June 11<sup>th</sup>, 2013

To whom it may concern,

The Land agreement between the Sostek's Land and the new construction has been in existence for over 80 years. This agreement should not be altered if it would impact on their access and use of the property.

As per public record, the original plans filed with the city included two parking spaces, one on Alderwood and the other on Burrage Road. That the parking space be built on Burrage road we would be in agreement. We are immediate next-door neighbors and the parking would be on our lot line - not our land.

Tonight an assessment must be made as to whether the impact of a variance would impact the Sostek's ability to access their property, or have any further negative implications.

The builder had subcontracted to demolish the previous house. During the destruction of the foundation, our house acquired cracks. The builder was informed. He has not as yet inspected the damage.

Sincerely,  
Rozanne Milner
