Subject: Orr Letter Post Script

Dear Land Use Committee, especially those Members who were not in attendance last evening at the last Orr Block Public Hearing,

Some Questions for you:

1. Would you kindly read/review the comments spoken by Bob Smith and Peter Harrington last eve? More than any other speakers I've heard, they speak to the core legal responsibilities of your official mandate.
2. Would you make the residents of Newtonville Village your chief #1 priority (as mandated by our zoning change laws)? Would you acknowledge the literal shock this gargantuan project would be to us? 3,000 Signatures Opposed! I don't have to ask you how hard it is to get thousands of signatures. This is about as strong as local opposition can get!
3. Would you acknowledge that this proposal does not need to meet all the goals of the City's Comprehensive Plan----that those goals can be met incrementally? Mr. Korff is buying other property (ies?) nearby.
4. The Traffic: Gridlock?
5. Please do not punt this decision.
6. Would you make sure to visit the site when the balloons go up?

A sincere Thank You for all of your efforts on behalf of Newtonville and elsewhere in our beloved accumulation of Villages!

Bonnie Foz
 16 Page Rd.
