MAGISTRATE HEARINGS PROCEDURE

In anticipation of a projected opening in late spring, the Newton District Court will be attempting to set up video/telephone conferencing for Criminal Magistrate Hearings.

Moving forward, telephone and video conferencing will be the preferred method of communication with the Newton District Court.

All officers should, to the best of their abilities, verify valid phone numbers and E-Mail addresses of defendants, victims and witnesses. Correct up to date contact information will play a crucial role in making this process work.
