rate of return expresses investment performance, net of investment expenses, adjusted for amounts actually invested.

The long-term expected rate of return on OPEB plan investments was determined using a building block method in which best estimate ranges of expected future rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and subtracting expected investment expenses and a risk margin. The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation, but before investment expenses, used in the derivation of the long-term expected investment rate of return assumption are summarized below:

	Target	Real Rate
Asset Class	Allocation	of Return
Domestic Equity	17.5%	6.15%
International Equity - Developed Markets.	15.5%	7.11%
International Equity - Emerging Markets	6.0%	9.41%
Core Fixed Income	12.0%	1.68%
High-Yield Fixed Income	10.0%	4.13%
Real Estate	10.0%	4.90%
Commodities	4.0%	4.71%
Hedge Funds	13.0%	3.94%
Private Equity	12.0%	10.28%
	100.0%	

Discount Rate – The discount rate used to measure the total OPEB liability as of June 30, 2018 was 3.87%; compared to a discount rate of 3.58% to measure the total OPEB liability as of June 30, 2017. The discount rate is equal to the yield or index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher reported on the Bond Buyer's 20 bond index. Based on the current assets in the OPEB Trusts and City's funding policy to contribute approximately \$2,250,000 in fiscal 2019, increasing by \$250,000 per year, there are insufficient assets to cover projected benefit payments. Accordingly, the Bond Buyer's 20 bond index rates were applied to all periods of projected benefit payments to determine the total OPEB liability.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate – The following presents the net OPEB liability of the Plan calculated using the current discount rate of 3.87 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate 1 percentage point lower (2.87 percent) or 1 percentage point higher (4.87 percent) than the current rate:

	1	% Decrease	Cι	ırrent Discount	1% Increase
		(2.87%)		Rate (3.87%)	 (4.87%)
		_		_	 _
Net OPEB Liability	\$	739,720,101	\$	634,747,386	\$ 550,785,643

The following presents the City's net OPEB liability calculated using the current discount rate of 3.58 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate 1 percentage point lower (2.58 percent) or 1 percentage point higher (4.58 percent) than the current rate:

	1% Decrease (2.58%)		Current Discount Rate (3.58%)			1% Increase (4.58%)
Net OPEB Liability	\$	746,449,627	\$	638,826,726	\$	552,972,948

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates – The following presents the net OPEB liability of the Plan calculated using the current healthcare cost trend rate as well as what the net OPEB liability would be if it were calculated using a healthcare cost trend rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1% Decrease	 Rate	1% Increase
Net OPEB Liability	\$ 543,643,510	\$ 634,747,386	\$752,661,040

The following presents the City's net OPEB liability calculated using the current healthcare cost trend rate as well as what the net OPEB liability would be if it were calculated using a healthcare cost trend rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1% Decrease	 Rate	1% Increase
Net OPEB Liability	\$ 550,378,441	\$ 638,826,726	\$ 753,279,497

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### Note 13 – Risk Financing

The City is exposed to various risks of loss related to general liability, property and casualty, workers' compensation, unemployment, and employee health insurance claims. The City is self-insured for general liability risks, however, Chapter 258 of the Massachusetts General Laws limits the liability to a maximum of \$100,000 per claim in all matters except actions relating to federal civil rights, eminent domain, and breach of contract. The City is also self-insured for workers' compensation and unemployment claims.

The City has medical plans with Tufts and Harvard-Pilgrim, under which it makes actual claims payments. The medical plan providers act as claims processors and a transfer of risk does not occur. City employees currently contribute between 20% and 30% of the cost of health care, and retirees contribute between 25% and 30% of their health care costs, and the remainder is funded by the City. The City purchased stop loss insurance for individual claims in excess of \$250,000 per year, which are incurred during the fiscal year and paid within eighteen months after June 30.

During the fiscal year ended June 30, 2012 the City implemented several changes in health care plan design for active employees and their dependents through the collective bargaining process. The changes include introduction of annual deductibles; increased co-payments, and an increase in health premium contributions for new employees from 20% to either 25% or 30%, depending upon bargaining unit.

At June 30, 2018, the City's health claims liability totaled \$4,719,736 and is based on approximately one month claims paid average. Changes in the reported liability since July 1, 2016 are as follows:

Current Year								
		Balance at Claims and						Balance at
		Beginning of	Changes in		Claims		Fiscal	
		Fiscal Year		Estimate		Payments	_	Year-end
Fiscal year 2017	\$	4,655,547	\$	52,941,374	\$	(53,419,374)	\$	4,177,547
Fiscal year 2018		4,177,547		60,220,983		(59,678,794)		4,719,736

Workers' compensation claims are administered by the City's Personnel Department. The City contracts for an annual actuarial valuation of the program, and based on this study, has recorded a liability of \$7,862,352 at June 30, 2018, of which \$128,143 has been recorded as a current liability based upon the City's expectation that this amount will be paid within the fiscal year ending June 30, 2018. The liability includes an estimate of the IBNR claims.

