Newton, MA 02459

The current design has no place for other yards snow to be stored but in front of their garage or on our property

snow ht	cu ft
1/2	22.5
1	45
2	90

This area is about 30 cu ft at 1 foot
It is usually 4 to 6 feet high which is 120 to 150
cu ft of snow storage. With the stone wall this
area is lost
