The Village Bank™

October 31, 2002

Community Preservation Planner
Newton Planning and Development Department
1000 Commonwealth Ave.
Newton, Ma 02459

Dear Sirs:

As a community bank in Newton, we can attest to the need for affordable housing in our city. We have watched housing and rental prices rise, while the economy lags. We have seen young professionals unable to raise their children in the city in which they were raised. We have witnessed once considered "entry level" homes turn into "move up" homes overnight. As a supporter of the Community Preservation Act and the CAN-DO organization, we urge you to consider the two housing proposals presented before the Committee.

The \$300,000 funding toward the Homeownership Project to buy down the price of the three market units at Christina Street will make the difference to a family in their ability to afford this property. The Auburndale Cooperative Bank is in the process of preparing a special financing package for this property, which will further enhance the affordability. It is our hope that the Committee will see our commitment as a financial institution and will see favorably upon this request.

Auburndale Cooperative Bank is also working with CAN-DO on the Rental Project in West Newton. This two family will provide three bedroom housing to families with Section 8 housing. We are committed to assisting with the financing of this project.

The two projects presented to the Committee represent the first steps in addressing Newton's community housing needs. It is our anticipation that you will look favorably upon this request.

Sincerely,

Amy I. Corda

To Whom it May Concern:

I am writing to support the two housing proposals CAN-DO is presenting to the committee. Newton is rapidly losing its social and economic diversity because of the high cost of housing here. Where once Newton was affordable to a broad range of families, housing cost is increasingly a barrier to our children, parents, teachers and City employees.

Twenty years ago, a family making the Boston area median income could afford to buy nearly half of the housing available in Newton. Today, that same family could afford to buy only the bottom ten percent of the housing from a cost and quality standpoint (and it is rare that such housing would even come on the market).

The housing portions of both the Newton Framework Plan and the Newton Consolidated Plan support the development of permanent, affordable housing for families and individuals with less than the Boston area median income. Both of the projects proposed by CAN-DO support this goal.

1. Homeownership Project - \$300,000 in funding to reduce the cost of the three market rate units at its Christina Street project would provide a homeownership opportunity for three city employees. The desire to create community housing opportunities for city employees was often cited as a rationale for the passage of the act during the campaign.
2. Rental Project - \$200,000 to assist in the purchase of a two-family house in West Newton. Each of the three-bedroom units will be rented to families who have Section 8 certificates.

I believe these two projects represent a good beginning for utilization of the funds to address Newton's community housing needs.

Sincerely,

Stephen D. Gartrell

To Whom it May Concern:

I am writing in support of two housing grant applications submitted by CAN-DO for Community Preservation Act funding. I supported the passage of the CPA in Newton and believe that the following CAN-DO proposals will help fulfill the CPA's mission in our community. Affordable housing continues to be in tremendously short-supply in Newton and the need to create such housing for Newton residents is imperative.

CAN-DO's proposals consist of funding for both a homeownership project and a rental project:

1. Homeownership Project - \$300,000 in funding to reduce the cost of the three market rate units at its Christina Street project to provide homeownership opportunities for three city employees. The desire to create community housing opportunities for City employees was often cited as a rationale for the passage of the CPA during the campaign and I believe that our community is strengthened if City employees can live in the communities they serve.
2. Rental Project - \$200,000 to assist in the purchase of a two-family house in West Newton. Each of the three-bedroom units will be rented to families who have Section 8 certificates.

I believe these two projects are consistent with Newton's housing goals and the mission of the CPA. I am hopeful that they will receive your utmost consideration. Thank you for your time and attention.

Sincerely,

Cynthia Stone Creem

October 29, 2002

Dear Community Preservation Committee Member:

I am writing you in support of the two housing proposals CAN-DO is presenting to the committee. As State Representative, I campaigned vigorously for the passage of the Community Preservation Act. It is my hope that community housing will be a major benefactor of this act. As you review the numerous projects before you, I urge you to take in to consideration the worsening crisis in housing affordability.

Home sale prices continue to rise despite a lagging economy. Rental prices have softened somewhat but are still higher than many families can afford. CAN-DO has applied for funding for both a homeownership project and a rental project.

1. Homeownership Project - \$300,000 in funding to reduce the cost of the three market rate units at its Christina Street project would provide a homeownership opportunity for three city employees. The desire to create community housing opportunities for city employees has often been cited as a rationale for the passage of the community preservation act.
2. Rental Project - \$200,000 to assist in the purchase of a two-family house in West Newton. Each of the three bedroom units will be rented to families who have Section 8 certificates.

