Re: BBCC-Grille Room and Lounge Renovation

To Whom it May Concern,

The Grille Room and Lounge Renovation at the Brae Burn CC, located at 326 Fuller St. W. Newton, MA 02465, will not include any removal of existing roofs, with the exception of repair and replacement to the exterior roof finishes due to weathering or rot.

In addition, the rear and side elevations of the existing structure will be renovated with the understanding that no more than 50% of the existing walls shall be removed on either elevation during demolition or construction.

Respectfully Submitted,

William Soupcoff, AIA
Principal
