Project TITLE	City Hall Historic Rehabilitation – Access and Acoustic Improvements			
Project LOCATION	Full street address (with zip code), or other precise location. Newton City Hall, 1000 Commonwealth Avenue, Newton, MA 02459			
Project CONTACTS	Name & title or organization	Email	Phone	Mailing address
Project Manager	Miriam Tuchman Project Manager Public Buildings Dept	mtuchman@newtonma.gov	617-796-1600	52 Elliot Street Newton Highlands, MA 02461
Other Contacts	Joshua Morse Interim Public Bldgs Commissioner	jmorse@newtonma.gov	617-796-1600	52 Elliot Street Newton Highlands, MA 02461
Project FUNDING	CPA funds requested: \$670,000	Other funds to be used: \$80,000 CDBG		Total project cost: \$750,000
Project SUMMARY	Explain the project's community benefits, including those that make the project CPA-eligible, and why CPA funds are needed. You may provide more information in attachments, but your SUMMARY MUST FIT IN THIS SPACE.			
<p>This project proposes rehabilitation and improvements to historically significant spaces within City Hall, an historically significant City building. The goal of this work is to comprehensively improve access to both the War Memorial Auditorium and the Chamber in order to optimize the use and function of both spaces in a manner that protects and maintains the historic building material and significant features while providing for efficient contemporary use.</p> <p>The project is proposed to be executed in three phases. Phase 1 will address acoustics in the War Memorial Auditorium and the Aldermanic Chamber. Acoustics is an ongoing issue for public meetings and public events in both of these spaces. The project seeks an appropriate solution that respects the historic building fabric and provides proper accommodation for the hearing impaired and the range of activities that take place in these spaces. Phase 2 will address physical accessibility to the War Memorial Auditorium, which is currently served by a non-compliant ramp between the Chamber and the Auditorium. Again, the intent is to find a solution that complies with accessibility requirements in an appropriate and historically sensitive way. Phase 3 will address restoration of the War Memorial Stairs and will be brought forward as a separate proposal.</p> <p>Newton City Hall and War Memorial is a monumental building in the Georgian Revival style designed by the firm of Allen and Collens. The building was conceived of as having dual function as both a City Hall and a War Memorial to commemorate veterans and soldiers who perished in World War I; it is individually listed on the National Register of Historic Places (1990). Built in 1931, the building is significant both historically and architecturally and still functions as originally intended. It possesses integrity of location, design, setting, materials, workmanship, feeling and association. Its construction in the early 1930s is a significant reflection of Newton's civic pride and growth.</p> <p>The Aldermanic Chamber and the War Memorial Auditorium are architecturally and historically significant spaces in the building. The Aldermanic Chamber has a coffered ceiling with added acoustic tiles. There are decorative panels on the ceiling beams and the walls have pilasters between the tall arched windows. The floor is Burma teak-wood in a herringbone pattern that is in poor condition. The War Memorial Auditorium is a symmetrical space with a Barrel-vaulted ceiling, an Ionic colonnade, upper mezzanine at one end, and an apse at the opposite end.</p>				

You may adjust the space for each question, but the combined answers to all questions on this page must fit on this page.
