NOTE: According to Article 1 Section 1B\* of our rules, the President may establish a special committee. Many climate action mitigation items were identified in the Climate Action Plan. I'm working on the creation of a Special Committee on Climate Action to handle these and give them the focus they deserve. More about this in January.

\*B. The President may appoint special committees as required by ordinance or Massachusetts general law such as the re-precincting, and re-codification committees, as well as special committees deemed necessary to deal with matters that affect the jurisdiction of more than one committee, or to deal with temporary matters, or both.
