Nadia,

Forwarded this e-mail to the City Council, then realized I had forgotten to add you to the list.

David

Hi David,

Please forward my email to the councilors.

There should never be any zoning changes for any developer who purchases a property.

The proposed building is too dense for that location.

Historic buildings should be saved and not torn down.

Newton was the garden city but our villages are turning into over developed locations.

Tragic.
