March 14, 2014.

Dear Board of Alderman,

I am writing in support of the renovation project of our neighbors, Kim Boyd and Chris Lovett of 63 Kenwood Ave. Kim and Chris showed me their plans, which I feel are tasteful and fully in keeping with the style of the house and neighborhood. I live in a large home directly behind their property and there are many large homes in the surround. The modest bump out proposed in their plan really adds minimal volume to the existing house and, in my opinion, would not be unseemly or out of keeping for Newton Centre in any way. I feel confident in my support of their project and hope that you will see fit to grant them a special permit.

Sincerely,

A handwritten signature in black ink, appearing to read 'Erik Larson', with a long, sweeping underline.

March 14, 2014.

Dear Board of Alderman,

I am writing in support of the home renovation project of our neighbors, Kim Boyd and Chris Lovett of 63 Kenwood Avenue in Newton Center. I have seen the plans for their home renovation and feel that they are completely in keeping with the aesthetics of the current home and of our neighborhood. In fact, in my opinion the proposed changes will serve only to enhance the existing structure. I urge the committee to approve the special permit requested.

Sincerely,

Laury Sorensen
