To whom it may concern,

I am an abutter to the property on 78 Lovett Road, Newton Centre, MA. The retaining wall that has been built in the back of the house is not only unsightly, but I believe that it is over the legal limits for the city of Newton. The wall in front of the house is also crooked in appearance. Additionally, I've been informed that the materials used for these walls, are typically used in commercial properties. Both of the walls detract from the aesthetic of Lovett Road, and their imposing appearance could ultimately decrease the value of my home, should I choose to sell it in the future. I strongly recommend that both walls be removed in their entirety. I would appreciate your serious consideration regarding this important issue.

Thank You,

Mildred F. Levitt