These projects represent a good beginning for the utilization of funds to address Newton's community housing needs. CAN-DO has a reputation and a track record of doing its utmost to expand affordable housing opportunities desperately needed by a

growing number of Newton community members. I strongly urge you to give this application serious consideration.

If you have any questions or concerns regarding this issue, please do not hesitate to contact my office at (617) 722-2582. Thank you for your attention to this matter.

Sincerely,

Dear Mike:

Re: CAN-DO application for CPA funds

I am writing to express my strong support for CAN-DO's proposal for CPA funding for two projects.

The \$300,000 request to reduce the price of the market rate units at their Christina Street development will provide dedicated housing for employees of the City. As you are well aware, the current housing market has priced all but our highest paid City employees out of Newton. As an elected official, I feel strongly that there is a benefit to the community to have employees who do not leave their commitment to Newton behind at the end of the business day.

The \$200,000 request to help purchase a two-family house to provide permanent housing for holders of Section 8 certificates will help move the City a small step toward meeting our 10% affordability goal. CAN-DO is experienced in developing such small sites by combining multiple funding sources and maximizing its effectiveness by working closely with other agencies, as in the recent Webster Street residence developed for NWW.

I hope that the Community Preservation Committee will give positive consideration to both of these projects.

Very truly yours,

Brooke K. Lipsitt
President

Community Preservation Planner
Newton Planning and Development Department
1000 Commonwealth Avenue
Newton, MA 02459

October 30, 2002

To Whom it May Concern:

I am writing to you and the Community Preservation Committee to lend support for the two housing proposals CAN-DO is presenting to the Committee. The Parent Program of Newton Community Service Centers, Inc. was an active participant in the campaign for passage of the Community Preservation Act. It is our hope that at a time when affordable housing in Newton is so scarce, that community housing will be a priority for Community Preservation funding made available in Newton. We urge you to take into consideration how the housing affordability crisis has worsened since the fall of 2001 when the act was passed.

Presently the economy is lagging, but sales prices for homes in Newton continue to rise. Rental prices have softened somewhat but are still out of reach for many families. CAN-DO has applied for funding for both a homeownership project and a rental project:

1. Homeownership Project - \$300,000 in funding to reduce the cost of the three market rate units at its Christina Street project would provide homeownership opportunities for three city employees who meet the income eligibility requirements under the Act. The desire to create community housing opportunities for city employees was often cited as a rationale for the passage of the Act during the campaign.
2. Rental Project - \$200,000 to assist in the purchase of a two-family house in West Newton. Each of the three-bedroom units will be rented to families who have Section 8 certificates. At this point in time when rentals units command such a high rent, there is a shortage of units available to Section 8 holders and the families who have waited years to obtain them are having to give them up or move far from family and support systems.

We believe these two projects represent a good beginning for utilization of the funds to address Newton's community housing needs. Therefore we strongly urge the Committee to approve CAN-DO's application to fund these two projects.

Sincerely,

Community Preservation Planner
Newton Planning and Development Department
1000 Commonwealth Avenue
Newton, MA 02459

October 31, 2002

Dear Community Preservation Planner:

I write in support of two proposals that CAN-DO is presenting to the Community Preservation Committee.

JCHE owns and manages two developments for low-income elderly in Newton with a total of 346 units. There are almost 1,800 people on our waiting lists for these units. We know first hand the serious shortage of places for low-income people to live in Newton. For that reason, we were active supporters of the campaign for Newton to pass the Community Preservation Act.

I urge you therefore to award funding for CAN-DO's proposals. One would write down the cost of the three market-rate units in CAN-DO's Christina Street project, to make them accessible to the families of three city employees. The desire to create homeownership opportunities in Newton for city employees was one of the arguments in support of passage of the CPA referendum.

The second project is to purchase a two-family house in West Newton, the units of which would be rented to holders of Section 8 certificates.

We believe these two proposals are important efforts to address Newton's acute shortage of housing for low and moderate income households. We urge you to fund them

Sincerely,

Ellen Feingold

Newton, MA 02459

To Whom it May Concern:

I am writing in support of proposal submitted to the Community Preservation Committee by CAN-DO. CLN was an active participant in the campaign for passage of the Community Preservation Act. We strongly believe that there is a tremendous need for affordable housing in our community and hope that affordable housing projects will be a major focus of the Community Preservation funding made available in Newton. As you review the numerous applications to fund various projects, we urge you to take into consideration how the housing affordability crisis has worsened since the fall of 2001 when the Act was passed.

