

Dear Councilor Mah Sangiolo:

I support the proposed Washington Place project. I have seen the renderings and site plan and believe that it will be a great replacement for the Orr Block building and will significantly improve the neighborhood.

Washington Place will revitalize the surrounding area bringing it back to life. New business, people, and attractions will provide new opportunity and experiences to Newtonville. One hundred and seventy-one brand new apartment units, many affordable, will help supply surrounding businesses with steady walk-in traffic.

A beautiful 10,000 sq foot courtyard is being provided by this development as well as are significant improvements to the surrounding traffic infrastructure. Newtonville wants Washington Place and Newtonville needs Washington Place.

Thanks,

Susan Liller
