<u>Executive Summary</u> <u>Fiscal Impact Projections</u>

> PREPARED BY: MUNICAP, INC

**SEPTEMBER 10, 2019** 

## **EXECUTIVE SUMMARY**

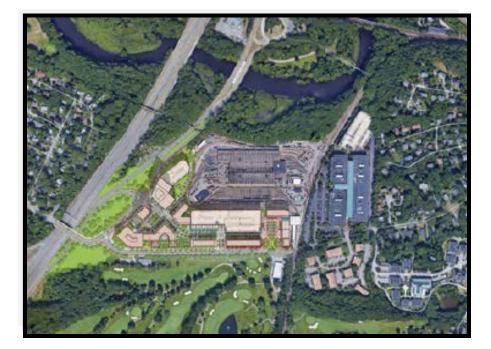

## **Purpose of Study**

The purpose of this analysis is to estimate the fiscal impacts to the City of Newton, Massachusetts resulting from the proposed Riverside Project (the "Project"). This analysis provides an estimate of the additional tax revenues and expenses that the City of Newton will receive or incur as a result of this development and contrasts the expected revenues with the expected expenses. These projections also include estimates of population, student and employment impacts resulting from the Project.

## **Project Description**

The proposed Project is adjacent to Interstate 95 and the end of the MBTA green line. This location encourages smart growth and transit-oriented development. Existing development includes tax-exempt surface parking and a hotel. The existing hotel will be demolished to make way for new high-density, walkable development primarily supported by structured parking garages. The Project contemplates 524 units of residential rentals, with 92 of those units meeting inclusionary housing standards. Furthermore, approximately 667,000 square feet of commercial, retail, office and hotel space are envisioned to achieve the City's stated goals of increasing the commercial tax base. Table A on the following page outlines the proposed development for the Project.

## **Project Site**

|                                | Gross Area                 | Units/                    |
|--------------------------------|----------------------------|---------------------------|
| Property Type                  | (Square Feet) <sup>1</sup> | Rooms/Spaces <sup>1</sup> |
|                                |                            |                           |
| <u>Residential</u>             |                            |                           |
| For Rent                       |                            |                           |
| Market rate apartments         | 458,551                    | 432                       |
| Inclusionary income apartments |                            |                           |
| 50% AMI                        | 42,294                     | 40                        |
| 80% AMI                        | 41,737                     | 39                        |
| 100% AMI                       | 13,912                     | 13                        |
| Sub-total residential          | 556,494                    | 524                       |
|                                |                            |                           |
| <u>Commercial</u>              |                            |                           |
| Retail                         | 64,176                     | -                         |
| Office <sup>2</sup>            | 523,509                    | -                         |
| Hotel                          | 79,683                     | 154                       |
| Sub-total commercial           | 667,368                    | 154                       |
| Total <sup>3</sup>             | 1,223,862                  | 678                       |

# Table A Project Description

<sup>1</sup>Provided by Mark Development, LLC. See Schedule I of the fiscal impact analysis.

<sup>2</sup>Does not include mechanical penthouse space.

<sup>3</sup>Total development square footage excludes 10,000 square feet of office space to be occupied by MBTA.

## **Projection of Impacts**

MuniCap, Inc. estimated future impacts on the City of Newtown using a combination of accepted approaches for projecting fiscal impacts. Two scenarios are prepared and attached hereto as Exhibit A and Exhibit B (collectively the "Exhibits). Scenario A is based on student generation factors provided in the *Enrollment Analysis Report: Appendix F – Method 3*, dated November 2018, produced by Newton Public Schools. Scenario B is based on actual student generation factors for the three largest projects as also provided the *Enrollment Analysis Report: Appendix F – Method 1*.

To calculate employment impacts, MuniCap, Inc. used IMPLAN Professional 2.0 software developed by MIG, Inc. IMPLAN is an industry-accepted economic impact assessment software system with which trained users can create local area *Social Accounting Matrices* and develop *Multiplier Models* that can be used to estimate detailed economic impacts of new firms moving into an area, special events such as conventions or professional sports games, recreation and tourism, military base closures, and many more activities. For the inputs used in developing the models, such as square footage and sales revenue, MuniCap, Inc. relied on a variety of sources, which are noted in the accompanying exhibit to this report. Finally, MuniCap, Inc.

analyzed current commuting trends among employees in the City of Newton to estimate the percentage of projected new employees likely to be non-residents and thus represent an additional cost to the city for services above those provided to the current service population.