Sale prices for homes in Newton continue to rise despite the lagging economy. Rental prices for housing have softened somewhat but are still higher than many families can afford. CAN-DO has applied for funding for both a homeownership project and a rental project, which are as follows

1. Homeownership Project - **\$300,000** in funding to reduce the cost of the three market rate units at its Christina Street project would provide homeownership opportunities for three city employees who meet the income eligibility requirements under the Act. The desire to create community housing opportunities for city employees was often cited as a rationale for the passage of the Act during the campaign.
2. Rental Project - **\$200,000** to assist in the purchase of a two-family house in West Newton. Each of the three-bedroom units will be rented to families who have Section 8 certificates.

We believe these projects begin the process that we as a community have committed to: creating community housing that is affordable. We strongly urge the Committee to approve CAN-DO's application to fund these two projects.

Thank you.

Sincerely,

Marcie Laden

Re: CAN-DO Christina Street project

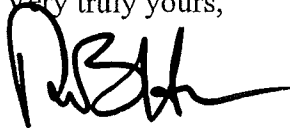

Dear Committee members:

The CAN-DO proposal for CPA funding for City employees to gain housing at Christina Street is an exemplar in meeting the intentions of both the Community Preservation Act and of Newton's having accepted that Act. I strongly support it.

The proposal would enable City employees otherwise ineligible for subsidy assistance to be served through the Christina Street effort. Doing so would precisely address the stated housing goals that call for creation of moderate-income units for City employees, and for projects leveraging other funding (page 22 of the *Community Preservation Plan*). It would do so in the context of a development that is strikingly consistent with the entire set of CPC housing goals and also consistent with the spirit of the CPC historic preservation goals, as well (*Plan* page 18). The development already has drawn kudos not only for its service to housing needs but also for its insightful design that utilizes existing resources in a way that is appropriate to and helps to secure the existing character of its context.

Providing funding for this targeted purpose would send a welcome sign that as promised CPA funds are being used to serve multiple objectives in creative ways. As one of those who worked hard to bring CPA into being and into Newton, I heartily endorse this proposal for funding.

Very truly yours,

Philip B. Herr

Re: CAN-DO West Newton two-family project

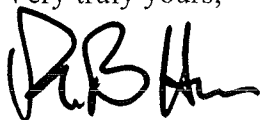

Dear Committee members:

The CAN-DO proposal for CPA funding to help with purchase and rehab of a West Newton two-family dwelling needs and deserves CPA assistance. I strongly support it. That assistance will enable CAN-DO, an organization created at City initiative, to "Use deed restrictions to acquire, update, and resell existing market rate housing as affordable units," (quoting from the sixth goal bullet on page 22 of the *Community Preservation Plan*). By leveraging other public funds, this funding would bring the rental price of those units to a level enabling use of Section 8 certificates, a form of housing subsidy under-utilized in the City because of the limited number of units available within Section 8 rent level limitations. Further, because of being developed by a local non-profit organization operating other assisted housing within the City, possibilities would be created for a continuity of opportunities, for example for persons now having term-limited tenure in CAN-DO properties committed for transitional housing.

As is true with other CAN-DO properties, this proposed rehab of an existing dwelling would create no departure from the character of the neighborhood, but rather would provide needed investment in the structure and assurance of continuity in the current use and at the current density, permanently serving two households. The funding would also lend further support to a critical institutional link in Newton's housing efforts. CAN-DO is not just another developer, it is the City's sole "Community Development Organization" (CHDO), meeting strict HUD criteria to be eligible for that status. While the federal funding made available because of that eligibility is currently modest, over time having a healthy CHDO is an important asset for effectively addressing housing needs, and this support now will help assure that long-term future.

Providing funding for this targeted purpose would send a welcome sign that as promised CPA funds are being used to serve multiple objectives in creative ways. As one of those who worked hard to bring CPA into being and into Newton, I heartily endorse this proposal for funding.

Very truly yours,

Philip B. Herr

To Whom it May Concern:

This letter is written to you and the committee to indicate support of the two housing proposals CAN-DO is presenting to the committee. It our hope that community housing will be a major benefactor of the Community Preservation Act. As you review the numerous projects, we urge you to take into consideration how the affordability crisis has worsened since the fall of 2001 when the act was passed.

