Dear Chairman Laredo and Committee Members:

This is a letter of strongest support for the petition before your Land Use committee filed by Richard Sewall for the development of 3-5 Auburn Street, Newton.

As a direct abutter of these properties, I have had the opportunity to carefully review Mr. Sewall's proposal for the reuse of these parcels and, consequently, I am strongly in support of his plan. I am thrilled that these decrepit properties, so long a blight on this community, will be developed into new residences to enhance the neighborhood, and frankly, also its property values.

I ask that you also please give this petition your strongest support. Thank you.

Yours truly,

Mr. Chairman, I am sending you this letter on July 21, 2014 because I want to let you know that I am strongly in favor of Richard Sewall's plan to build his townhouses on property next to mine. Rick has showed me his plan and explained it in detail. I am convinced it will certainly be an improvement to our neighborhood, an area between 2 major highways which I feel has been ignored by the city for a very long time. I own property next to 3-5 Auburn Street and really want that neglected and abandoned house in bad shape removed. It has been an empty eyesore for years and it would definitely be a great service to all of us here in this neighborhood if you can approve Rick's building plan.