In estimating the population increase, MuniCap, Inc. applied the current number of residents to the proposed housing units, using information from the U.S. Census Bureau.

For the calculation of economic benefits, primarily in the form of increased tax revenue, MuniCap, Inc. applied the actual taxing methodology by multiplying the applicable tax rate by the estimated taxable item in question. For instance, real property taxes were estimated by multiplying estimated assessed value by the current applicable real property tax rate. In some instances, revenues were estimated on a per capita basis, typically when the revenue source was not in the form of a tax. In still other cases, revenues that will likely increase as a result from the Project were dismissed altogether, as they represent charges for services that will likely be offset by the cost of providing said services.

To calculate fiscal impacts in the form of additional costs to the City of Newton, MuniCap, Inc. reviewed publications by the Office of the Comptroller and Newton Public Schools to estimate expenses on a per capita basis using residents, employees, or students. In cases when a charge for services was eliminated from the estimation of revenues, the corresponding costs for services were also eliminated from the estimation of expenses. MuniCap, Inc. also conducted interviews with the heads of the police and fire departments to determine additional service calls and resulting costs that would result from the proposed development. Tax rates were expressed at their level as of the date of this report.

Impacts were estimated on an annual basis, assuming no phase in period and no inflationary impacts. The actual results may vary with development contemplated to occur over five to seven years, with a phase-in period for property values and revenues and expenses that will increase with inflation over time. This study does not include an analysis of impacts to existing City facility capacity that may result from the proposed development. No forecast of capital improvement expenditures is included herein.

## Results of the Study

## **A. Employment Impacts**

Table B on the following page outlines the projected employment impacts resulting from the Project. Direct impacts are jobs at the new development; indirect impacts are jobs created within Middlesex County, but not at the new development.

# Table BEmployment Impacts1

|                                  | Permanent Jobs | Annual Compensation | Average Wage |
|----------------------------------|----------------|---------------------|--------------|
| Retail:                          |                |                     |              |
| Direct impacts                   | 141            | \$3,870,286         | \$27,465     |
| Indirect impacts                 | 39             | \$2,422,807         | \$62,930     |
| Sub-total retail impacts         | 179            | \$6,293,093         |              |
|                                  |                |                     |              |
| Office:                          |                |                     |              |
| Direct impacts                   | 1,235          | \$82,565,751        | \$66,863     |
| Indirect impacts                 | 686            | \$42,118,464        | \$61,370     |
| Sub-total office impacts         | 1,921          | \$124,684,215       |              |
|                                  |                |                     |              |
| Hotel:                           |                |                     |              |
| Direct impacts                   | 36             | \$1,966,327         | \$54,377     |
| Indirect impacts                 | 19             | \$1,199,095         | \$62,453     |
| Sub-total hotel impacts          | 55             | \$3,165,422         |              |
|                                  |                |                     |              |
| Total permanent direct impacts   | 1,412          | \$88,402,365        | \$62,611     |
| Total permanent indirect impacts | 744            | \$45,740,366        | \$61,479     |
| Total permanent impacts          | 2,156          | \$134,142,731       |              |

<sup>1</sup>Projected permanent employment impacts were calculated using IMPLAN software by IMPLAN Group, LLC. The software calculates labor income and the number of jobs based on industry multipliers derived from National Income and Product Accounts data published by the U.S. Bureau of Economic Analysis. This data is then indexed to local industry data compiled by the U.S. Census Bureau.See Appendix D of the fiscal impact analysis.

The methods of estimating employment impacts are explained in the subsequent appendices included in the Exhibits attached hereto. The calculation of employment impacts can be found in Appendix D of each of the Exhibits.

## **B.** Population Impacts

Tables C below projects resident population resulting from the Project. Persons per household for renter occupied and owner-occupied housing are provided in the *American Community Survey*, published by the U.S. Census Bureau.

| Resident Impacts                        |       |
|---|-------|
| Residents                               |       |
| New rental units (including vacancy)    | 498   |
| Persons per household (renter occupied) | 2.21  |
| Total residents                         | 1,100 |

# Table C Population Impacts – Residents<sup>1</sup>

<sup>1</sup>Source: 2013-2017 American Community Survey 5-Year Housing Estimates for Newton City, Massachusetts. See Appendix A of the fiscal impact analysis.

