

Mayor Ruthanne Fuller and the City of Newton present Electric Vehicle Charging Station Projects

**Investing Now for
Newton's Future**

Public Buildings Department

Newton City Hall

Newton South High School

There are currently ten Level 2 EV Chargers installed by the City of Newton on City property that are available for public use. Ten additional stations are being installed during the summer and fall of 2021. Each charging station includes two ports which means they can each charge two cars simultaneously.

Locations of existing chargers are as follows: City Hall/War Memorial (5), 52 Elliot Street-Public Buildings Dept. (1), 90 Crafts Street-DPW (1), Richardson Street Parking Lot (1), Lexington Street Parking Lot (1).

New charging stations will be located as follows: Adams Street Parking Lot (1), Pearl Street Parking Lot (1), North HS under Lowell Ave. Solar Canopy (2), North HS under the Walnut Street Solar Canopy (2), Newton Free Library under the Solar Canopy (4). The City received a grant for \$28,000 from the Mass. Dept. of Environmental Protection to help pay for the eight charging stations at North HS and the Library.