The June 30, 2018 plan valuation is based upon the use of a combination of the paid loss development method and the Bornhuetter-Ferguson Paid Loss method. US Life Tables 2010 Vital Statistics for Males and Females have been used to determine annuity values for long term claims, using a 5.0% annual rate of interest.

Changes in the reported liability since July 1, 2016 are as follows:

			Current Year				
	Balance at Claims and						Balance at
	Beginning of	Beginning of Changes in			Claims		Fiscal
	Fiscal Year		Estimate		Payments	_	Year-end
Fiscal year 2017	\$ 8,300,217	\$	938,031	\$	(1,504,039)	\$	7,734,209
Fiscal year 2018	7,734,209		1,919,722		(1,791,579)		7,862,352

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

## Note 14 - Fund Balances

The constraints on fund balances as listed in aggregate in the Governmental Funds Balance Sheet are detailed as follows:

	General	Community Preservation	Cabot School Improvements	Angier School Improvements	Nonmajor Governmental Funds	Total Governmental Funds
Nonspendable:						
Permanent fund principal\$		\$	\$	\$	\$ 397,064 \$	397,064

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### Note 15 – Stabilization Funds

The City maintains capital and rainy day stabilization funds. Appropriations in and out of the stabilization funds require approval of the Mayor and City Council. Investment income is retained by the funds.

The balance of the capital and rainy day stabilization funds at June 30, 2018 total \$934,989 and \$20,500,040 respectively, and are reported in the general fund as restricted (\$195,477), committed (\$728,835), assigned (\$10,677) and unassigned (\$20,500,040).

#### Note 16 - Donor Restricted Endowments

Permanent Fund and Private Purpose Trust Fund donors have placed restrictions on the expenditure of certain Permanent Fund and Private Purpose Trust Fund endowments. Local policy prohibits the expenditure of unrealized gains and, as a result, only realized gains and investment income on all such funds is available for expenditure. Furthermore, the expenditure of investment income is restricted by individual donor trust agreements.

Amounts available for expenditure related to Permanent Funds are reported as expendable perpetual funds in the Statement of Net position and restricted fund balance in the Governmental Funds Balance Sheet. Amounts available for expenditure related to Private Purpose Trust Funds are reported as held in trust for other purposes in the Fiduciary Funds Statement of Fiduciary Net Position.

#### Note 17 – Pension Plan (System)

#### A – Plan Description

The City contributes to the System, a cost-sharing multiple-employer defined benefit pension plan administered by the Newton Contributory Retirement Board (NCRB). Substantially all employees of the City are members of the System, except for public school teachers and certain school administrative personnel who are members of the MTRS. The System also covers eligible employees of the Newton Housing Authority.

At December 31, 2017, the System's membership consisted of the following:

Active members	1,581
Inactive - entitled to or receiving benefits	29
Inactive - not entitled to or not receiving benefits	587
Retirees and beneficiaries currently receiving benefits.	1,315
Total members	3,512
Number of participating employers	2

The System is governed by a five member board comprised of the City Comptroller (ex officio); an appointee of the Mayor; two members elected by the active and retired members of the System, and one member appointed by the other four members.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### B - Benefits Provided

The System provides retirement, disability and death benefits to plan members and beneficiaries, pursuant to Massachusetts General Law Chapter 32, up to a maximum of 80% of the average of a member's three or five highest consecutive years' regular compensation. In addition to regular compensation, benefits are based upon a member's age, length of creditable service and group classification. Members become vested after ten years of creditable service. A normal retirement allowance may be received after the completion of 20 years of service or upon reaching age 55 or 60, with 10 years of service. Normal retirement for most employees occurs at age 65 or 67, except for certain hazardous duty and public safety employees who attain normal retirement at age 55 or 57. City employees with World War II military veteran status, at least 30 years of service to the City, and who began work prior to July 1, 1939, are entitled to a non-contributory pension benefit equal to 72% of their highest annual rate of regular compensation. Non contributory retirees are eligible for an annual cost of living adjustment of not more than 3% on the first \$12,000 of their annual retirement benefit.

A retirement allowance consists of two parts, an annuity and a pension. A member's accumulated total retirement deductions, plus interest, constitutes the annuity. The difference between the total retirement benefit and the annuity is the pension.

