Newton SEPAC
Presentation: Anti -Bullying
Thursday, October 18 7:15-9pm
Education Center; 100 Walnut Street
Room 210

POSTED
City Clerk

This presentation is intended for parents who would like to have a better understanding of:

- The legal obligations of a school district in addressing bullying for students through the IEP process.
- The need for intensive, coordinated services for students with ASD and other disabilities to make effective progress and be able to address bullying so the student can feel safe at school.

This workshop will address the significant changes in special education practice that are a result of the state's anti- bullying prevention law, focusing on both school-wide efforts to create safe and supportive school environments for students with disabilities and statutory provisions that require IEP Teams to address bullying of students with disabilities.

About the speaker:

Johanne Pino is a full time project coordinator at MAC where she engages in outreach and provides information and technical assistance to parents and professionals. As a peer leader, she has worked for many years as an advocate for her children with disabilities.
