PROTECTING UNDEVELOPED OPEN SPACE

This map shows all the land in Newton that is neither part of an existing park or conservation area, nor occupied by buildings or pavement.

Should some of the undeveloped spaces become new parks?

Should other undeveloped spaces be protected for water quality or wildlife habitat, even if they can't be used for active or passive recreation?

Page down for map.

DRAFT

Map Date: October 31 2011

CITY OF NEWTON, MASSACHUSETTS
Mayor - Seth D. Warren
GIS Administrator - Douglas Greenfield

The information on this map is from the Newton Geographic Information System (GIS). The City of Newton cannot guarantee the accuracy of the data. This map is not intended to be responsible for determining its suitability for specific intended purpose. City departments will not necessarily approve applications based solely on GIS data. Applicants for city permits must inquire of the relevant city department for applicable requirements. City staff correct errors as they are identified. Newton's GIS Administrator maintains records regarding the source materials and methods used to create the digital data and will disclose this information upon request.

DATA SOURCES: Not all necessarily apply to this map:
Parcel boundaries were compiled on 1991 1:100 scale orthophoto base maps and are updated continuously.
Building footprints and road edges of pavement originally from Boston Edison (based on 1991 aerial photos). Newton staff have updated buildings from subdivision plans and orthophotography.
Thematic data (e.g. Land Use) are from the Assessor's CAMA data base.
