Subject: Please support Washington Place

Members of the City Council,

We cannot continue to be a city for all citizens if we reject mixed use development. Our daughter and grand daughter cannot afford to live in our city because we have resisted a real commitment to affordable housing for too long. We cannot have vibrant villages if they are little more than havens for banks, STARBUCKS, and salons. We cannot live in the past with a bucolic vision of Newton that has not existed for 100 years

Washington Place offers a vibrant mix of (affordable) housing and community oriented neighborhood businesses with direct access to the T and commuter rail. Please vote to support this sound development for Newton's future.

Respectfully,

/Ed Dailey