Sale prices continue to rise despite the lagging economy. Rental prices have softened somewhat but are still higher than many families can afford. CAN-DO has applied for funding for both a homeownership project and a rental project.

1. Homeownership Project - \$300,000 in funding to reduce the cost of the three market rate units at its Christina Street project would provide an homeownership opportunity for three city employees. The desire to create community housing opportunities for city employees was often cited as a rationale for the passage of the act during the campaign.
2. Rental Project - \$200,000 to assist in the purchase of a two-family house in West Newton. Each of the three-bedroom units will be rented to families who have Section 8 certificates.

We believe these two projects represent a good beginning for utilization of the funds to address Newton's community housing needs.

Sincerely,

Connie and Tom DeVol

October 30, 2002

Chair
Community Preservation Act Committee
Newton Planning and Development Department
1000 Commonwealth Avenue
Newton, MA 02459

Dear Chair and Committee Members:

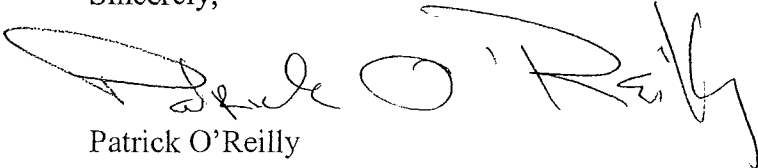

I am writing this letter in support of proposals that CAN-DO will be presenting to the Committee. For a number of years I have been involved in affordable housing and development issues in our city, and was active in the campaign for passage of the Community Preservation Act.

Among the opportunities that are offered by this Act , the possibility of expanding the number of affordable housing units should be your top priority. With rents and purchase prices for housing in Newton beginning to rise beyond the reach of middle class families and elders, the economic diversity of this city could very easily be lost in the coming years. And once lost, it will not likely to be recovered. We justifiably take pride in the diversity we have in Newton. Its loss will change the character of this city forever.

CAN-DO is one of the few organizations in Newton that can make a difference in halting the loss of affordable housing. And they need your help. I urge you to provide support for the projects they have submitted to you; the Homeownership Project on Christina Street, and the Rental Project in West Newton.

I hope they and all of us can count you helping our city to continue to be a leader in providing affordable housing for its residents.

Sincerely,

Patrick O'Reilly

To Whom it May Concern,

This letter is in support of the two housing proposals being presented to the Committee by CAN-DO. I have been active in the campaign for passage of the Community Preservation Act and am pleased that it has us balance housing, environmental, historical and recreational needs of the city. I would like to remind you, however, that the housing affordability crisis has worsened since the fall of 2001 when the Act was passed.

CAN_DO's homeownership project, requesting \$300,000 to provide homeownership opportunities for three city employees and its rental project, requesting \$200,000 to assist in the purchase of a two family house to be used for Section 8 certificate holders, will benefit our city, as we seek to make Newton a place where a variety of people can live -- lower income as well as higher. CAN-DO has an excellent record of producing affordable housing and is an important asset to Newton. I urge your support for these two projects.

Sincerely,

Virginia Robinson

To Whom it May Concern:

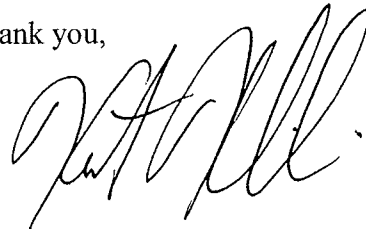

Please support the two housing proposals presented to the Community Preservation committee by CAN-DO, to provide more affordable housing for city employees at its Christina Street site. I was an active participant in the campaign for passage of the Community Preservation Act in Newton, in the hope that community housing will be a major benefactor. As you review the numerous applications to fund various projects, please consider how the housing affordability crisis has worsened since the fall of 2001 when the Act was passed.

Sale prices for homes in Newton continue to rise despite the lagging economy. Rental prices for housing have softened somewhat but are still higher than many families can afford. CAN-DO has applied for funding for both a homeownership project and a rental project, which are as follows

1. Homeownership Project - **\$300,000** in funding to reduce the cost of the three market rate units at its Christina Street project would provide homeownership opportunities for three city employees who meet the income eligibility requirements under the Act. The desire to create community housing opportunities for city employees was often cited as a rationale for the passage of the Act during the campaign.
2. Rental Project - **\$200,000** to assist in the purchase of a two-family house in West Newton. Each of the three-bedroom units will be rented to families who have Section 8 certificates.

