Subject: Fwd: Fw: Presentation re Orr block on Thursday night Oct 6

Hi Alexandra,

I can see how the traffic pattern study is an issue, but one thing not addressed is what would be the actual expected changes to the overall traffic flow (increase/same/decrease)? Since there are already businesses operating on the block, I would like to see the study reflect how much "additional traffic" is in play and the peak times, etc based on the types of new businesses being proposed.

Thank you.

Jim
