David A. Olson, CMC  
Newton, MA 02459  
As a Newton resident, I am strongly in favor of the Washington Place redevelopment being planned in Newtonville. We need more innovative, smart, forward thinking developments that add both new commercial space and more workforce housing to Newton.

Newtonville in particular really needs this project. Washington Place could be a real community-center for that part of town and I think that's great and sorely needed. It will also feature art and cultural exhibits open to the public, which is another strong addition to the community for Newtonville. I know some in that area are concerned about the height and scope of the project, but I do think that they will love it once it is built. Please approve Washington Place!

Best Regards,

Jami Strangio