I believe these two projects represent a good beginning for utilization of the funds to address Newton's community housing needs, and strongly urge the Committee to approve CAN-DO's application to fund these two projects.

Thank you,

Kenneth H. Sinclair

Community Preservation Committee
Newton Planning and Development Department
1000 Commonwealth Avenue
Newton, MA 02459

Dear CPC Members:

I am writing in support of the two housing proposals CAN-DO is presenting to the Community Preservation Committee for funding. I worked for the passage of the Community Preservation Act with the hope that it would provide additional resources for affordable housing in Newton, as well as provide a vehicle for thinking about the integration of housing, open space and historic preservation. CAN-DO offers a terrific opportunity to implement that goal in the first CPC funding round.

The need for affordable housing continues unabated. We have been fortunate to have two new sources of rental housing proposed in Newton in recent years, the Avalon Bay Needham Street development, and the HUD 202 on Watertown Street. Yet for Newton, the real opportunity to increase the affordable housing supply lies in small incremental gains such as those proposed by CAN-DO. I am particularly pleased to see their balance of homeownership and rental housing.

I urge you to give serious consideration to these two proposals. Thank you for the considerable time and thought you have given to implementing the Community Preservation Act in Newton.

Sincerely,

Ann Houston

Community Preservation Planner
Newton Planning and Development Department
1000 Commonwealth Avenue
Newton, MA 02459

Dear Sir/Madam:

As a strong advocate for passage of the community Preservation Act, I am writing to support the two housing proposals CAN-DO is proposing for funding under this new initiative. Increasing the availability of affordable housing for our municipal and school employees was a major reason for my strong support for the CPA. Although I fully support both increasing open space in Newton and working to preserve historic sites, increasing the stock of affordable housing remains my top priority for use of CPA funds.

Real estate prices in Newton have continued to climb as the economy shows few signs of recovery. It is even more difficult today than it was a year ago when the CPA was approved for municipal and school employees to purchase homes in Newton. As a member of the School Committee since the early 1990s, I have seen fewer and fewer new staff able to afford to live in Newton. I know that reality is mirrored on the municipal side with few recent hires able to buy or rent in Newton. Housing prices have driven city employees to live at greater and greater distances and endure longer and longer daily commutes in order to gain housing they can afford.

CAN-DO's proposals address both real estate and rental markets. Though funding of these proposals would be small steps that maintain a modest pool of affordable housing in Newton, they would be important steps. As a mature suburb with little available land and above average housing costs, Newton must take a hundred small steps like these if residence in this city is to stay an option for our own employees and other moderate income families.

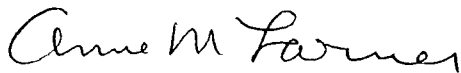

1. Homeownership Project - \$300,000 in funding to reduce the cost of the three market rate units at its Christina Street project would provide homeownership

opportunity for three city employees who cannot currently afford to buy in Newton.

2. Rental Project - \$200,000 to assist in the purchase of a two-family house in West Newton. Each of the three-bedroom units will be rented to families who have Section 8 certificates. This would combine local dollars with a federal rent subsidy program to provide two more opportunities for families with limited means to live in our city and preserve some of the economic diversity we are quickly losing.

I ask that you approve these two projects and help keep Newton a possibility for both city and school employees and families of limited means.

Sincerely,

Anne M Larner

To Whom it May Concern:

This letter is written to you and the Community Preservation Committee to my indicate support for the two housing proposals CAN-DO is presenting to the Committee. Though my membership on the board of directors of Citizen's Housing and Planning Association, I was an active participant in the campaign for passage of the Community Preservation Act. Among the eligible uses of funds, in my belief, community housing should be a major benefactor of the Community Preservation funding made available in Newton. Certainly, there is no relief in Newton's housing affordability problem, and as you review applications, I hope you will take this into consideration.

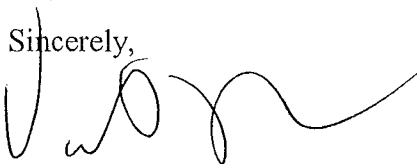

Sale prices for homes in Newton continue to rise despite the lagging economy. Despite some recent softening of rents, Newton's multifamily costs remain out of reach for low and moderate income families as well. CAN-DO has applied for funding for both a homeownership project and a rental project, which are as follows

Homeownership Project - \$300,000 in funding to reduce the cost of the three market rate units at its Christina Street project would provide homeownership opportunities for three city employees who meet the income eligibility requirements under the Act. The desire to create community housing opportunities for city employees was often cited as a rationale for the passage of the Act during the campaign.

