Board of Alderman
City of Newton
Newton, Massachusetts 02459

The following residents of the Imperial Towers at 280 Boylston Street, Newton have great concerns about the potential occupant of space at the Atrium Building at 300 Boylston Street. It has come to the residents' attention that the primary occupant will be a biotech laboratory, but several inquiries have failed to determine exactly how the laboratory will operate.

Without specific assurances and information, the undersigned hereby objects to a laboratory that may adversely affect the well-being and health of the residents of 280 Boylston Street and others in the immediate area.

We look forward to hearing from you.