### **C. Student Impacts**

Table D below projects student population impacts resulting from the Project. Student impacts are calculated on a pro rata basis using existing and projected students, allocated among current revenues and expenditures. The methodology for calculating additional students in Scenario A is based on student generation factors provided in the *Enrollment Analysis Report: Appendix F* – *Method 3*. These factors were weighted by unit type to take into consideration the greatest percentage of families with school age children relative to number of bedrooms. The methodology for calculating additional students in Scenario B is based on actual student data for comparable projects as also provided in the *Enrollment Analysis Report: Appendix F* – *Method 1*.

 Table D

 Population Impacts – Students<sup>1</sup>

| Student Impacts                         |               |               |
|---|---------------|---------------|
|   | Scenario A    | Scenario B    |
| Students generated (See Schedule VII-A) | 138           | 83            |
| Impact per student <sup>2</sup>         | (\$15,667)    | (\$15,667)    |
| Subtotal student impacts                | (\$2,161,925) | (\$1,300,497) |

<sup>1</sup>See Schedule VII-A. Scenario A and B students generated are based on methodology for calculating expected students based on data provided in the *Enrollment Analysis Report: Appendix F*.

<sup>2</sup>Includes charges for services, Chapter 70 school aid, school expenditures and transfers to other funds.

#### **D.** Fiscal Impacts

Tables E-1, E-2 and E-3 below and on the following page compare the projected revenues and expenses resulting from new and existing development, along with the net fiscal impacts to the City of Newton, annually at full build-out between Scenario A and Scenario B. The projected revenues and expenses are shown in today's dollars.

# Table E-1 Projected Fiscal Impacts (Full Build-Out)

|   | Annual (Full  | Annual (Full Build-Out) |  |
|---|---------------|-------------------------|--|
|   | Scenario A    | Scenario B              |  |
| Real property tax revenues (See Schedule I)                               | \$5,227,470   | \$5,227,470             |  |
| Additional revenues (See Schedule V) <sup>1</sup>                         | \$362,413     | \$362,413               |  |
| City of Newton tax revenues   | \$5,589,884   | \$5,589,884             |  |
| City of Newton police and fire expenditures (See Schedule VI)             | (\$503,595)   | (\$503,595)             |  |
| City of Newton student expenditures (See Schedule VII-B)                  | (\$2,161,925) | (\$1,300,497)           |  |
| City of Newton general fund expenditures (See Schedule VIII) <sup>2</sup> | (\$595,997)   | (\$595,997)             |  |
| City of Newton net fiscal impact  | \$2,328,367   | \$3,189,794             |  |

<sup>1</sup>Additional revenues include motor vehicle excise taxes, meals taxes, hotel and motel taxes, recreation, parking violations and fines and unrestricted government aid.

<sup>2</sup>Additional expenses include treasury collection and public works.

# Table E-2 Existing Development Fiscal Impacts (Full Build-Out)

|  | Annual (Full | Annual (Full Build-Out) |  |
|--|--------------|-------------------------|--|
|  | Scenario A   | Scenario B              |  |
| Real property tax revenues (See Schedule IX)                               | \$596,206    | \$596,206               |  |
| Additional revenues (See Schedule X) <sup>1</sup>                          | \$2,823      | \$2,823                 |  |
| City of Newton tax revenues  | \$599,029    | \$599,029               |  |
| City of Newtown police and fire expenditures (See Schedule XI)             | (\$35,601)   | (\$35,601)              |  |
| City of Newton student expenditures <sup>3</sup>                           | \$0          | \$0                     |  |
| City of Newton general fund expenditures (See Schedule $XI$ ) <sup>2</sup> | (\$15,763)   | (\$15,763)              |  |
| City of Newton net fiscal impact   | \$547,664    | \$547,664               |  |

<sup>1</sup>Revenues include, meals taxes, hotel and motel taxes, parking violations and fines and unrestricted government aid.

<sup>2</sup>Expenses include treasury collection and public works.

