

Mayor Ruthanne Fuller and the City of Newton present NewCAL - The Newton Center for Active Living Construction Project

Investing Now for
Newton's Future

Conceptual Studies

The City of Newton's goal, as an age friendly community, is to build a large, well equipped, comfortable Center to:

- Meet the unique interests and needs of older adults, both those currently using the Senior Center and many others who are not.
- Foster a special sense of community and belonging for this growing group.
- Optimize the quality of life for Newton's older adults and those who support them,
- Provide welcoming, respectful, and meaningful opportunities that engage, value, and empower older adults to remain independent and important assets in our community

Investing in those who have invested in us, this project will be the first facility in the history of Newton constructed to meet the needs and interests of our older adults