#### **C** - Contributions

Chapter 32 of the MGL assigns authority to establish and amend contribution requirements of the System. In 1984 the City began funding the System on an actuarial reserve basis. This funding includes both current year service and the amortization of past service liability. It is the policy of the NCRB to contract for an annual actuarial valuation of the System to determine whether the contributions are sufficient to meet accruing liabilities and to demonstrate what adjustments, if any, are necessary on the basis of actual experience. Active member contribution rates are based upon date of hire: Prior to January 1, 1975 - 5% of regular compensation; January 1, 1975-December 31, 1984 - 7% of regular compensation; January 1, 1985-June 30, 1996 - 8% of regular compensation and July 1, 1996 to date - 9% of regular compensation. Members hired on or after January 1, 1979 contribute an additional 2% of annual regular compensation in excess of \$30,000.

For the year ended December 31, 2017, active member contributions totaled \$9,457,254 and employer contributions totaled \$25,829,131. Contributions to the System from the City were \$25,573,143 for the year ended June 30, 2018.

# D – Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The components of the net pension liability of the System at December 31, 2017, were as follows:

Total pension liability Plan fiduciary net position	\$ 659,370,168 (351,179,411)
Net pension liability	\$ 308,190,757
Plan fiduciary net position as a percentage of the total pension liability	53.26%

At June 30, 2018, the City reported a liability of \$305,136,331 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2017, and the total pension liability used to calculate the net pension liability was also determined by an actuarial valuation as of December 31, 2017. The City's proportion of the net pension liability is the proportionate share of employer contributions to the System for the year ended December 31, 2017, actuarially determined. At December 31, 2017, the City's proportion was 99.008917 percent; compared to a proportion of 98.993848 percent at December 31, 2016.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

For the year ended June 30, 2018, the City recognized pension expense of \$33,767,330 associated with the System. At June 30, 2018, the City reported deferred outflows of resources related to pensions of \$15,442,177, and deferred inflows of resources of \$19,142,821 from the following sources:

	Deferred Outflow	S	Deferred Inflows	
	of Resources	_	of Resources	
Differences between expected and actual experience\$	4,589,729	\$	4,427,939	
Changes of assumptions.	10,815,837		-	
Net difference between projected and actual earnings on System investments	-		14,703,176	
Changes in proportion and differences between employer contributions and				
proportionate share of contributions.	36,611		11,706	
		_		
\$	15,442,177	\$	19,142,821	

The amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:	_	Amount
2019	\$	5,198,764
2020		(487,756)
2021		(3,505,280)
2022		(4,906,372)

**Actuarial Assumptions** – The total pension liability in the December 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial cost method: Entry Age Normal

Amortization method: Increasing payments 9.60% per year

Remaining amortization period: 12 years (closed)

Asset valuation method: Sum of actuarial value at beginning of year, contributions and investment earnings

based on actuarial interest assumption less benefit payments plus 25% of the market value at the end of the year in excess of that sum, plus additional adjustment toward market value as necessary so that final actuarial value is within 20% of market value

Investment rate of return: 7.25%, net of pension plan investment expense, including inflation

Inflation rate: 2.5% per year

Salary increases: Ranging from 3.50% to 8.00% based upon years of service

Cost of living adjustment: 3.0% on the first \$12,000 in benefits

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

Mortality rates:

 $\label{eq:pre-Retirement-RP-2014-Employee-Mortality-Table projected generationally with Scale MP-2017$ 

Healthy Retiree - RP-2014 Blue Collar Healthy Annuitant Mortality Table projected generationally with Scale MP-2017

Disabled Retiree - RP-2014 Blue Collar Healthy Annuitant Mortality Table set forward one year and projected generationally with Scale MP-2017

The actuarial assumptions used in the December 31, 2017 valuation were based on the results of an actuarial experience study for the period January 1, 2016 to December 31, 2017.

Investment Policies and Rates of Return - Deposits and investments made by the System are governed by Chapter 32 of the MGL. The NCRB is responsible for the adoption of a formal asset allocation policy, the selection of professional investment managers to execute the investment policies, and the appointment of an investment consultant to assist with the evaluation of investment manager performance. All investment activities of the NCRB are subject to oversight by the Commonwealth of Massachusetts' Public Employee Retirement Administration Commission (PERAC).