<sup>3</sup>The existing development consists of a hotel and no student residents.

To estimate the true, net new impacts, the existing development fiscal impacts shown in table E-2 shall be netted out of the new development impacts shown in table E-1.

# Table E-3 Net New Fiscal Impacts (Full Build-Out)

|   | Annual (Full Build-Out) |             |
|---|-------------------------|-------------|
|   | Scenario A              | Scenario B  |
| Projected Riverside development net fiscal impact | \$2,328,367             | \$3,189,794 |
| Existing development net fiscal impact            | (\$547,664)             | (\$547,664) |
| City of Newton net new fiscal impact              | \$1,780,702             | \$2,642,130 |

## Sources

Employment impacts for the Project were calculated using IMPLAN software developed by MIG, Inc Development data was provided by Mark Development, LLC. Assessed values for tax increment projections were estimated by MuniCap, Inc. based on data from the Assessment Administration Department. Fiscal year 2019 revenue and expense data was provided by the Office of the Comptroller. Inclusionary housing unit assessed values were estimated by MuniCap, Inc. based on data from the Department of Planning and Development.

## Limitations

Projecting fiscal and employment impacts is not a precise science. Furthermore, there are different methods of projecting fiscal and employment impacts and different analysts will arrive at different conclusions. The conclusions in this study are not intended to be precise results, but rather, reasonable estimates that provide a general indication of the fiscal and employment impacts to the City of Newton from the proposed Project.

10-Sep-19

<sup>1</sup>Not all sources of revenues are expected to be impacted.

<sup>2</sup>Based on information provided in *City of Newton FY19 Budget*. Revenues do not match expenses due to the omission of school revenues.

<sup>3</sup>Represents the percent by which the proposed increase is assumed to be impacted.

<sup>4</sup>Method of apportioning revenues: Per resident revenues are calculated by taking current revenues and apportioning them among current residents and employees).

<sup>5</sup>Represents current statistics for City. See Appendix A.

<sup>6</sup>Represents proposed increase to City as a result of new development. See Appendix A.

<sup>7</sup>Represents total increase in revenues as a result of proposed development on an annual basis. Figures assume full build out and are expressed in current dollars.

<sup>8</sup>Assumes one-time licenses and permits revenues will be offset by corresponding one-time expenses. As a result, the line items are not impacted.

<sup>9</sup>Excludes Chapter 70 school aid. New student impacts are calculated on Schedule VII.

# Schedule VI: Projected Fire and Police Annual Expenses

|  | Fire and Rescue | Police Department | Total     |
|--|-----------------|-------------------|-----------|
| City of Newton FY19 budget allocation <sup>1</sup>     | \$23,454,298    | \$22,458,284      | -         |
| Current Newton total service calls <sup>2</sup>        | 10,285          | 46,000            | -         |
| Expenses per total service call                        | \$2,280.44      | \$488.22          |           |
| Projected increase in total service calls <sup>3</sup> | 128             | 434               | -         |
| Expenses per service call                              | \$2,280.44      | \$488.22          | -         |
| Projected annual increase in expenses                  | \$291,679       | \$211,916         | \$503,595 |

10-Sep-19

<sup>1</sup>Represents the revenues and expenses expected to be impacted by student enrollment.

<sup>2</sup>Based on information provided in City of Newton FY19 Budget.

<sup>3</sup>Represents the percent by which the proposed increase is assumed to be impacted.

<sup>4</sup>Method of apportioning impacts: per student impacts are calculated by taking current revenues or expenses and apportioning them amount the current student population.

<sup>5</sup>Represents current statistics for City. See Appendix A.

<sup>6</sup>See Schedule VII-A.

<sup>7</sup>Represents total net change in budget items impacted by student enrollment as a result of proposed development on an annual basis. Figures assume full build out and are expressed in current dollars.

Schedule VIII: Additional Expenses to City of Newton - Annual

MuniCap, Inc.

<sup>1</sup>Not all expenditures are expected to be impacted.

<sup>2</sup>Based on information provided in City of Newton FY19 Budget. Expenses shown do not match revenues due to the omission of school expenses.

<sup>3</sup>Represents the percent by which the proposed increase is assumed to be impacted.

