

CITY OF NEWTON

IN CITY COUNCIL

ORDERED:

That the City Council, finding that the public convenience and welfare will be substantially served by its action, that the use of the site will be in harmony with the conditions, safeguards and limitations set forth in the Zoning Ordinance, and that said action will be without substantial detriment to the public good, and without substantially derogating from the intent or purpose of the Zoning Ordinance, grants approval of a SPECIAL PERMIT/SITE PLAN APPROVAL to further extend the non-conforming four story structure, further extend the non-conforming use, and amend the previously approved site plan, as recommended by the Land Use Committee for the reasons given by the Committee through its Chairman, Councilor Gregory Schwartz:

1. The site is an appropriate location for the proposed amendments to Board Orders #147-79(2), #147-79(3), and #292-93 as the proposed addition complements the existing building and complies with the conditions of all prior board orders. (§7.3.3.C.1)
2. The proposed amendments to Board Orders #147-79(2), #147-79(3), and #292-93 will not adversely affect the neighborhood as the project is not visible from a public right of way and located in the rear of the building. (§7.3.3.C.2)
3. The proposed amendments to Board Orders #147-79(2), #147-79(3), and #292-93 will not create a nuisance or serious hazard to vehicles or pedestrians as the proposed expansion is not impacting existing parking or traffic conditions. (§7.3.3.C.3)
4. Access to the site over streets is appropriate for the types and numbers of vehicles as the site will continue to have adequate access. (§7.3.3.C.4)
5. The proposed addition will not be substantially more detrimental than the existing nonconforming multi-purpose community facility is to the neighborhood as there will be no change in the intensity of the use of the site. (§7.8.2.C.2)
