Dear City Councilors,

I urge you to vote for the rezoning and special permit for Washington Place. This well designed development will bring much needed one-floor housing options for the thousands of Newton seniors will want to downsize from their large single family homes into an apartment. We also want options for our adult children to be able to continue to live in the community where they grew up.

Washington Place is ideal for individuals who want to give up their cars and be able to walk to all the amenities available in Newtonville.

Regards, Tamara J. Bliss