<sup>4</sup>Method of apportioning expenditures: Total service population expenses are calculated by taking current expenses and apportioning them amount the current total service population (residents and employees).

<sup>5</sup>Represents current statistics for City. See Appendix A.

<sup>6</sup>Represents proposed increase to City as a result of new development. See Appendix A.

<sup>7</sup>Represents total increase in expenditures as a result of proposed development on an annual basis. Figures assume full build out and are expressed in current dollars.

<sup>8</sup>Excludes expenses relating to Newton Public Schools. New student impacts are calculated on Schedule VII-A and VII-B.

10-Sep-19

S:\CONSULTING\Mark Development LLC\Riverside Project\FIA\Analysis\[Riverside- FIA Scenario A No. 2.xlsx]X 10-Sep-19

<sup>1</sup>Not all sources of revenues are expected to be impacted.

<sup>2</sup>Based on information provided in City of Newton FY19 Budget. Revenues do not match expenses due to the omission of school revenues.

<sup>3</sup>Represents the percent by which the proposed increase is assumed to be impacted.

<sup>4</sup>Method of apportioning revenues: Per resident revenues are calculated by taking current revenues and apportioning them among current resident population. Total service population revenues are calculated by taking current revenues and apportioning them among the current total service population (residents and employees).

<sup>5</sup>Represents current statistics for City. See Appendix A.

<sup>6</sup>Represents the current service factor to City as a result of existing development. Appendix A.

<sup>7</sup>Represents total increase in revenues as a result of existing development on an annual basis. Figures assume full build out and are expressed in current dollars.

<sup>8</sup>Assumes one-time licenses and permits revenues will be offset by corresponding one-time expenses. As a result, the line items are not impacted.

<sup>9</sup>Excludes Chapter 70 school aid. There are no existing student impacts related to the current development as all development is commercial.

# Schedule XI: Existing Fire and Police Annual Expenses

|  | Fire and Rescue | Police Department | Total    |
|--|-----------------|-------------------|----------|

10-Sep-19

<sup>1</sup>Not all expenditures are expected to be impacted.

<sup>2</sup>Based on information provided in City of Newton FY19 Budget. Expenses shown do not match revenues due to the omission of school expenses.

<sup>3</sup>Represents the percent by which the proposed increase is assumed to be impacted.

<sup>4</sup>Method of apportioning expenditures: Total service population expenses are calculated by taking current expenses and apportioning them amount the current total service population (residents and employees).

<sup>5</sup>Represents current statistics for City. See Appendix A.

<sup>6</sup>Represents the current service factor to City as a result of existing development. Appendix A.

<sup>7</sup>Represents total increase in expenditures as a result of existing development on an annual basis. Figures assume full build out and are expressed in current dollars.

<sup>8</sup>Excludes expenses relating to Newton Public Schools. Expenses related to schools and students are not impacted for existing development.

Appendices

#### Appendix A: Revenues and Expenses to City of Newton (Allocation Factors)

| Newton residents employed in the city <sup>2</sup>  | 5,937                  |
|---|------------------------|
| Non-resident workers <sup>2</sup>   | 49,830                 |
| Employee population equivalent <sup>3</sup>   | 49,830                 |
| Total service population <sup>4</sup>   | 144,671                |
| Percent of newly created City of Newton employees assumed to live in City of Newton <sup>5</sup>      | 10.6%                  |
| Percent of newly created City of Newton employees assumed to live outside City of Newton <sup>6</sup> | 89.4%                  |
| Service population rates  |                        |
| Resident  | 1.00                   |
| Employee <sup>3</sup>   | 1.00                   |
| Proposed new rentals <sup>7</sup>   | 524                    |
| Vacancy rate <sup>8</sup>   | 5.0%                   |
| Occupied new households   | 498                    |
| Persons per household (renter occupied) <sup>9</sup>  | 2.21                   |
| Expected population increase <sup>10</sup>  | 1,100                  |
| Current students <sup>11</sup>  | 13,000                 |
| Projected student increase <sup>12</sup>  | 138                    |
| Total population increase   | 1,238                  |
| Projected new employees <sup>13</sup>   | 1,412                  |
| Projected new employee population equivalent <sup>3</sup>   | 1,412                  |
| Total new service population increase <sup>14</sup>   | 2,650                  |
| Projected new non-resident employees <sup>15</sup>  | 1,262                  |
| Projected new non-resident employee population equivalent <sup>3</sup>                                | 1,262                  |
| Net service population increase <sup>16</sup>   | 2,500                  |
| Current Newton real property tax revenues (per \$1,000) <sup>17</sup>                                 | \$342,184              |
| Projected increase in Newton's real property tax revenues (per \$1,000) <sup>18</sup>                 | \$5,227                |

<sup>1</sup>Based on projected development at full buildout. See Schedule I.

