**Subject:** 68 Chestnut Street

Hi Katie & Neil,

I have received hard copies of the turning templates for each of the parking stalls, dated October 29, 2020 received Nov 6<sup>th</sup>; based on what I see it appears that the movements work for all the vehicles including the vector & trash trucks.  
Please let make sure the convex mirrors are in the bord order to be installed and maintained.  
Let me know if you have any questions.

Thanks

John
