

PETITION to SUPPORT PERMITTING AND FUNDING for CAN-DO'S PROJECT AT 236 AUBURN STREET

We, the undersigned residents of the City of Newton do hereby declare that:

We support CAN-DO'S application for zoning relief under Massachusetts's General Laws Chapter 40B to build one five bedroom congregate building to house 5 individuals with development disabilities, renovate and restore one historic residential building to create one 3- bedroom unit for a very low-income family and construct one duplex to house one 2- bedroom unit and one 3- bedroom unit both for very low-income families at 236 Auburn Street, Auburndale. We also support the allocation of funds from the Community Development Block Program Grant; HOME Funds; and historic and community housing funds from the Community Preservation Committee for the Project in amounts necessary to develop a sustainable and financially viable project. We recognize that in order to preserve the economic diversity of Newton and fulfill its recent commitment to be a "welcoming city" it is necessary to expend a significant level of public funding to set rents at a level that very low-income families can afford.