<sup>2</sup>See Appendix C.

<sup>3</sup>Retail wages, jobs, and output were calculated using IMPLAN software by IMPLAN Group, LLC. The software calculates labor income and the number of jobs based on industry multipliers derived from National Income and Product Accounts data published by the U.S. Bureau of Economic Analysis. This data is then indexed to local industry data compiled by the U.S. Census Bureau. For ease of interpretation, multipliers are shown to illustrate the effects retail development within the Riverside development will have in the City of Newton. The multiplier for retail jobs is 1.2370, meaning that for each job at the development, 1.2370 jobs will be created in Newton, including the job at the development. Similarly, the multiplier for the retail wages is 1.5258, meaning that for every \$1.00 paid in retail wages at the development, \$1.5258 will be paid in Newton, including the \$1.00 at the development. The multiplier for retail output is 1.7326, meaning that for each dollar of retail economic activity at the development, the economic activity in Newton will be \$1.7326, including the \$1.00 at the development.

<sup>4</sup>Total jobs include all full-year employees, including part-time and full-time employees. This factor, provided by IMPLAN Group, LLC converts total jobs into total full-time equivalent employees ("FTE's").

<sup>5</sup>Total labor income includes wages and salary, benefits, payroll taxes, and proprietor's income. This factor, provided by IMPLAN Group, LLC converts total labor income into direct wages and salary.

### Appendix D-2: Permanent Jobs and Indirect Impacts - Office

|  | Total         |
|--|---------------|
| Total office square feet <sup>1</sup>        | 523,509       |
| Square feet per office worker <sup>2</sup>   | 379           |
| Total office jobs <sup>3</sup>               | 1,357         |
| Full time equivalent factor <sup>3</sup>     | 0.9102        |
| Total full time equivalent employees ("FTE") | 1,235         |
| Total FTE jobs per 1,000 square feet         | 2.36          |
| Total labor income <sup>4</sup>              | \$97,730,109  |
| Labor income to wage factor <sup>4</sup>     | 1.1837        |
| Sub-total employee wages                     | \$82,565,751  |
| Average office income per FTE annual         | \$79,144      |
| Average office wage per FTE annual           | \$66,863      |
| Multiplier for office income <sup>5</sup>    | 1.4310        |
| Total income                                 | \$139,848,573 |
| Indirect and induced income                  | \$42,118,464  |
| Multiplier for office jobs <sup>5</sup>      | 1.5059        |
| Total jobs                                   | 2,043         |
| Indirect jobs                                | 686           |
| Multiplier for office output <sup>5</sup>    | 1.6801        |
| Total economic output                        | \$260,508,083 |
| Direct Output                                | \$155,050,720 |
| Indirect output                              | \$105,457,363 |

<sup>1</sup>Not all sources of revenues are expected to be impacted.

<sup>2</sup>Based on information provided in *City of Newton FY19 Budget*. Revenues do not match expenses due to the omission of school revenues.

<sup>3</sup>Represents the percent by which the proposed increase is assumed to be impacted.

<sup>4</sup>Method of apportioning revenues: Per resident revenues are calculated by taking current revenues and apportioning them among current residents and employees).

<sup>5</sup>Represents current statistics for City. See Appendix A.

<sup>6</sup>Represents proposed increase to City as a result of new development. See Appendix A.

<sup>7</sup>Represents total increase in revenues as a result of proposed development on an annual basis. Figures assume full build out and are expressed in current dollars.

<sup>8</sup>Assumes one-time licenses and permits revenues will be offset by corresponding one-time expenses. As a result, the line items are not impacted.

<sup>9</sup>Excludes Chapter 70 school aid. New student impacts are calculated on Schedule VII.