Rental Project - \$200,000 to assist in the purchase of a two-family house in West Newton. Each of the three-bedroom units will be rented to families who have Section 8 certificates.

I believe that these two projects represent a good beginning for utilization of the funds to address Newton's community housing needs. Therefore, I strongly urge the Committee to approve CAN-DO's application to fund these two projects.

Sincerely,

Vincent F. O'Donnell

Oct. 28, 2002

To whom it may concern:

I am writing to ask that you support the two projects proposed by Can Do to help provide affordable housing in Newton.

I write as a former Newton resident who just could not afford to hold onto my rented apartment of 10 years as the rent increased by \$300 a month last year alone.

My daughter and I had to move out of Newton last April and increased housing cost was the only reason.

I think that when long term residents are forced to relocate because they have no housing options, and when people who work in and for the city can not live there, the community is weakened.

Can Do has a fine track record of completing worth-while projects .

For those of us who rent, the cost of housing in Newton is a crisis.

Please help the hardworking people of Newton by approving these projects.

Sincerely,

Mary I. Timm Gomes

Dear Sir or Madam:

I am writing to ask you to review and support the CAN DO housing proposals.

My family and I have resided in Newton for 25 years. My kids attended Newton schools. We are members of the Eliot Church community. I serve on the CAN DO board of directors. I mention this, because I would like you to know that I have a deep interest in the Newton community life. I am sure that I do not have to convince you that a diverse community is a more vibrant place to live than one that is homogeneous.

Given the economics of the housing market today, a diverse housing stock in Newton will not "just happen". The city has to work to encourage it when opportunity arises. Such an opportunity is presented to you today through the CRA funds.

Please act now. Support affordable housing in Newton. Approve the CAN DO housing proposals.

To Whom it May Concern:

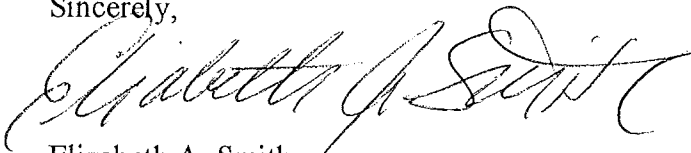

Please accept this letter as an indication of AvalonBay Communities' support for the two housing proposals that the Citizens for Affordable Housing in Newton Development Organization (CAN-DO) is presenting to the Community Preservation Committee ("Committee"). It is our hope that community housing will be a major benefactor of the Community Preservation funding made available in the City of Newton. As you review the numerous applications to fund various projects, we urge you to take into consideration how the housing affordability crisis has worsened since the fall of 2001 when the Community Preservation Act was passed.

Sales prices for homes in Newton continue to rise despite the lagging economy. Rental prices for housing have softened but are still higher than many families can afford. CAN-DO has applied for funding for both a homeownership project and a rental project, which are as follows:

1. Homeownership Project - **\$300,000** to reduce the cost of the three market rate condominiums at its Christina Street project. Three city employees, who meet the income eligibility requirements under the Act, will have the opportunity to purchase these homes. The Christina Street homeownership project creates housing opportunities for City of Newton employees within the community which they serve. The Community Preservation Act was designed to fund this type of community housing opportunity.
2. Rental Project - **\$200,000** to assist in the purchase of a two-family home in West Newton. Each of the three-bedroom apartments will be rented to families who have Housing Choice Vouchers (formerly Section 8 Certificates).

AvalonBay believes these two projects represent a sound investment in addressing Newton's community housing needs. Therefore, we strongly urge the Committee to approve CAN-DO's application to fund these two community housing projects.

Sincerely,

Elizabeth A. Smith

CPA Committee of Newton

Dear Sir or Madam:

I am writing to voice my strong support for the proposals for affordable housing in Newton you are receiving with this letter. I am a Newton homeowner, an employee of the city, and a voter who supported the Community Preservation Act. While I agree that historical preservation and the conservation of open space are important to Newton, I think the need for affordable housing is absolutely crucial if the city is to maintain the socio-economic diversity that made it so attractive for many of us. A simple comparison of home prices and market rents with the average salary of municipal workers shows that many middle class families can no longer afford to live in Newton. I hope that you will give your support to the creation of as many units of affordable housing as possible.