For the year ended December 31, 2017, the annual money-weighted rate of return on System investments, net of investment expense, was 16.13%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. The System's current funding schedule is based upon a 7.65% assumed rate of return.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term
		Expected
	Target	Real Rate
Asset Class	Allocation	of Return
Domestic Equity	17.50%	6.15%
International Equity - Developed Markets	15.50%	7.11%
International Equity - Emerging Markets	6.00%	9.41%
Core Fixed Income	12.00%	1.68%
High-Yield Fixed Income	10.00%	4.13%
Real Estate	10.00%	4.90%
Commodities	4.00%	4.71%
Hedge Funds	13.00%	3.94%
Private Equity	12.00%	10.28%
	100.00%	

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

**Discount Rate** - The discount rate used to measure the total pension liability was 7.25 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions from employers will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate - The following presents the net pension liability of the System calculated using the discount rate of 7.25 percent, as well as what the System's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

		Current							
		Discount							
		1% Decrease		Rate		1% Increase			
	_	(6.25%)	_	(7.25%)		(8.25%)			
System's net pension liability	\$	379,990,045	\$	308,190,757	\$	247,568,417			

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

		Current					
		Discount					
		1% Decrease		Rate		1% Increase	
	_	(6.25%)	_	(7.25%)	_	(8.25%)	
City's proportionate share of the net pension liability	\$	376,224,030	\$	305,136,331	\$	245,114,810	

*Legally Required Reserve Accounts* – The balance in the System's legally required reserves as of December 31, 2017 are as follows:

Description	Amount	Purpose
Annuity Savings Fund \$ Annuity Reserve Fund Military Service Fund	95,076,436 28,479,629 50,925	Active members' contribution balance Retired members' contribution account Military leave of absence contribution balance
Pension Fund	227,572,421	Remaining net reserves
Total\$	351,179,411	

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

## Note 18 – Fiduciary Fund Financial Statements

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

## Note 19 - Pension Plan (Massachusetts Teachers Retirement System)

#### A - General Information about the Pension Plan

*Plan description* - Public school teachers and certain administrators are provided with pensions through the Massachusetts Teachers' Retirement System (MTRS), a cost-sharing multiple-employer defined benefit pension plan administered by the Massachusetts Teachers' Retirement Board. The MTRS is part of the Commonwealth of Massachusetts' (Commonwealth) reporting entity and does not issue a stand-alone audited financial report. The MTRS is reported as a Pension Trust Fund in the Commonwealth's audited financial statements that can be obtained at <a href="http://www.mass.gov/osc/publications-and-reports/financial-reports/cafr-reports.html">http://www.mass.gov/osc/publications-and-reports/financial-reports/cafr-reports.html</a>.

Benefits provided - MTRS provides retirement, disability, survivor and death benefits to members and their beneficiaries. Massachusetts General Laws (MGL) establishes uniform benefit requirements. These requirements provide for superannuation retirement allowance benefits up to a maximum of 80% of a member's highest three-year average annual rate of regular compensation. For employees hired after April 1, 2012, retirement allowances are calculated on the basis of the last five years or any five consecutive years, whichever is greater in terms of compensation. Benefit payments are based upon a member's age, length of creditable service, and group creditable service, and group classification. The authority for amending these provisions rests with the Legislature.

Members become vested after ten years of creditable service. A superannuation retirement allowance may be received upon the completion of twenty years of creditable service or upon reaching the age of 55 with ten years of service. Normal retirement for most employees occurs at age 65. Most employees who joined the system after April 1, 2012 cannot retire prior to age 60.

**Contributions -** The MTRS' funding policies have been established by Chapter 32 of the MGL. The Legislature has the authority to amend these policies. The annuity portion of the MTRS retirement allowance is funded by employees, who contribute a percentage of their regular compensation. Member contributions for MTRS vary depending on the most recent date of membership, ranging from 5-11% of regular compensation. Members hired in 1979 or subsequent contribute an additional 2% of regular compensation in excess of \$30,000.

The Commonwealth is a nonemployer contributor and is required by statute to make all actuarially determined employer contributions on behalf of the member employers. Therefore, the City is considered to be in a special funding situation as defined by GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and the Commonwealth is a nonemployer contributing entity in MTRS.

# B - Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Since the City does not contribute directly to MTRS, the City does not report a proportionate share of the net pension liability of the MTRS at June 30, 2018. The Commonwealth's net pension liability associated with the City was \$383,939,326.

The MTRS' net pension liability was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2017 rolled forward to June 30, 2017.

For the year ended June 30, 2018, the City recognized pension expense of \$40,072,865 associated with MTRS and revenue of the same amount for support provided by the Commonwealth.