# Schedule VI: Projected Fire and Police Annual Expenses

|  | Fire and Rescue | Police Department | Total     |
|--|-----------------|-------------------|-----------|
| City of Newton FY19 budget allocation <sup>1</sup>     | \$23,454,298    | \$22,458,284      | -         |
| Current Newton total service calls <sup>2</sup>        | 10,285          | 46,000            | -         |
| Expenses per total service call                        | \$2,280.44      | \$488.22          |           |
| Projected increase in total service calls <sup>3</sup> | 128             | 434               | -         |
| Expenses per service call                              | \$2,280.44      | \$488.22          | -         |
| Projected annual increase in expenses                  | \$291,679       | \$211,916         | \$503,595 |

10-Sep-19

<sup>1</sup>Represents the revenues and expenses expected to be impacted by student enrollment.

<sup>2</sup>Based on information provided in City of Newton FY19 Budget.

<sup>3</sup>Represents the percent by which the proposed increase is assumed to be impacted.

<sup>4</sup>Method of apportioning impacts: per student impacts are calculated by taking current revenues or expenses and apportioning them amount the current student population.

<sup>5</sup>Represents current statistics for City. See Appendix A.

<sup>6</sup>See Schedule VII-A.

<sup>7</sup>Represents total net change in budget items impacted by student enrollment as a result of proposed development on an annual basis. Figures assume full build out and are expressed in current dollars.

#### Newton, Massachusetts

#### Schedule VIII: Additional Expenses to City of Newton - Annual

10-Sep-19

<sup>1</sup>Not all expenditures are expected to be impacted.

<sup>2</sup>Based on information provided in City of Newton FY19 Budget. Expenses shown do not match revenues due to the omission of school expenses.

<sup>3</sup>Represents the percent by which the proposed increase is assumed to be impacted.

<sup>4</sup>Method of apportioning expenditures: Total service population expenses are calculated by taking current expenses and apportioning them amount the current total service population (residents and employees).

<sup>5</sup>Represents current statistics for City. See Appendix A.

<sup>6</sup>Represents proposed increase to City as a result of new development. See Appendix A.

<sup>7</sup>Represents total increase in expenditures as a result of proposed development on an annual basis. Figures assume full build out and are expressed in current dollars.

<sup>8</sup>Excludes expenses relating to Newton Public Schools. New student impacts are calculated on Schedule VII-A and VII-B.

S:\CONSULTING\Mark Development LLC\Riverside Project\FlA\Analysis\[Riverside- FlA Scenario B No. 2.xlsx]X 10-Sep-19

<sup>1</sup>Not all sources of revenues are expected to be impacted.

<sup>2</sup>Based on information provided in City of Newton FY19 Budget. Revenues do not match expenses due to the omission of school revenues.

<sup>3</sup>Represents the percent by which the proposed increase is assumed to be impacted.

<sup>4</sup>Method of apportioning revenues: Per resident revenues are calculated by taking current revenues and apportioning them among current resident population. Total service population revenues are calculated by taking current revenues and apportioning them among the current total service population (residents and employees).

<sup>5</sup>Represents current statistics for City. See Appendix A.

<sup>6</sup>Represents the current service factor to City as a result of existing development. Appendix A.

<sup>7</sup>Represents total increase in revenues as a result of existing development on an annual basis. Figures assume full build out and are expressed in current dollars.

<sup>8</sup>Assumes one-time licenses and permits revenues will be offset by corresponding one-time expenses. As a result, the line items are not impacted.

<sup>9</sup>Excludes Chapter 70 school aid. There are no existing student impacts related to the current development as all development is commercial.

# Schedule XI: Existing Fire and Police Annual Expenses

S:\CONSULTING\Mark Development LLC\Riverside Project\FIA\Analysis\[Riverside-FIA Scenario B No. 2.xlsx]XII

10-Sep-19

<sup>1</sup>Not all expenditures are expected to be impacted.

<sup>2</sup>Based on information provided in City of Newton FY19 Budget. Expenses shown do not match revenues due to the omission of school expenses.

<sup>3</sup>Represents the percent by which the proposed increase is assumed to be impacted.

<sup>4</sup>Method of apportioning expenditures: Total service population expenses are calculated by taking current expenses and apportioning them amount the current total service population (residents and employees).