Sincerely,

The desire to create community housing opportunities for city employees was often cited as a rationale for the passage of the act during the campaign.
2. Rental Project - \$200,000 to assist in the purchase of a two-family house in West Newton. Each of the three-bedroom units will be rented to families who have Section 8 certificates.

We believe these two projects represent a good beginning for utilization of the funds to address Newton's community housing needs.

Very truly yours,

Donna Rombauer

Dear Community Preservation Planner:

I am writing to you and the Community Preservation Committee in support of funding the two housing proposals CAN-DO is presenting to the Committee. I hope that community housing will benefit from the Community Preservation funding made available in Newton. I believe that you will be making an excellent decision when you approve CAN-DO's request for the funding of the two proposals.

I believe this for two reasons. First, I think you should consider how the housing affordability crisis has become worse since the fall of 2001 when the Community Preservation Act was passed. I know from first-hand observation that sale prices for homes in Newton have gone up even though the economy has stalled. Rental prices have not changed much, which means that the rates are still out of reach for many families. CAN-DO has applied for funding for both a homeownership project and a rental project, which would offer opportunities to city employees who meet the income eligibility requirements, and to families who have Section 8 certificates, respectively.

Second, I have no doubt that CAN-DO will deliver on its promise to provide these new housing options, because of CAN-DO's Executive Director, Josephine McNeil. I am continually impressed by Josephine's ability to communicate her goals, and by her drive, persistence, and ability to bring many people together to produce real, positive results. I had the pleasure of working with her on CAN-DO's new website, which we completed and launched this year (www.newtoncando.org). As a result, I have been able to follow their progress on several development projects, including the Webster Street House which successfully opened this September.

47 Page Road • Newton, MA 02460

I think her work on behalf of affordable housing in Newton is remarkable, and these two projects represent a good beginning for utilization of the funds to address Newton's community housing needs. Therefore, I strongly urge the Committee to approve CAN-DO's application to fund these two projects.

Regards,

Dr. David S. Backer

Re: CAN-DO'S APPLICATION TO THE COMMUNITY PRESERVATION COMMITTEE

To Whom it May Concern:

This letter is written to you and the Community Preservation Committee to indicate support for the two housing proposals CAN-DO is presenting to the Committee. We supported passage of the Community Preservation Act.

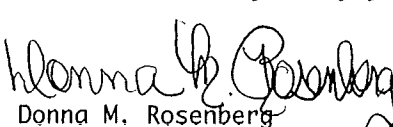

It is our hope that community housing will be a major benefactor of the Community Preservation funding made available in Newton. We urge you to take into consideration how the housing affordability crisis has worsened since the fall of 2001 when the Act was passed.

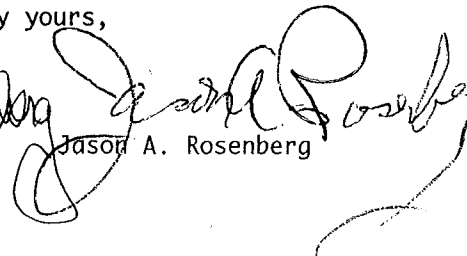

Sale prices for homes in Newton continue to rise despite the lagging economy. Rental prices for housing have softened somewhat but are still higher than many families can afford. CAN-DO has applied for funding for both a homeownership project and a rental project, which are as follows

1. Homeownership Project - \$300,000 in funding to reduce the cost of the three market rate units at its Christina Street project would provide homeownership opportunities for three city employees who meet the income eligibility requirements under the Act. Creating housing opportunities for city employees was one of the reasons we supported passage of the Act.
2. Rental Project - \$200,000 to assist in the purchase of a two-family house in West Newton. Each of the three-bedroom units will be rented to families who have Section 8 certificates.

These two projects represent a good beginning for the funds toward addressing Newton's community housing needs. Therefore, we strongly urge approval of CAN-DO's application to fund these two projects.

Very truly yours,

To Whom It May Concern:

I am writing to support CAN-DO's housing proposals which are being presented to the committee. As an original supporter of the Community Preservation Act, I had hoped that the CPA would result in the funding of projects of this type. Josephine McNeil has made me aware of the \$300,000 request for subsidizing homeownership opportunities at the Christina Street project and the \$200,000 request to purchase a two family house in West Newton.

