Project FUNDING	A. CPA funds requested: \$400,000	B. CDBG funds requested: \$100,000	C. HOME funds requested: \$0	D. Other funds to be used: \$160,000	E. Total project cost: \$ 660,000
Project SUMMARY	<p>Explain how the project will use the requested CPA, CDBG, and City of Newton HOME funds. You may provide more detail in attachments, but your PROJECT SUMMARY MUST FIT IN THE SPACE BELOW. Use a cover letter for general information about the sponsoring organization's accomplishments.</p> <p>Nonantum Village Place (NVP) is permanent, affordable housing for seniors (62 years or older). The thirty- five (35) units are deed restricted as affordable in perpetuity. While NVP is income restricted to those with an income below 50% of Area Median Income (AMI), the majority of residents have incomes below 30% of AMI. NVP was built in 2004 by Cascap Inc. We are a local non -profit focused on service enriched housing to disabled and elderly residents. While the Dept of Housing and Urban Development (HUD) provided the majority of development funds through the HUD 202 Program for Supportive Housing for the Elderly, Newton provided significant funding through the CPA, CDBG, and NHA IZ funds.</p> <p>NVP is an architecturally detailed wood-frame building, with one-bedroom units and an on-site Resident Manager. Some building amenities include: seven fully accessible units; a twelve-car parking lot; a community kitchen, dining room, and large sitting room; laundry room; and staff offices. NVP provides residents with stable housing and a part time service coordinator for on-site supportive services, as well as plenty of common spaces to foster community and well-being.</p> <p>We are proposing to address the building's significant capital needs and to improve the building's energy efficiency. The building's roof (there are 3 levels of roofing), and air conditioning system will be replaced and upgraded. Prior roof leaks have been repaired, but all three levels are deteriorated and need replacement. To replace the roofs, the 35 condensers on the roof must be removed. The existing roof insulation will be increased to R-50. As well, the building siding and trim has portions (approx. 30%) that need to be replaced and painted.</p> <p>The current NVP residents will benefit greatly from proposed improvements, and our ability to invest in roof, HVAC system and siding in the near-term will preserve the building for many future residents.</p>

COMMUNITY NEEDS	From each of at least 2 plans linked to the Guidelines & Forms page of www.newtonma.gov/cpa , provide a brief quote with plan title, year, and page number, showing how this project meets previously recognized community needs. You may also list other community benefits not mentioned in any plan.
------------------------	---

The Nonantum Village Senior Housing Preservation project meets the following recognized community needs:

1. **Preserve much-needed affordable housing for a growing elderly population** – As identified in the “Newton Leads 2040” planning process, “While some retirees will be able to afford to age in place, many are forced to leave Newton if they choose to downsize since there are few options available” (Housing Needs Analysis and Strategic Recommendations, June 2016, pg. 38). These critical capital investments in Nonantum Village Place will preserve the longevity of the property and increase the well-being of its residents today. Likewise, the FY16-20 Consolidated Plan [for Housing and Community Development] finds that rehabbing existing affordable housing, particularly housing for elderly populations near amenities is a high priority (pg. 113).
2. **Reduce greenhouse gas emissions** – As identified in the Newton Comprehensive Plan (2007), Newton has an *Energy Action Plan* that aims to reduce greenhouse gas emissions (pg. 8-6). By replacing existing air conditioning units with modern, energy efficient fixtures and adding additional rooftop insulation, the building will reduce its carbon footprint.

COMMUNITY CONTACTS	List at least 3 Newton residents or organizations willing and able to comment on the project and its manager’s qualifications. No more than 1 should be a supervisor, employee or current work colleague of the project manager or sponsor. For housing projects, at least 2 contacts should reside in or near the project’s neighborhood.
