

**CITY OF NEWTON
DEPARTMENT OF PUBLIC WORKS
ENGINEERING DIVISION**

MEMORANDUM

To: Alderman Mark Laredo, Land Use Committee Chairman

From: John Daghlian, Associate City Engineer

Re: Special Permit – 320 Needham Street

Date: August 14, 2014

CC: Lou Taverna, PE City Engineer
Linda Finucane, Associate City Clerk
Alexandria Ananth, Chief Planner
Dan Sexton, Sr. Planner

In reference to the above site, I have the following comments for a plan entitled:

*Site improvements Plan
Newton, MA
Prepared by: Stantec
Dated: 8/1/14*

Executive Summary:

A portion of an existing asphalt parking lot will be converted to a play area for the day care center. The one concern is that there should be a fenced in path to corral the children from the building to the play area without the potential to running out into the area between parked and moving vehicles. Since all the improvements are over existing impervious areas no drainage improvements are warranted, however; the site should be graded and constructed so that no increase in rate of runoff is directed to the abutting property.

General:

1. All trench excavation contractors shall comply with Massachusetts General Laws Chapter 82A, Trench Excavation Safety Requirements, to protect the general public from unauthorized access to unattended trenches. Trench Excavation Permit required. This applies to all trenches on public and private property. *This note shall be incorporated onto the plans*
2. The applicant will have to apply for a Building Permits with the Department of Inspectional Service prior to any construction.
3. Prior to Occupancy Permit being issued, an As-Built Plan shall be submitted to the Engineering Division in both digital format and in hard copy. The plan should show all utilities and final grades, any easements and final grading. *This note must be incorporated onto the site plan.*
4. If a Certificate of Occupancy is requested prior to all site work being completed. *This note must be incorporated onto the site plan.*

Note: If the plans are updated it is the responsibility of the Applicant to provide all City Departments [Conservation Commission, ISD, and Engineering] involved in the permitting and approval process with complete and consistent plans.

If you have any questions or concerns please feel free to contact me @ 617-796-1023.