**Actuarial assumptions** - The MTRS' total pension liability for the June 30, 2017 measurement date was determined by an actuarial valuation as of January 1, 2017 rolled forward to June 30, 2017. This valuation used the following assumptions:

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

Investment rate of return: 7.50%

Salary increases: Salary increases are based on analyses of past experience but range from 4.00% to 7.50%

depending on length of service

Mortality Rates: Pre-retirement - reflects RP-2014 White Collar Employees table projected generationally

with Scale MP-2016 (gender distinct)

Post-retirement - reflects RP-2014 White Collar Healthy Annuitant table projected

generationally with a Scale MP-2016 (gender distinct)

Disability – assumed to be in accordance with the RP-2014 Healthy Annuitant Table

. 1 D 1

projected generationally with Scale BB and a base year 2014 set forward 4 years

Other: 3.50% interest rate credited to the annuity savings fund

3.00% cost of living increase per year

Investment assets of the MTRS are with the Pension Reserves Investment Trust (PRIT) Fund. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage. Best estimates of geometric rates of return for each major asset class included in the PRIT Fund's target asset allocation as of June 30, 2017 are summarized in the following table:

		Expected Real
	Target	Rate of
Asset Class	Allocation	Return
Global Equity	40.00%	5.00%
Portfolio Completion Strategies	13.00%	3.60%
Core Fixed Income	12.00%	1.10%
Private Equity	11.00%	6.60%
Real Estate	10.00%	3.60%
Value Added Fixed Income	10.00%	3.80%
Timber/Natural Resources	4.00%	3.20%
Hedge Funds	0.00%	3.60%
Totals	100.00%	

**Discount rate** - The discount rate used to measure the MTRS' total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rates and the Commonwealth's contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rates. Based on those assumptions, the net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Pension plan fiduciary net position -** Detailed information about the MTRS' fiduciary net position is available in the Commonwealth's audited financial statements.

Notes to the Basic Financial Statements Fiscal Year Ended June 30, 2018

#### Note 20 - Commitments and Contingencies

Significant commitments include the continuing appropriations and encumbrances outstanding for the general fund and CPA fund, for which outstanding balances at June 30, 2018, totaled \$17,714,513 and \$4,683,297, respectively.

The City has an Infrastructure Development Assistance Agreement (IDAA) with the Commonwealth of Massachusetts and the developers of the Chestnut Hill Square commercial development along State Route 9. Under the terms of the agreement the Commonwealth issued debt to reimburse the developers for \$10 million in public infrastructure improvements that were necessary to accommodate the Chestnut Hill Square development. All funding for the 30 years of debt service associated with the infrastructure improvement reimbursement is expected to be derived from incremental state sales and income tax revenue generated from the commercial development project, however, in the event of a short-fall, the City is responsible for reimbursing the Commonwealth for the difference between the annual debt service on the project debt and the actual incremental state sales and income tax revenues generated from the project. According to Article 4(a) of the agreement, "Local Infrastructure Development Assistance shall constitute a general obligation of the City to which its full faith and credit shall be pledged." In order to minimize the City's financial exposure for such an event, the IDAA authorizes the City to levy and collect an Infrastructure Assessment against development real estate for any short fall and further requires that the developer fund a Municipal Liquidity Reserve equal to two years of annual debt service requirements (\$1,163,000), to be held by the City. The developer and any successors or assigns are obligated to replenish the Municipal Liquidity Reserve if any draw occurs. During fiscal year 2018, the City was not obligated to reimburse the Commonwealth for any debt service related to the IDAA.

The City participates in a number of state and federal award programs. These programs are still subject to separate financial and compliance audits. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time although it is expected such amounts, if any, will be immaterial.

