In reference to the above site, I have the following comments for a plan entitled:

The Village Café
719 Washington Street
Newton, MA
Prepared by: Donald Lang Architects
Dated: 12/9/13

Executive Summary:

There are no Engineering issues with this permit, however; as a Public benefit, the applicant may want to improve the sidewalk along the frontage for the benefit of its patrons.

Note: If the plans are updated it is the responsibility of the Applicant to provide all City Departments [Conservation Commission, ISD, and Engineering] involved in the permitting and approval process with complete and consistent plans.
