In our Sept. 1 State Primary, 30,800 or 50% of the City's 61,354 registered voters cast ballots. (In the last State Primary in 2018 (which included the Governors' primaries), 15,942 people cast ballots.)

These results are preliminary and include all ballots cast, except those mail-in ballots that were put in the drop boxes at City Hall between 5:00 p.m. this evening and when polls closed at 8:00 p.m. Those ballots will be tallied tomorrow and will be added to the results.

Today's election was unlike any other in our history. My deep appreciation goes to David Olson, our election and IT staff, poll workers and volunteers who worked not just today but over the course of many weeks. They did an incredible amount of work and incredibly important work. This same team is getting ready to do it all again for the Nov. 3 general election.

Please remember, these are only Newton results and preliminary results.

Warmly,

Ruthanne