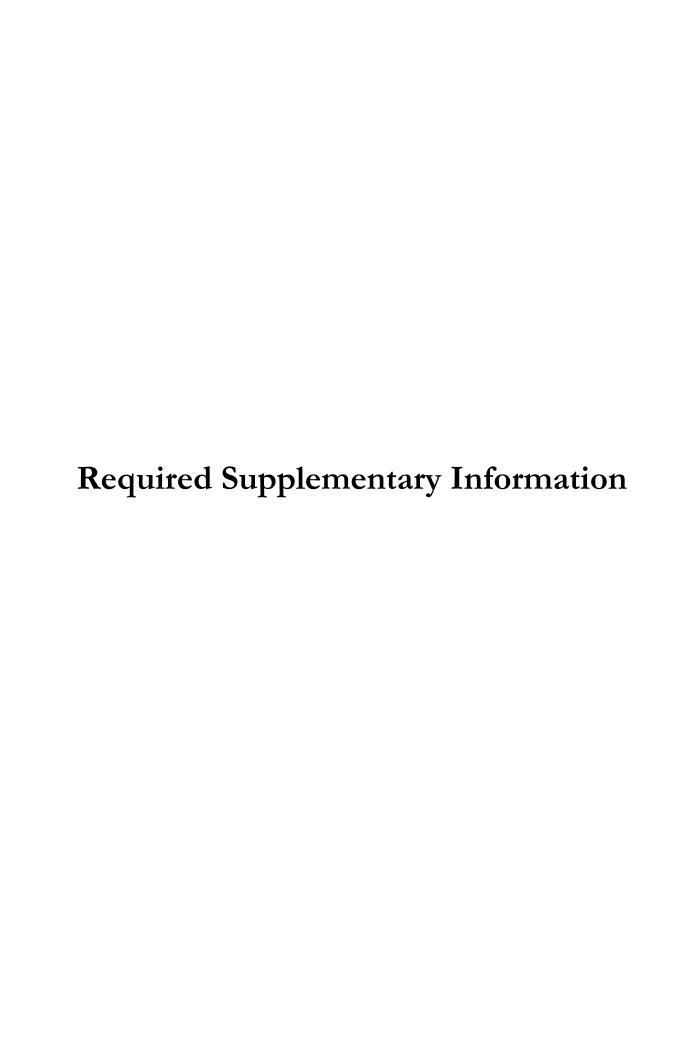

Various additional legal actions and claims are pending. Litigation is subject to many uncertainties and the outcome of individual litigated matters is not always predictable. Although the amount of liability, if any at June 30, 2018 cannot be ascertained, management believes any resulting liability should not materially affect the financial position of the City at June 30, 2018.

#### Note 21 – Restatement

During the fiscal year ended June 30, 2018, the City implemented GASB 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. As a result, the net position of Governmental Activities, Business-Type Activities, the major enterprise funds, and the nonmajor stormwater enterprise fund was restated as follows:

	Governmental Activities	Business-Type Activities	Sewer Enterprise Fund	Water Enterprise Fund	Stormwater Enterprise Fund
Net Position (Deficit), June 30, 2017, as Previously Cumulative Affect of Restatement	\$ (180,098,548) (368,155,723)	\$ 121,333,072 (8,867,695)	\$ 68,855,798 (3,976,999)	\$ 48,726,215 (4,757,416)	\$ 3,751,059 (133,280)
Net Position (Deficit), June 30, 2017, as Restated	\$ (548,254,271)	\$ 112,465,377	\$ 64,878,799	\$ 43,968,799	\$ 3,617,779

#### CITY OF NEWTON, MASSACHUSETTS

Notes to Required Supplementary Information Fiscal Year Ended June 30, 2018

### Note A – Methods and Assumptions Used in Calculations of Actuarially Determined Contributions (Pension Plan)

The actuarially determined contribution rates in the schedules of contributions are calculated as of January 1, one year prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determine contribution rates reported in those schedules:

Actuarial cost method	(2008-2017)	Entry Age Normal
1 letuariai cost illetilou	(2000 2017).	Lilling Tigo I volillar

Amortization method (2008-2009): Payment increases 4.50% per year Amortization method (2010-2012): Payment increases 3.75% per year Amortization method (2013): Payment increases 8.50% per year Amortization method (2014): Payment increases 8.75% per year Amortization method (2015-2017) Payment increases 9.60% per year

Remaining amortization period (2008): 20 years 20 years Remaining amortization period (2009): Remaining amortization period (2010): 27 years Remaining amortization period (2011): 26 years Remaining amortization period (2012): 24 years Remaining amortization period (2013): 15 years Remaining amortization period (2014): 14 years 13 years Remaining amortization period (2015-2016): Remaining amortization period (2017): 12 years

Asset valuation method (2008-2009): Market value

Asset valuation method (2010-2017): Sum of actuarial value at beginning of year, contributions and investment

earnings based on actuarial interest assumption less benefit payments plus 25% of the market value at the end of the year in excess of that sum, plus additional adjustment toward market value as necessary so that final

actuarial value is within 20% of market value

Inflation (2008-2012): 3.0% Inflation (2013): 2.0 – 2.5% Inflation (2014-2017): 2.5%

 Salary increases (2008):
 3.00 - 5.25% 

 Salary increases (2009):
 4.00 - 5.25% 

 Salary increases (2010-2011):
 2.0 - 3.5% 

 Salary increases (2012):
 2.5 - 3.5% 

 Salary increases (2013):
 3.0 - 3.5% 

 Salary increases (2014-2016):
 3.5% 

 Salary increases (2017):
 3.5 - 8.0% 

### **CITY OF NEWTON, MASSACHUSETTS**

Notes to Required Supplementary Information Fiscal Year Ended June 30, 2018

### Note B – Methods and Assumptions Used in Calculations of Actuarially Determined Contributions (OPEB Plan)

The actuarially determined contribution rates in the schedules of contributions are calculated as of June 30, one year prior to the end of the fiscal year in which contributions are reported. The following actuarial methods and assumptions were used to determine contribution rates reported in those schedules:

Actuarial cost method (2017-2018): Entry Age Normal

Amortization method (2017-2018): Level dollar

Remaining amortization period (2017-2018): 30 years (open)

Interest discount rate (2017-2018): 2.06%

Healthcare/Medical cost trend rate (2017-2018): 8.39% in 2016 graded down to 6.08% in 2021 and thereafter.

