<b>Designation(s):</b>	
<b>Building Materials(s):</b>	Roof: Tar, Built-up Wall: Brick; Ceramic Tile; Granite; Stone, Cut Foundation: Concrete Unspecified

The Massachusetts Historical Commission (MHC) has converted this paper record to digital format as part of ongoing projects to scan records of the Inventory of Historic Assets of the Commonwealth and National Register of Historic Places nominations for Massachusetts. Efforts are ongoing and not all inventory or National Register records related to this resource may be available in digital format at this time.

The MACRIS database and scanned files are highly dynamic; new information is added daily and both database records and related scanned files may be updated as new information is incorporated into MHC files. Users should note that there may be a considerable lag time between the receipt of new or updated records by MHC and the appearance of related information in MACRIS. Users should also note that not all source materials for the MACRIS database are made available as scanned images. Users may consult the records, files and maps available in MHC's public research area at its offices at the State Archives Building, 220 Morrissey Boulevard, Boston, open M-F, 9-5.

Users of this digital material acknowledge that they have read and understood the MACRIS Information and Disclaimer (<http://mhc-macris.net/macrisdisclaimer.htm>)

Data available via the MACRIS web interface, and associated scanned files are for information purposes only. THE ACT OF CHECKING THIS DATABASE AND ASSOCIATED SCANNED FILES DOES NOT SUBSTITUTE FOR COMPLIANCE WITH APPLICABLE LOCAL, STATE OR FEDERAL LAWS AND REGULATIONS. IF YOU ARE REPRESENTING A DEVELOPER AND/OR A PROPOSED PROJECT THAT WILL REQUIRE A PERMIT, LICENSE OR FUNDING FROM ANY STATE OR FEDERAL AGENCY YOU MUST SUBMIT A PROJECT NOTIFICATION FORM TO MHC FOR MHC'S REVIEW AND COMMENT. You can obtain a copy of a PNF through the MHC web site ([www.sec.state.ma.us/mhc](http://www.sec.state.ma.us/mhc)) under the subject heading "MHC Forms."

## BUILDING FORM

NWT. 5793

### ARCHITECTURAL DESCRIPTION *see continuation sheet*

*Describe architectural features. Evaluate the characteristics of this building in terms of other buildings within the community.*

The Hawthorn Playground building, otherwise known as the Edwin O. Childs Recreation Center, is a red brick structure topped with a flat roof. The building is laid out in the shape of the letter "L", with the larger section consisting of two stories, and the smaller section consisting of only one. The one-story section projects eastward from the two-story section, and it contains the entry on its south side, as well as a memorial to the U.S. Armed Forces painted on its east end. The two-story section contains a gymnasium within, and is covered with decorative murals painted in its south and west sides. The southern mural shows Arthur Fiedler conducting the Boston Pops at the Hatch Shell; the northern mural depicts a streetscape with people walking and talking, cars driving by, animals wandering around. Also on this western section of the building are decorative granite/stone tiles creating a diamond pattern, which as a group form a decorative banding in the upper third of the wall area. Some windows are located above this level. A playground, outfitted with playground equipment installed in 1967 and designed for the adjacent play lot created by a landscape architecture firm, sits to the west of the building. To the south are playing fields for soccer, football and baseball, as well as tennis courts.

### HISTORICAL NARRATIVE *see continuation sheet*

*Explain history of the building. Explain its associations with local (or state) history. Include uses of the building, and the role(s) the owners/occupants played within the community.*

In 1922, 1.7 acres of land were acquired for the Hawthorn Playground, with an additional 1.13 acres being gained in 1931. The land of the playground was originally acquired by Italian residents of the community, who raised money to purchase this land (swamp land, at the time, which was being used by the city as a dumping ground for its trash), with the intention of creating a recreational facility. After turning the land from swamp to grass, the land soon became the park of which the residents had dreamed. However, when the maintenance and care of the park became unmanageable for the overseers (residents) the land was given to the city with the understanding that it would always be used as a park. The construction of the Hawthorn building occurred in 1950, and included a gymnasium. Known throughout Nonantum as the Edwin O. Childs Recreation Center, the building was named for Edwin O. Childs, who was mayor of Newton between 1914 and 1929, as well as between 1936 and 1939. Childs, a life-long resident of Newton, had always been involved with children's athletics around the city. The building has been used for year round recreation activity since it was built, as well as for community meetings, etc. Today, the land of the playground totals 4.2 acres.