CAN-DO has done wonderful work within the City of Newton to increase our inventory of affordable housing. I strongly endorse these proposals and hope that the committee will consider providing funding.

Sincerely,

Theodore R. Tye

To Whom it May Concern:

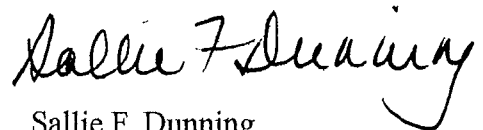

This letter is written to you and the committee to indicate support of the two housing proposals CAN-DO is presenting to the committee. I was quite active in the campaign for passage of the Community Preservation Act, and it is my hope that community housing will be a major benefactor. As you review the numerous projects, I urge you to take into consideration how the affordability crisis has worsened since the fall of 2001 when the act was passed.

Sale prices continue to rise despite the lagging economy. Rental prices have softened somewhat but are still higher than many families can afford. CAN-DO has applied for funding for both a homeownership project and a rental project.

1. Homeownership Project - \$300,000 in funding to reduce the cost of the three market rate units at its Christina Street project would provide an homeownership opportunity for three city employees. The desire to create community housing opportunities for city employees was often cited as a rationale for the passage of the act during the campaign.
2. Rental Project - \$200,000 to assist in the purchase of a two-family house in West Newton. Each of the three-bedroom units will be rented to families who have Section 8 certificates.

I believe these two projects represent a good beginning for utilization of the funds to address Newton's community housing needs.

*Re: Citizens for Affordable Housing in Newton Development Organization
("CAN-DO") proposal for affordable housing grant assistance*

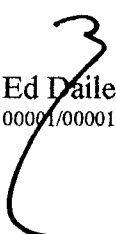

Dear Jeff:

I write to urge Community Preservation Act support for two CAN-DO housing proposals: \$300,000 to support affordable home purchases for City employees and their families and \$200,000 in rental assistance for families with incomes of less than 80% of the Boston area median. I believe these projects are consistent with the housing objective of the CPA and that they will further our community objective to pursue every reasonable opportunity for affordable housing.

Massachusetts ranks 45th (from the bottom) in home ownership opportunities and 3rd (from the top) in housing costs. With median purchase prices in the \$500,000 range, Newton cannot continue to offer affordable housing to our children, to those who serve us, and to working families unless we press for affordable housing. The Community Preservation Act represents a long sought and singular opportunity to leverage community funds for housing.

I want to note also that CAN-DO, with Josephine McNeil's tireless direction, is a successful developer of affordable housing in Newton. I am confident that CAN-DO will make best use of CPA funding.

Best regards,

Ed Dailey

October 30, 2002

Dear Community Preservation Committee,

I am writing in support of the two proposals prepared by CAP-TO for affordable housing.

The three units on Christina Street would be an instantaneous gain for the city. The timing could not be better.

The two-family houses in West Houston represents permanently affordable housing that would logically be filled by families moving from transitional housing, freeing capacity there.

Opportunities like this do not come

along regularly and do not last long
when they do. Even finding sites
for affordable housing is a challenge,
preceding the financial obstacles.
These two projects are a perfect way
to start the CPA in Newton.

Very truly yours,
John Wilson

To the Community Preservation Committee:

This petition is written to the Community Preservation Committee to indicate support for the two housing proposals CAN-DO is presenting to the Committee. It is our hope that community housing will be a major benefactor of the Community Preservation funding made available in Newton. As you review the numerous applications to fund various projects, we urge you to take into consideration how the housing affordability crisis has worsened since the fall of 2001 when the Act was passed.

Sale prices for homes in Newton continue to rise despite the lagging economy. Rental prices for housing have softened somewhat but are still higher than many families can afford. CAN-DO has applied for funding for both a homeownership project and a rental project, which are as follows

1. Homeownership Project - \$300,000 in funding to reduce the cost of the three market rate units at its Christina Street project would provide homeownership opportunities for three city employees who meet the income eligibility requirements under the Act. The desire to create community housing opportunities for city employees was often cited as a rationale for the passage of the Act during the campaign.
2. Rental Project - \$200,000 to assist in the purchase of a two-family house in West Newton. Each of the three-bedroom units will be rented to low income families.

We believe these two projects represent a good beginning for utilization of the funds to address Newton's community housing needs. Therefore, we strongly urge the Committee to approve CAN-DO's application to fund these two projects.