# Combining and Individual Fund Statements and Schedules

### Nonmajor Governmental Funds

### Special Revenue Funds

#### School Lunch Fund:

This fund is used to account for the operations of the Newton Public School Department's student lunch program. Revenues are generated from the sale of lunches, state and federal reimbursement grants, and investment income. A formal budget is not adopted for this fund; however, expenditures cannot exceed revenues plus the beginning fund balance. Any difference between fund revenues and expenditures is financed with a transfer from the School Department's general fund operating budget. It is the policy of the Newton Public school department to subsidize all fund employee benefit costs.

### Revolving Fund

The Revolving Fund is used to account for a variety of municipal functions that are expected to be self- supporting, such as departmental private duty details. All revolving funds, except for damage recoveries of less than \$20,000; private duty details and assignments; wetlands protection and development review activities; and police asset forfeitures are authorized annually by vote of the City Council under Massachusetts General Law Chapter 44, Section 53E ½. Fund expenditures are limited to the lesser of actual available resources or the annual spending limit authorized by the City Council.

### Receipts Reserved Fund

This fund is used to account for a variety of local revenues whose use is either legally restricted by state law, or has been restricted by vote of the City's City Council, for specific purposes and can only be spent with the prior appropriation of the City Council. The fund is used to account for proceeds from the sale of surplus real estate, parking meter receipts, development mitigation funds, and revenues generated from cable television license agreements and the sale of recyclable materials. No expenditures can be made directly from the fund; rather, resources are appropriated and transferred to the City's general fund for expenditure.

### Community Development Block Grant Fund

This fund is used to account for activities undertaken with federal Community Development Block Grant funds. The Mayor and City Council approve each year's grant budget. This is a reimbursement grant.

### Municipal Federal Grant Fund

This fund is used to account for a variety of categorical municipal federal grants. The City Council approve annual grant budgets and grant budget obligations are generally limited to the lesser of actual available resources or the annual spending limit authorized by the Council.

### Municipal State Grant Fund

This fund is used to account for a variety of categorical municipal state grants other than ARRA grants. The City Council approve annual grant budgets and grant budget obligations are limited to the lesser of actual available resources or the annual spending limit authorized by the Council.

### School State Grant Fund

This fund is used to account for all categorical public education state grants. The School Committee approves annual grant budgets and grant budgets are recorded upon receipt of approved grant agreements.

### School Federal Grant Fund

This fund is used to account for all categorical public education federal grants other than ARRA grants. The School Committee approves annual grant budgets and grant budgets are recorded upon receipt of approved grant agreements.

#### Gift Fund

This fund is used to account for private gifts and donations that are unrelated to any other fund. Expenditures are limited to the lesser of actual available resources or the annual spending limit authorized by the City Council and School Committee.

### Capital Projects Funds

### Public Building Improvements Fund

This fund is used to account for the acquisition, construction, reconstruction, and/or major renovation of buildings (and related fields and facilities) other than school-related projects. Financing is generally derived from the issuance of bonds or notes. City Council appropriations are for the term of the projects. The Public Building Commissioner is responsible for all projects accounted for in this fund. A separate sub-fund is maintained within the fund for each major capital project.

### School Building Improvements Fund

This fund is used to account for the acquisition, construction, reconstruction, and/or major renovation of school-related buildings (and related fields and facilities). Financing is generally derived from the issuance of bonds or notes. City Council appropriations are for the term of the project. The Public Building Commissioner is responsible for all projects accounted for in this fund. A separate sub-fund is maintained within the fund for each major capital project.

### Street Improvements Fund

This fund is used to account for the revenues and expenditures of the Commonwealth of Massachusetts Chapter 90 highway construction grant funds and state construction grant for certain road and intersection improvements. Grant budgets are recorded based upon annual grant awards from the Commonwealth, City Council authorization of annual spending authority, and approval of specific construction projects by the Massachusetts Highway Department. Chapter 90 highway construction grants are paid to the City on a reimbursement basis. The City finances grant expenditures internally until reimbursements are received from the Commonwealth. Grant revenue is recognized when approved expenditures are incurred and submitted to the Commonwealth for reimbursement.

### Municipal Equipment Replacement Fund

This fund is used to account for the acquisition of public safety and public works motor equipment, financed with the issuance of debt.

#### Permanent Funds

#### Municipal Fund

This fund is used to account for a variety of municipal purposes. A detailed report may be obtained from the Comptroller's Office.