<sup>5</sup>Represents current statistics for City. See Appendix A.

<sup>6</sup>Represents the current service factor to City as a result of existing development. Appendix A.

<sup>7</sup>Represents total increase in expenditures as a result of existing development on an annual basis. Figures assume full build out and are expressed in current dollars.

<sup>8</sup>Excludes expenses relating to Newton Public Schools. Expenses related to schools and students are not impacted for existing development.

Appendices

### Appendix A: Revenues and Expenses to City of Newton (Allocation Factors)

| City of Newton permanent population <sup>1</sup>   | 88,904                        |
|--|-------------------------------|
| Newton residents employed in the city <sup>2</sup>   | 5,937                         |
| Non-resident workers <sup>2</sup>  | 49,830                        |
| Employee population equivalent <sup>3</sup>  | 49,830                        |
| Total service population <sup>4</sup>  | 144,671                       |
| Percent of newly created City of Newton employees assumed to live in City of Newton <sup>5</sup>           | 10.6%                         |
| Percent of newly created City of Newton employees assumed to live outside City of Newton <sup>6</sup>      | 89.4%                         |
| Service population rates   |                               |
| Resident   | 1.00                          |
| Employee <sup>3</sup>  | 1.00                          |
| Proposed new rentals <sup>7</sup>  | 524                           |
| Vacancy rate <sup>8</sup>  | 5.0%                          |
| Occupied new households  | 498                           |
| Persons per household (renter occupied) <sup>9</sup>   | 2.21                          |
| Expected population increase <sup>10</sup>   | 1,100                         |
| Current students <sup>11</sup>   | 13,000                        |
| Projected student increase <sup>12</sup>   | 138                           |
| Total population increase  | 1,238                         |
| Projected new employees <sup>13</sup>  | 1,412                         |
| Projected new employee population equivalent <sup>3</sup>  | 1,412                         |
| Total new service population increase <sup>14</sup>  | 2,650                         |
| Projected new non-resident employees <sup>15</sup>   | 1,262                         |
| Projected new non-resident employee population equivalent <sup>3</sup>                                     | 1,262                         |
| Net service population increase <sup>16</sup>  | 2,500                         |
| Current Newton real property tax revenues (per \$1,000) <sup>17</sup>                                      | \$342,184                     |
| Projected increase in Newton's real property tax revenues (per \$1,000) <sup>18</sup>                      | \$5,227                       |

<sup>2</sup>See Appendix C.

<sup>3</sup>Retail wages, jobs, and output were calculated using IMPLAN software by IMPLAN Group, LLC. The software calculates labor income and the number of jobs based on industry multipliers derived from National Income and Product Accounts data published by the U.S. Bureau of Economic Analysis. This data is then indexed to local industry data compiled by the U.S. Census Bureau. For ease of interpretation, multipliers are shown to illustrate the effects retail development within the Riverside development will have in the City of Newton. The multiplier for retail jobs is 1.2370, meaning that for each job at the development, 1.2370 jobs will be created in Newton, including the job at the development. Similarly, the multiplier for the retail wages is 1.5258, meaning that for every \$1.00 paid in retail wages at the development, \$1.5258 will be paid in Newton, including the \$1.00 at the development. The multiplier for retail output is 1.7326, meaning that for each dollar of retail economic activity at the development, the economic activity in Newton will be \$1.7326, including the \$1.00 at the development.

<sup>4</sup>Total jobs include all full-year employees, including part-time and full-time employees. This factor, provided by IMPLAN Group, LLC converts total jobs into total full-time equivalent employees ("FTE's").

<sup>5</sup>Total labor income includes wages and salary, benefits, payroll taxes, and proprietor's income. This factor, provided by IMPLAN Group, LLC converts total labor income into direct wages and salary.

### Appendix D-2: Permanent Jobs and Indirect Impacts - Office

|  | Total         |
|--|---------------|
| Total office square feet <sup>1</sup>        | 523,509       |
| Square feet per office worker <sup>2</sup>   | 379           |
| Total office jobs <sup>3</sup>               | 1,357         |
| Full time equivalent factor <sup>3</sup>     | 0.9102        |
| Total full time equivalent employees ("FTE") | 1,235         |
| Total FTE jobs per 1,000 square feet         | 2.36          |