#### Library Common Fund

This fund is used to account for the purchase of library supplies and materials and the enhancement of public library services in Newton. The Newton Library Board of Trustees maintains custody of fund assets.

### Internal Service Funds

#### Health Insurance Fund

This fund is used to account for group health benefits for active and retired employees of the City. The City funds 70%/75% of group health benefits, and employees contribute 25%/30% of the cost through payroll deductions. The City maintains separate sub-funds for plans administered by Tufts Associated Health Plan and Harvard-Pilgrim Health.

### Workers' Compensation Insurance Fund

This fund is used to account for workers' compensation benefits, replacement wages and medical benefits for qualified employees. The fund is also used to account for the cost of providing medical benefits to public safety employees who are injured in the line of duty. Replacement wages for public safety employees are accounted for in the General Fund operating budgets of the police and fire departments.

### Liability Insurance Fund

This fund is used to accumulate resources to pay liability claims in excess of \$50,000. Liability claims of \$15,000 or more are financed from a judgment and settlement appropriation in the City's Solicitor's General Fund annual appropriation. Claims greater than \$5,000, but less than \$50,000 are financed with a transfer from the Reserve Fund annual appropriation in the General Fund.

### Private Purpose Trust Funds

#### Chaffin Education Fund

This fund is used to account for higher education loans and grants issued to Newton high school graduates who are unable to afford the cost of college education. Revenues consist primarily of investment income on fund cash and investments.

### Scovell Education Fund

This fund is used to account for prizes and awards to students for distinguished scholarships awarded at Newton high schools. The prizes are subject to approval of the School Committee. Revenues consist primarily of investment income on fund cash and investments.

### Gorin Education Fund

This fund is used to account for loans to Newton high school graduates for attending institutions of higher education. Revenues consist primarily of investment income on fund cash and investments.

### Cousens Welfare Fund

This fund is used to account for loans and or grants to Newton residents who qualify as poor. At least 90% of the annual income of the fund is to be distributed to the deserving poor and not more than 20% of this sum may be loaned to individuals who are temporarily in financial need. Revenues consist primarily of investment income on fund cash and investments.

### Newton North High School Scholarship Fund

This fund is used to account for Newton North High School scholarship funds. Detailed fund information is available from the City Comptroller's Office.

#### Kendrick Welfare Fund

This fund is used to account for distributions to needy industrious poor of Newton, especially widows and orphans.

### Read Charity Fund

This fund is used to account for the perpetual maintenance of the donor's grave site, an annual sleigh ride or picnic for the children of the Newton Corner section of Newton, free lectures on scientific subjects in Newton Corner, library book purchases, and assistance to poor widows of the City. Revenues consist primarily of investment income on fund cash and investments.

### Spear Infirmary Fund

The terms of the gift of this fund calls for the income to be used to "...provide cheer for the inmates of the City farm." The fund has been inactive for a number of years.

#### Mabel Riley Senior Fund

The terms of the gift of this fund calls for the income to be used for "...special treats for residents of nursing homes and homes for the elderly on holidays and for comforts for the sick throughout the year."

### Elderly Tax Relief Fund

The City has accepted Massachusetts General Law Chapter 60, Section 3D, which authorizes the implementation of a voluntary tax check-off program for purposes of defraying real estate taxes for elderly and disabled Newton taxpayers with low incomes. This fund is used to account for the receipt of voluntary donations and awards voted by the Taxation Aid Committee.

### Community Preservation Fund

This fund accounts for the 1% local property tax surcharge that the voters of the City approved in November of 2001 for open space, historic resource and affordable housing purposes. The Commonwealth of Massachusetts currently matches local surcharge revenue on a dollar for dollar basis.

The City Council has appropriation authority over all community preservation funds; however, all appropriation recommendations must originate with the nine member community preservation committee.

### STATISTICAL SECTION

This part of the City of Newton's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

#### Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

### Revenue Capacity

These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.

### Debt Capacity

These schedules contain information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

### Demographic and Economic Information

This schedule offers demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

### Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

(1) Rates are applicable to each \$1,000 of assessed value

(2) Per the initiatives of Proposition 2 1/2 adopted by the Commonwealth of Massachusetts, the City cannot levy more than 2.5 percent of the total full and fair cash value of all taxable real and personal property. The City's levy is also limited in that it cannot increase more than 2.5 percent from the prior year, with certain exceptions for new growth or through overrides and exclusions adopted by City voters.

(3) Calculated by dividing the net tax levy by total assessed value divided by 1,000

<sup>(1)</sup> Total collections can exceed 100% due to the City's conservative statutory reserve for abatements, which reduces the net tax levy.
